I. INTRODUCTION

This grant guideline includes information about the California Department of Forestry and Fire Protection (CAL FIRE) Wildfire Prevention (WP) Grants Program. The Program is funded by Cap-and-Trade auction proceeds appropriated by the California Legislature to agencies that administer California Climate Investments (CCI).

Up to \$135 million is being allocated to CAL FIRE's WP Grants Program in Fiscal Year 2025-2026 from the CCI Greenhouse Gas Reduction Fund (GGRF) and the Safe Drinking Water, Wildfire Prevention, Drought Preparedness, and Clean Air Bond Act of 2024 (Proposition 4). For information about CAL FIRE's other CCI programs, please visit [CAL FIRE Grants](#).

WILDFIRE PREVENTION GRANTS PROGRAM SUMMARY

CAL FIRE's WP Grants Program provides funding for wildfire prevention projects and activities in and near wildfire-threatened communities that focus on increasing the protection of people, structures, and communities. Funded activities include Hazardous Fuels Reduction, Wildfire Prevention Planning, and Wildfire Prevention Education with an emphasis on improving public health and safety while reducing greenhouse gas emissions.

California's Strategic Fire Plan serves as a roadmap for project development. Projects are evaluated based on the overall benefit to reduce the threat of wildfires to people, structures, and communities. CAL FIRE will consider the wildfire hazards and risks to an area, the geographic balance of projects, and whether the project is complementary to other wildfire prevention or forest health activities when awarding grants. Projects benefiting disadvantaged communities or low-income communities, as defined by Health and Safety Code section 39713, projects that demonstrate a carbon benefit by reducing greenhouse gas emissions, and projects that contain matching funds will receive additional priority. Projects are selected on a competitive basis, and consecutive awards are not guaranteed. Disadvantaged and low-income communities can be determined using the process in Appendix F. Projects that demonstrate that they are providing maintenance of existing fuels reduction projects paid for by CAL FIRE or any other funding sources (i.e., other state funds, federal funds, or private funds) will also receive priority. Projects conducted by any local governmental entity qualified to perform defensible space assessments pursuant to Section 4291.5 in very high and high fire hazard severity zones, as identified by the State Fire Marshal pursuant to Section 51178 of the Government Code or Article 9 (commencing with Section 4201) of this chapter or by a local agency pursuant to Section 51179 of the Government Code, will receive priority if they utilize the common reporting platform created pursuant to subdivision (c) of Section 4291.5 to report that information.

CAL FIRE will provide technical expertise and management oversight of grants but may not be the primary agency or applicant for a project. CAL FIRE reserves the right to fund projects in

total or in part, whichever best serves the objectives of the Wildfire Prevention Grants Program. Project applicants that are selected to receive partial funding will be provided with additional information on their revised funding amount, project performance period, and any other changes to their application, as needed.

PROPOSITION 4 BACKGROUND

In November of 2024, California voters approved Proposition 4, a law proposed by Senate Bill 867, to fund water, climate, wildfire, and natural resource projects across the state of California. Proposition 4, among other things, will allocate \$1.5 billion for wildfire prevention, including reducing community wildfire risk and restoring the health and resilience of forests and landscapes. (Pub. Resources Code, section 91500, et seq.) Of this amount, \$185 million was made available to CAL FIRE Wildfire Prevention Grants as follows: “for projects that prevent wildfires, increase resilience, maintain existing wildfire risk reduction projects, reduce the risk of wildfires to communities, or increase home or community hardening.” (Pub. Resources Code, section 91520, subd. (h).) Projects shall benefit disadvantaged communities, severely disadvantaged communities, or vulnerable populations. To the extent feasible, a project whose application includes the use of services of the California Conservation Corps or certified community conservation corps, as defined in Section 14507.5, shall be given preference for receipt of a grant under this division (Pub. Resources Code, section 91500, et seq.). In addition, projects that leverage private, federal, and local funding or produce the greatest public benefit will also receive priority (Pub. Resources Code, section 90050, et seq.). Proposition 4 requires that at least 40 percent of the total funds available shall be allocated for projects that provide meaningful and direct benefits to vulnerable populations or disadvantaged communities. Of this 40 percent, at least 10 percent of the total funds available shall be allocated for projects that provide meaningful and direct benefits to severely disadvantaged communities.

