

2nd Amendment

The 148 acre Callahan property, APN 091-040-113, is owned by Raja Development Co Inc. and will be hence forth referred to as Raja Development in all mitigation monitoring reports and future amendments. The property indicated in the PSA is the exact same ownership boundary, and there is no need for any material change of the document to occur. The vegetation treatments along with the CEQA analysis and findings are not affected as a result of this amendment.
