Bulls	8	25	25	25	25	25	25	25	25	25	25	25
Total	126	184										

Remarks:

AUS, or Animal Units, are calculated as follows
AUDs - Annual Unit Days

Mature Cow (x 1), Yearlings (x 0.75), Bull (x 1.25), Stockers (x 0.5)

USDA INDUSTRY STANDARD STOCKING RATE OR AUM INFO

AUM Definition= 1 AUM is a 2 year old mature cow weighing 1,000-1,400lbs with or without calf that consumes and estimated 26-30lbs of Dry Matter per day.

Mature Cow (2 Years Old) with or without Calf = 1 AUM

Weaned Calf 500Lbs = 0.5 AUM

Yearling Calf above 750lbs = 0.75 AUM

Bull Aprox up to 1,500lbs = 1.2 AUM

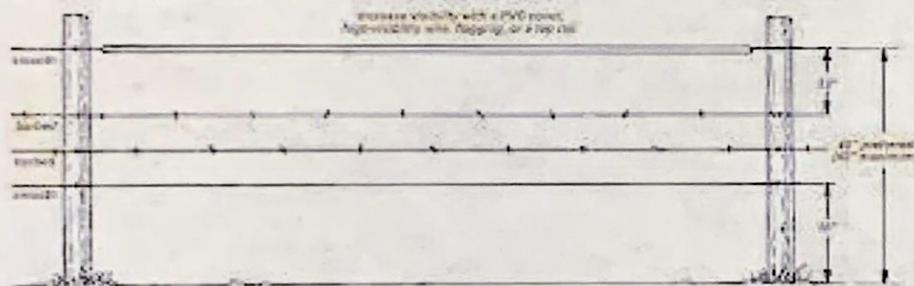

RESTORATION OF EXISTING WELLS

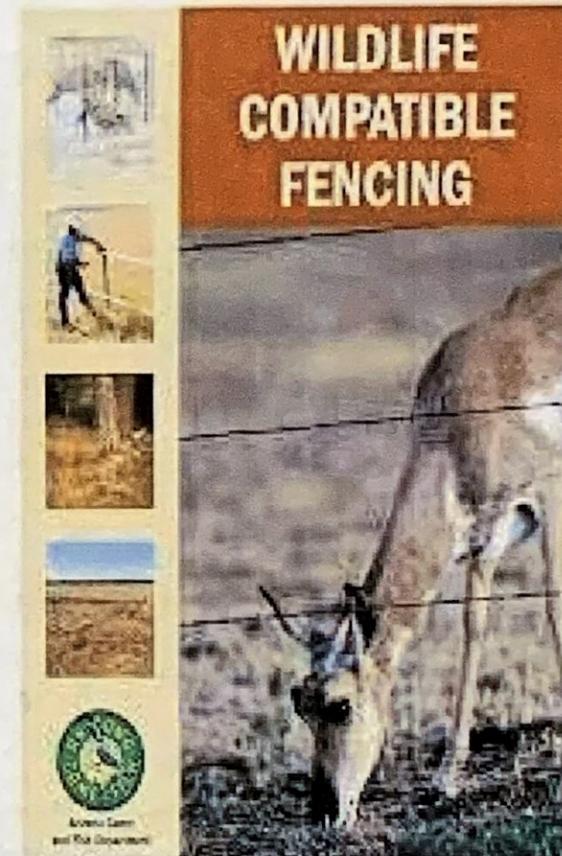

INTERNAL
Fence
07/14

WILDLIFE FRIENDLY FENCING

IDEAL WILDLIFE FRIENDLY FENCE

The horizontal fences are very visible and allow wild animals to easily jump over or slip under the wires or rails.

HCWA # 1 IN PICS 03/29/22

HCWA # 1 Out Pics 04/29/23

HCWA # 1

130 AUM Estimated consumption of 117,000-120,000 lbs of dry matter of light fire fuel vegetation and trampled and additional 134,500 lbs of standing dry matter In front of Urban High Value Homes

Observation Noted: A percentage of vegetation matter trampled is incorporated in the soil and not laying on top of the soil increasing soil organic matter which aids in Carbon Storage and Retention of Moisture in the Soil. This eventually aids in the improvement of preferred types of Vegetation and overall Rangeland Conditions

Vegetative Fuel Reduction Activities