GOVERNOR’S EXECUTIVE ORDER N-25-25

In addition, on March 1, 2025, Governor Newsom signed Executive Order N-25-25 to ensure that wildfire-safety projects funded under Assembly Bill 100 benefit from streamlining under the [Statewide Fuels Reduction Environmental Protection Plan \(EPP\)](#) created in response to the [Emergency Proclamation issued on March 1, 2025](#). The Governor’s Forest Management Task Force identified these priorities in [California’s Wildfire and Forest Resilience Action Plan](#).

QUALIFYING PROJECT TYPES AND ACTIVITIES FOR PROPOSITION 4

The WP Grants Program can only fund Hazardous Fuels Reduction projects for Proposition 4. Please see the Hazardous Fuels Reduction project and activities below for examples.

QUALIFYING PROJECT TYPES AND ACTIVITIES FOR CCI

The WP Grants Program funds three types of activities: Hazardous Fuels Reduction, Wildfire Prevention Planning, and Wildfire Prevention Education. Below are some examples of qualifying projects and activities:

HAZARDOUS FUELS REDUCTION

- Vegetation clearance in critical locations to reduce wildfire intensity and rate of spread.
- Creation or maintenance of fuel breaks in strategic locations, as identified in CAL FIRE Unit Fire Plans, a Community Wildfire Protection Plan, or similar strategic planning document.
- Maintenance of existing fuels reduction projects paid for by CAL FIRE or any other funding sources (i.e., other state funds, federal funds, or private funds).
- Removal of ladder fuels to reduce the risk of crown fires.
- Creation of community-level wildfire prevention programs, such as community chipping days, roadside chipping, and green waste bin programs.
- Selective tree removal (thinning) to improve forest health to withstand wildfire.
- Modification of vegetation adjacent to roads to improve public safety for egress of evacuating residents and ingress of responding emergency personnel.
- Reduction of fuel loading around critical infrastructure to maintain continuity of government and other critical services.
- Projects to improve compliance with defensible space requirements as required by Public Resources Code Section 4291 (Projects eligible for CCI funds are low-income, disabled, or elderly households per CA requirements).
- Seasonal and temporary prescribed grazing using temporary infrastructure consistent with increasing the protection of people, structures, and communities.

WILDFIRE PREVENTION PLANNING

- Wildfire risk or related mapping
- Creation or update of strategic wildfire planning documents, such as:
 - Evacuation plans
 - Community Wildfire Protection Plans (CWPP)
 - Local Hazard Mitigation Plans
 - Safety Elements
 - Wildfire Prevention or Mitigation Plans

WILDFIRE PREVENTION EDUCATION

- Development and implementation of public education and outreach programs.

- Workshops, meetings, materials creation, and other educational activities with the purpose of increasing knowledge and awareness of information that could be used to reduce the total number of wildfires, acres burned, and structures lost.
- To educate the public on making homes and communities more wildfire resilient, including defensible space training.

Activities are subject to CAL FIRE approval.

II. ELIGIBILITY, CONDITIONS, AND IMPORTANT POINTS

ELIGIBILITY FOR PROPOSITION 4

- State Agencies
- Native American Tribes
- Joint Powers Authorities (JPAs) if the entities involved are eligible applicants.
- Special districts
 - Fire protection districts.
 - Community services districts
 - Water districts
 - Resource conservation districts
- Local agencies, including:
 - City, county, or city and county
- Fire Safe Councils with a 501(c)(3) designation.
- Other qualified non-profit organizations with a 501(c)(3) designation

ELIGIBILITY FOR CCI FUNDS

- State Agencies
- Federal Agencies
- Native American Tribes
- Joint Powers Authorities (JPAs) if the entities involved are eligible applicants.
- Special districts
 - Fire protection districts.
 - Community services districts
 - Water districts
 - Resource conservation districts
- Local agencies, including:
 - City, county, or city and county
- Certified local conservation corps

- Fire Safe Councils with a 501(c)(3) designation.
- Other qualified non-profit organizations with a 501(c)(3) designation

In situations where a local government has contracted with CAL FIRE for fire protection services, CAL FIRE is considered a local government for purposes of this grant program.

