

## Keywords October 2025

"functional wildlife habitat"

“ex situ” gene conservation

100% cruise

100-year flood flow

Abiotic

absolute stand density

Accipiter

Active Channel Width

activity fuel

Ad Velorem tax

adaptive genes

adaptive management

Adequate Site Occupancy

advection fog

Alluvial

alternative costs

Alternative Prescription

alternative stocking standard

anaerobic respiration

Angiosperm

Antecedent

anthropogenic

Antidumping duty

aquatic organism

archaeological background information

Archaeology survey

Armillaria mellea

Aspen clone

Baseline Monitoring

Beneficial Use

Best Management Practices

BI or Burning Index

Biltmore stick

biological diversity

biological legacies

blind lead

Board of Forestry and Fire Protection

Broaddus

Brood Material

CACTOS

Cadastral Survey

California Coastal Commission

California coho ESU

cambium

CEQA

Channel complexity

Channel Migration Zone

Channel Migration Zone

climate change

Coarse particulate matter, (PM10)

Coast Redwood

Coastal Nonpoint Pollution Control Program

Coastal Zone Management Act

codominant crown classes

coefficient of variation

commercial species

Community Fuelbreak

Compatible Use

Compliance Monitoring

cone and seed production

cone insects

Confidential Archaeological Addendum

Convergent slope form

coterminous USA

countable tree

County specific rules

Critical Dip

Crown fires

crown thinning

Crowning

cultural site

Cutting cycle

Cut-to-Length harvester

Danger Tree

Deactivated Road

Deciduous

Defensible Space

Dendrochronology

Density management diagrams

Depletion

design peak flows

desired future condition

diagram rule

Digital field recorder

Digital stand simulator

Dioecious

disconnect

Discounted cash flow

Diseased Trees

Domestic water supply

Dominant

dry weight tons

Dunning's Classification

dwarf mistletoe

Ecological sustainability

economic Demand

Economic Elasticity

Economic selection

Economic supply

Ecosystem

ecosystem

efficient logging pattern

endemic

enforceable protection measures

Environmental Protection Agency

epidemic

epiphytic

Estate Tax

ethical duty

evapotranspiration

exotic species

explain and justify

External yarding distance

Fagaceae

feasible alternatives

Federal Clean Air Act

Federal Endangered Species Act

Fiduciary

Financial Maturity

fire ignition risk

Fire protection zone

Fish

Fish and Game Code

Fishing pole methods of extending reach

fixed radius plots

forest financial analyses

Forest monitoring

forest pest

forest product prices

forest restoration

formula rule

Forwarder

Free Thinning

Free Trade

Fuels

Fugitive dust

Functional equivalent

future costs and revenue

gene flow

gene pool

genetic diversity

Genotype

Geotextiles

GLO Survey

good will

GPS

Greenhouse gas

growing space occupancy

growing-stock levels

High-Grading

Housing starts

Humus

Hydraulic excavators

Hyporheic flow

improved seeds

increaser plant

Inflation

Ingrowth

Injunction

Inner gorge

intangible benefit

Integrated pest management

interest rate for investment analysis

interglacial

Intermediate

Internal Rate of Return

Intolerant

Invasive Species

K-tag

La Niña

land use zoning

Landscape

large woody structure

Laser measuring devices

leaf stomata

Legally Permitted Structure

Licensed Surveyor

Lignin

linear program

live skyline

Log bale

log grades

Logging boom

logging costs

Logging live heel

Logging recovery rates

lump sum stumpage

LWS

Magnetic Declination

MAI

Management goals

Map scale

marginal cost

Marking guides

Maximum stand density

median

Midden

Minimum Stocking Standards

Minimum top diameter

minor deviation

Monitoring

Monoecious

natural climate system

Net present value

net volume basis

Nomograph

non-concurrence

non-monetary returns

non-point sources

normal stand tables

normal stocking

Northern spotted owls

Notice of Compliance

obligate species

open-pollinated seeds

outsloped

Overrun

PAI

paragraph structure

Phenotype

Phloem

*Pinus contorta murrayana* CA

plan Submitter

Planar slope form

Plantation yield data

PM 10

PNV

point sources

Porter-Cologne

potential conflicts of interest

potential significant adverse impact

prescribed fire

Primary production

private non-corporate entities

Professional Foresters Law

Property lien

property taxes

Public Land Survey System

QMD

quadrat

quadratic mean diameter

*Quercus kelloggii*

rate of return on the capital

real party of interest

real rate of interest

reforestation

Reforestation survey

Regional Water Quality Boards

Registered Professional Forester

regulated forest

Regulatory Costs

Rehabilitation

Reinecke stand density index

Relaskop

relative abundance

relative humidity

relative stand density

residual growing stock

Road grade

road standards

Rotating Grapple

rotation

rotational slump

route selection

RPF duties

Salmonids

sampling error

sawlog production

Secondary succession

seed banks

seed tree retention

seedbed

selection method

Selection silviculture

shaded fuelbreak

Shelterwood

Shovel logging

significance

significant adverse effects

silvicultural system

site boundaries

Site index

Slash mat

Soil compaction

solar insolation

SPLAT Strategically Placed landscape Area Treatments

Sporidia

Staff compass

stand composition

stand density index

stand structure

Stand Type

standard deviation

standing skyline

status monitoring

step point transect

Stock Table

Stocking

Strips cruise

stumpage

Surface Fuel Load

survey intensity

survey method

Sustained Yield Plan

Swing speeds

SWRCB

Tariff

teragrams

thinning

THP approval

Timber owner

Timber Production Zone (TPZ)

timberland owner

Timberland valuation

Time of Concentration

TMDL

Topographic maps

total volume basis

transpiration

trash rack

Tree Form Factor

tree marking

tree planting

Trend Monitoring

under-run

Universal Transverse Mercator

Uphill chucking

utilization standards

Validation Monitoring

vapor pressure gradient

variable plots

Variable Retention

virgin old-growth

waiver of waste discharge requirements

Wash boarding

Watercourse

Watercourse drafting

watershed restoration

weather

well-stocked

white pine blister rust

WHR

Winter Period

WLPZ

Yellow Pine Belt

young growth

young growth timber

Z'Berg-Nejedly Forest Practice Act

zone of imminent competition mortality