If an applicant has applied for a 501(c)(3) status at the time of application, that is sufficient. Applicants will have to provide the official 501(c)(3) status prior to execution of the grant agreement.

Applicants may **not** be one of the following:

- A privately held for-profit company or corporation.
- Individual or private landowners.
- Homeowners' associations or other associations unless they have 501(c)(3) non-profit status.

ELIGIBLE COSTS INCLUDE, BUT ARE NOT LIMITED TO:

- Removal of dead, dying, diseased, or otherwise hazardous trees posing an imminent threat to public rights-of-way and public infrastructure, which may include trees on private property.
- Contracted tree removal, transportation, holding site fees, and disposal.
- Costs that are necessary and prudent to the accomplishment of the project, e.g.,
 - Project equipment not to exceed a cumulative total of \$750,000.
 - Project supplies (supplies include items under \$5,000 per unit cost). Chainsaws are an example of a supply item and are **not** considered equipment.
 - Fuel and Maintenance
 - CEQA/NEPA Costs
- All equipment purchases must be pre-approved. All pre-approved equipment purchases are owned by the grantee. Equipment cannot be purchased by subcontractors and billed to the grantee for reimbursement.

INELIGIBLE COSTS INCLUDE, BUT ARE NOT LIMITED TO:

- Removal of non-hazardous trees that do not pose an imminent threat to public health and safety.
- Costs associated with the improvement of landscaping, including planting.
- Costs that are not directly associated with the project.
- Costs already funded or budgeted through another source (i.e., supplanting)
- Income, fees, revenues, or wages lost or voluntarily waived by a local agency.
- Activities or costs associated with permanent infrastructure.
- Costs incurred before or after the project performance period.
- Cost of preparing a grant and application.
- Late fees, penalties, and bank fees.

- Gifts or gift cards. If uncertain, contact your Region.

NON-QUALIFYING PROJECT TYPES AND ACTIVITIES INCLUDE, BUT ARE NOT LIMITED TO:

- Purchase of capital equipment with a cumulative total of more than \$750,000
- Purchase of capital equipment without demonstrating how the equipment will be utilized. All equipment purchases must be pre-approved. All pre-approved equipment purchases are owned by the grantee. Equipment cannot be purchased by subcontractors and billed to the grantee for reimbursement.
- Installation, creation, upgrade, or maintenance of fire protection features, such as roads, bridges, structures, water storage facilities, or other permanent infrastructure.
- Projects or activities utilizing CAL FIRE staff without corresponding reimbursements or requests seeking funding for services already provided by CAL FIRE.

LIMITED WAIVERS OF SOVEREIGN IMMUNITY FOR NATIVE AMERICAN TRIBES

Federally recognized tribes are sovereign nations with special legal status. These projects may require limited waivers of sovereign immunity when the primary grantee (who signs the grant agreement contract) is a federally recognized tribe. This will be determined on a case-by-case basis and dependent on the type and scope of the project. The grant agreement will identify these important terms and conditions, including the potential limited waiver of sovereign immunity, to ensure the grant agreement may be enforced in case of default.

CAL FIRE will avoid seeking a limited waiver of sovereign immunity when possible and will strive to notify applicants early in the grant application review process if it is anticipated a limited waiver of sovereign immunity will be necessary. CAL FIRE is committed to working collaboratively with California Native American tribes on tailoring limited waiver of sovereign immunity terms to support tribal priorities while also meeting the state's legal obligations.

CAL FIRE will conduct a risk analysis of all projects that may involve limited waivers of sovereign immunity. In general, limited waivers of sovereign immunity will be required for projects with:

- Advance funds
- High-risk implementation projects, which may include fuels reduction, prescribed burning, cultural burning, ceremonial or other use of fire
- Organizations without demonstrated reliability in sound financial management

For questions regarding sovereign immunity, please reach out to program by emailing WPGrants@fire.ca.gov, who may refer you to discuss specifics with the appropriate person at CAL FIRE Legal.

CONDITIONS AND IMPORTANT POINTS

1. The recommended funding amount is \$950,000 or less.
2. Grants can be made only to “eligible” applicants.
3. Projects must provide benefits to habitable structures and people in and near wildfire threatened communities.
4. Projects utilizing partners must provide a letter of commitment from the partner entity as proof that they have contacted the entity, the entity has the required resources (if needed) to commit toward the project, and the entity supports the project.
5. Qualifying projects and activities are limited to those where the proposed project or activity addresses the hazards and risks to wildfire threatened communities that focus on increasing the protection of people, structures, and communities.
6. Applicants must consider greenhouse gas emissions of project activities and plan to reduce emissions as much as possible during project activities.
7. Grantees must have and demonstrate to CAL FIRE the ability to plan, administer, and complete the grant project.
8. For some projects, the grantee may be required to prepare a California Environmental Quality Act (CEQA) or National Environmental Policy Act (NEPA) document. Projects requiring CEQA/NEPA review are required to provide documented compliance within 12 months from the grant execution. CEQA/NEPA compliance must begin immediately after grant execution. **Documented CEQA/NEPA compliance is required prior to commencing any ground disturbing activity.**
9. A Registered Professional Forester (RPF) must design and oversee any fuel “forestry” projects, as defined in Public Resources Code (PRC) § 753, proposed on a “forested landscape,” as defined in PRC § 754. The RPF must conduct at least one site visit during active project operations to ensure vegetation removal is being conducted according to the prescription. An RPF is not required to provide the general project information required in the Scope of Work during the grant application phase, but the applicant must explain how CEQA or NEPA compliance will be met and describe RPF involvement in the Project Scope of Work and include this cost in the budget, if applicable.
 - a) *PRC §753 - “Forestry,” as used in this article, refers to the science and practice of managing forested landscapes and the treatment of the forest cover in general, and includes, among other things, the application of scientific knowledge and forestry principles in the fields of fuels management and forest protection, timber growing and utilization, forest inventories, forest economics, forest valuation and*

finance, and the evaluation and mitigation of impacts from forestry activities on watershed and scenic values, to achieve the purposes of this article. The practice of forestry applies only to those activities undertaken on forested landscapes. The professions specified in Section 772 are not practicing forestry when mitigating or recommending mitigation of impacts from previous forestry activities on related watershed or ecological values within their area of professional expertise or when recommending those mitigations for proposed timber operations. However, public, and private foresters are required to be licensed pursuant to this article when making evaluations and determinations of the appropriate overall combination of mitigations of impacts from forestry activities necessary to protect all forest resources.

b) PRC §754 - "Forested landscapes" means those trees dominated landscapes and their associated vegetation types on which there is growing a significant stand of tree species, or which are naturally capable of growing a significant stand of native trees in perpetuity, and is not otherwise devoted to non-forestry commercial, urban, or farming uses.

10. Projects outside of a "forested landscape" should consider the use of a professional ecologist, biologist, certified rangeland manager, arborist, RPF, or other professional with knowledge of local ecosystem processes to develop an appropriate fuel hazard reduction removal project.
11. CAL FIRE has the discretion to specify an earlier project completion date at the time of award based on the funds associated with the grant award. CAL FIRE will work with the grantees to ensure projects will still be achievable within the earlier timeframe.
12. Fuel reduction vegetation treatment prescriptions shall focus on increasing safety for the public and first responders, as well as reducing fire hazards to improve the protection of lives, structures, and communities. Treatments shall eliminate the vertical and horizontal continuity of vegetative fuels for the purpose of reducing the rate of fire spread, duration and intensity of fire, fuel ignitability, and the ignition of tree crowns or structures.
13. Required project deliverables to be included in the Project Scope of Work:
 - a) Pre- and post-treatment description of: (1) site conditions and project results relative to hazardous tree or vegetative conditions; (2) wildfire hazard reduction goal accomplishments, or (3) another measurable metric for evaluation of the project. This includes, but is not limited to, number of acres treated, number of parcels treated for fuel reduction for defensible space compliance, number of prevention plans created, and number of people reached in a public education project. CAL FIRE reserves the right to retain copies of these descriptions and publicly disseminate the information for its own purposes.
 - b) GIS data files supporting the project map to allow CAL FIRE to accurately document the spatial extent of the project for the duration of the grant.

- For projects and activities involving on-the-groundwork, CAL FIRE requires shapefiles to be submitted with the signed agreement and on a quarterly basis throughout the duration of the grant. (See Progress report quarterly calendar, pg. XX).

c) Documented CEQA or NEPA compliance within 12 months of grant execution, unless a longer period of time is approved by CAL FIRE. This includes the approval of a Negative Declaration, Mitigated Negative Declaration, or Environmental Impact Report, or the filing of a Notice of Exemption. If compliance is not achieved or if reasonable articulation of non-compliance is not made, the grant could be subject to termination. **Documented CEQA/NEPA compliance must be completed before commencing any ground disturbing activity.**

14. Financial reports are required for reimbursement. Please see Appendix C for guidelines for the invoice that must be submitted with the financial report. The invoice template is found on the CAL FIRE website.
15. A Quarterly Progress Report form must be submitted under the Pending tasks “Activities report request” in the Grants Portal utilizing the required CAL FIRE Wildfire Prevention Grants Template. Grantee shall provide data reporting to CAL FIRE, including but not limited to, number of acres treated, number of parcels treated for fuel reduction for defensible space compliance, number of prevention plans created, and number of people reached in a public education project. CAL FIRE will provide grantees with the specific metrics and the reporting process. The quarterly progress report is due within 30 days of the end of every calendar quarter, even if no fiscal activity has occurred:

Quarter	Progress Report Covering	Due Date
1 st Quarter	January 1 – March 31	April 30
2 nd Quarter	April 1 – June 30	July 31
3 rd Quarter	July 1 – September 30	October 31
4 th Quarter	October 1 – December 31	January 31

16. For all Proposition 4 funded grant projects, grantees will provide CAL FIRE with updated cash flow projections. Cash flow projections will be utilized aggregately for monthly projections and semi-annually for individual projects.
17. Final financial reports for grant-related work must be submitted to CAL FIRE no later than 30 days after the project completion date.

18. A Wildfire Prevention Grants Program Final report (found on the CAL FIRE website) must be submitted *simultaneously* with the final financial report.
 - a) *Pre-implementation and post-implementation pictures must be submitted with the Final Report, along with updated GIS data files.*
19. Projects must demonstrate all efforts to reduce greenhouse gas emissions. Projects that demonstrate significant greenhouse gas emissions reductions will be favored.
20. All Wildfire Prevention Grants projects must clearly display, identify, and label themselves as being funded by CAL FIRE. Acknowledgments must contain the CAL FIRE logo as well as the following statement: Funding for this project provided by CAL FIRE's Wildfire Prevention Grants Program. Grantees must include the California Climate Investments (CCI) funding boilerplate and logo, available in the CCI [Media & Communications Style Guide](#), or the Proposition 4 logo and boilerplate language (Link for the Prop 4 Climate Bond can be found [here](#)), along with the CAL FIRE logo on all outreach and public-facing materials including but not limited to press releases, media advisories, printed collateral, event invitations, signs, and project/program websites.
21. Each application should focus on *one or more* of the following major activities:
 - a) *Hazardous Fuels Reduction*
 - b) *Wildfire Prevention Planning*
 - c) *Wildfire Prevention Education*

Entities with more than one application should consider consolidating into just one application, especially if proposed project(s) are similar or share geographic locations. For additional assistance work with your local CAL FIRE Unit coordinator or your region representatives.
22. **Applications must be submitted in the CAL FIRE Grants Portal by August 06, 2025, at 3:00 PM Pacific Time.** It is highly recommended you submit your application before the deadline as CAL FIRE will not accept any late applications due to technical issues.
23. No reimbursable work on proposed Wildfire Prevention Grants projects may commence until there is a fully executed agreement between CAL FIRE and the grantee. An agreement is considered fully executed upon signature and approval by the State Fire Marshal or designee.
24. All project and activity work related to grants must be completed by final expiration date located in the executed Grant Agreement.
25. **No ground disturbing work** may commence until the requirements of CEQA or NEPA have been satisfied. For more details see Appendix A: Environmental Compliance for CAL FIRE Projects (CEQA).

26. Agreements must be executed by the date specified in the Agreement.
27. Reimbursement payments are expected to be issued 45 calendar days from the time of an undisputed financial report. Payments are sent via U.S. Mail; electronic payment is not available. The financial report approval process is as follows:
- a) Financial report submitted to the Region for review and approval using Grants Portal.
 - b) Unit reviews the financial report and performs a project site inspection, if applicable, to verify that invoiced work has been satisfactorily completed according to the deliverable items described in the grant documentation.
 - c) Grants Management Unit reviews and submits the financial report to the Business Service Office for payment.
28. When a Contract County is the grantee, the Contract County must contact the CAL FIRE Administrative Unit to conduct an inspection of the modification efforts prior to submitting a Financial Report in Grants Portal for completed work. The CAL FIRE Administrative Unit or designee will conduct an inspection to verify that work to be invoiced has been satisfactorily completed according to the deliverable items described in the grant documentation.
29. A resolution or attesting document may be requested for Wildfire Prevention Grants. The attestee cannot be the same individual designated to sign the agreement. Please refer to the sample resolution (Appendix B). A board resolution template is available on the CAL FIRE WP Grants website.
- Note: Where the line indicates 'whereas the Board designates (designee's title)', it is recommended the applicant list the *title* rather than an individual's name. In the event the individual retires or leaves the organization, a new resolution designating a replacement will be required if a name is listed rather than the working title. The resolution should name the designee for entering into agreements on behalf of the board and the authorized signatory for financial reports.
30. Wildfire Prevention Grants are neither designed nor intended to create or substantially support ongoing administrative positions.
31. The inclusion of indirect costs is acceptable for Wildfire Prevention Grants funded by CCI projects up to 12% of the total amount of direct grant funds provided to the grantee, minus equipment. Applicants may request from CAL FIRE a higher indirect cost rate by providing additional justification as to why a higher indirect rate is needed as well as including appropriate documentation substantiating the basis of the higher indirect rate (e.g. a copy of a federally approved Negotiated Indirect Cost Rate Agreement, etc.). In no instances may the request exceed 20%. This shall apply to all entities, including University of California (UC) and California State University (CSU) entities. Grantee must retain documentation related to the determination of the

grantee's indirect cost rate for audit purposes. Approval of the higher indirect rate is solely at CAL FIRE's discretion. Please refer to Appendix H.

32. The inclusion of indirect costs is acceptable for Wildfire Prevention Grants funded by Proposition 4 projects. The grantee may request one of the following indirect cost rates:
 - a) The grantee's federal negotiated indirect cost rate, pursuant to its Negotiated Indirect Cost Rate Agreement (NICRA).
 - b) The 15 percent de minimis indirect cost rate specified in Part 200 of Title 2 of the Code of Federal Regulations.
 - c) A rate negotiated by the grantee with another state agency within the last five years.
 - d) A rate proposed by the grantee in the grantee's program application with the administering state agency if the grantee does not have an existing state rate.
 - e) Grantee can request an indirect cost rate of 12% to 20%.
 - f) up to 12% of the total amount of direct grant funds provided to the grantee, minus equipment. Applicants may request from CAL FIRE a higher indirect cost rate by providing additional justification as to why a higher indirect rate is needed as well as including appropriate documentation substantiating the basis of the higher indirect rate (e.g. a copy of a federally approved Negotiated Indirect Cost Rate Agreement, etc.). In no instances may the request exceed 20%. This shall apply to all entities, including University of California (UC) and California State University (CSU) entities. Grantee must retain documentation related to the determination of the grantee's indirect cost rate for audit purposes. Approval of the higher indirect rate is solely at CAL FIRE's discretion. Please refer to Appendix H
33. All educational materials and planning documents created and used for a Wildfire Prevention Grant project must be submitted to CAL FIRE. CAL FIRE may retain copies of these materials and utilize them for CAL FIRE's own purposes. Similarly, any Wildfire Prevention Grant project photos, videos, testimonials, or other similar information submitted to CAL FIRE throughout the performance of the project may be retained by CAL FIRE and utilized for CAL FIRE's own purposes.
34. Records in CAL FIRE's possession, including but not limited to application packages, Agreements, and grant project financial records, may be subject to public inspection or disclosure pursuant to the California Public Records Act.
35. Grantees should note that CAL FIRE will only serve in a lead agency capacity for activities related to its discretionary approval (i.e., grant-funded activities). In the circumstance where another public agency subsequently seeks to use a CAL FIRE-led Project Specific Analysis under the California Vegetation Treatment Program for CEQA compliance and there is no related discretionary approval required of CAL

FIRE, CAL FIRE would have no involvement, oversight, or other obligation in the approval, implementation, or documentation of that agency's actions.

PREVAILING WAGE REQUIREMENTS

CAL FIRE provides no opinion as to whether projects may be subject to prevailing wages. For determination for prevailing wages, please contact the Department of Industrial Relations (DIR) at [DIR Prevailing Wage](#). It is the applicant's responsibility to budget for prevailing wages in their project cost when applicable.

Please Note: Beginning July 1, 2026, certain fuel reduction work, including but not limited to residential chipping, rural road fuel breaks, and fire breaks funded by the State will be subject to prevailing wage, record keeping, and registration requirements. (California Public Resources Code section 80200 et seq.). While the requirements do not apply to any contract, subcontract, or grant agreement that is fully executed before July 1, 2026, the requirements will apply if a contract, subcontract, or grant agreement is renewed and/or amended after July 1, 2026.

GREENHOUSE GAS (GHG) EMISSIONS REQUIREMENTS

California Climate Investments (CCI) administered by CAL FIRE through the Forest Health, Wildfire Prevention, and Urban and Community Forestry Programs contribute to California's climate goals by reducing GHG emissions from wildfires, stabilizing long-term storage of carbon in biomass, and improving carbon sequestration in California's natural and working forests.

In terms of direct emissions benefits, the objectives of the WP Grants Program are to:

- Reduce GHG emissions from wildfire and prevent the need for cleanup and rebuilding of communities following destructive wildfire events
- Provide fire personnel with more opportunities to access the fire perimeter to extinguish fires more quickly, thereby reducing GHG emissions
- Encourage projects that result in smaller scale fires to reduce GHG emissions and reduce the carbon impact
- Improve health and resilience of treated areas for increased carbon sequestration
- Improve public awareness and reduce human caused wildfire ignitions
- Promote orderly growth and development through land use planning which helps to reduce GHG emissions

Eliminating wildfire starts, mitigating wildfires before they progress into wildland areas and communities, and facilitating firefighting efforts and safety all contribute to reduced wildfire emissions over time. The WP Grants Program also includes support for planning, such as

development of Community Wildfire Protection Plans, and education programs that promote fire- safe communities to capture the benefits and synergy of collective, community-wide efforts.

However, fuel reduction activities also release GHG emissions at the time of treatment, and CAL FIRE must balance emissions costs and benefits of the Wildfire Prevention and Forest Health Programs to comply with the law. Minimizing emissions of fuel treatment activities, using disposal methods other than open burning, and optimizing vegetation health options in the development of treatment prescriptions are important steps in project development to achieve balanced emissions costs and benefits.

Grantees must submit information about project size, vegetation type, location, and treatment area so that CAL FIRE staff may complete emissions calculations for the project. Calculations will be completed using an existing methodology produced by CAL FIRE and the California Air Resources Board for the Wildfire Prevention Grants Program. Emissions effects of activities that do not fit the existing methodology will be described in detail. The grant application review process will include consideration of project activities with emissions benefits.

PROPOSITION 4 REPORTING REQUIREMENTS

Wildfire Prevention Grants are funded by Proposition 4 from the Safe Drinking Water, Wildfire Prevention, Drought Preparedness, and Clean Air Bond Act of 2024. The funds are appropriated by the California Legislature to CAL FIRE, who is responsible for administering the funds.

Accountability and transparency are essential elements for Proposition 4. Full public disclosure is required to provide information on how administering agencies are investing appropriations and what benefits are being achieved from those investments. CAL FIRE is responsible for collecting project information and reporting.

For each grant project, grantees must submit reporting data to CAL FIRE on a quarterly basis.

Wildfire Prevention Grants are funded in whole or part by Cap-and-Trade auction proceeds appropriated by the California Legislature to CAL FIRE, who is responsible for administering funds allocated from the CCI Program.

Accountability and transparency are essential elements for CCI. Full public disclosure is required to provide information on how administering agencies are investing appropriations from the GGRF and what benefits are being achieved from those investments. CAL FIRE is responsible for collecting project information and reporting.

For each grant project with a total project cost of greater than \$1,000,000.00, grantees must submit jobs reporting data to CAL FIRE on a semi-annual basis in June and December. The reporting cycles cover information for the following periods: December 1 – May 31, June 1 – November 30. All grant projects meeting that criteria will be notified of the reporting dates and the data requirements.

III. GRANT APPLICATION REVIEW AND EVALUATION FACTORS

REVIEW PROCESS

Applications will be reviewed by CAL FIRE. The application review involves three levels:

- Local – CAL FIRE Units and Contract Counties
- Regional – CAL FIRE Northern and Southern Regional Offices
- Statewide – Statewide review team. The statewide review team will prepare a list of recommended projects and activities for consideration by the Director of CAL FIRE. The Director will make decisions on approved projects and activities taking into consideration the recommendations of the statewide review team.

Emphasis at each level will be placed on projects and activities that address hazards that reduce potential risk from wildfire in and near communities. The department shall consider the fire risk of an area, the geographic balance of projects, and whether the project is complementary to other wildfire prevention or forest health activities when awarding local assistance grants. Additionally, to the extent possible, a project or activity will not be selected if it conflicts or competes with another proposed or approved project.

EVALUATION FACTORS (RANKING CRITERIA)

In evaluating applications, CAL FIRE is seeking information that allows it to consider the following factors:

1. The grant application clearly identifies the focus of the grant as Hazardous Fuels Reduction, Wildfire Prevention Planning, or Wildfire Prevention Education.
2. The project addresses hazards and risks from wildfire.
 - a. The project includes Fire Hazard Severity Zone rankings and indicates areas and their relative proportion of Very High, High, and Moderate Fire Hazard Severity Zones as adopted by the State Fire Marshal and identified in the CAL FIRE map located at [Fire Hazard Severity Zones](#).
 - b. The proposed project is in or near a wildfire threatened community and adequately describes how it will address the hazards and risks from wildfire.
 - c. The project protects other assets of wildfire threatened communities to maintain continuity of government operations and critical services. This includes, but is not limited to, fire, police, power, water, sewer, roads, or other critical facilities. If the project involves community infrastructure, it must explain how it will address the hazards and risks from wildfire to these assets.
3. The project is related to or part of one or more strategic plans or tree removal plan:
 - a. The project is included in or consistent with one or more of the following plans:
 - i. CAL FIRE Unit Fire Plan, Contract County Fire Plan, Local Fire Plan, a CWPP, Community Evacuation Plan, tree removal plan, Fire Safe Council Action Plan, Firewise USA Community Wildfire Risk Assessment, Local Hazard Mitigation Plan, Safety Element plan, or other local plan (identified in Scope of Work) that addresses the hazards and risks from wildfire.
 - b. The project proposes to create, or update, a long-term fire hazard reduction planning document affecting or involving wildfire threatened communities, such as, but not limited to, a CWPP or Community Evacuation Plan. A strategic planning document would include a Safety Element of a General Plan and a Local Hazard Mitigation Plan with elements for increasing safety for the public and first responders.
 - c. The project removes hazardous trees in collaboration with other entities, other funding sources, or as part of a larger tree mortality project.
 - d. The project considers other projects, pending or past, in the Unit/Contract County.
 - e. The project strategically advances the protection and preparedness of wildfire threatened communities across a region or the state, while increasing safety for the public and first responders.
4. The applicant has taken steps to reduce GHG emissions as much as possible, such as chipping or mulching removed vegetation, or disposing of material through biomass

markets. The applicant is willing and able to provide project data as requested to calculate project emissions.

5. Community support/ meaningful and direct benefits exists.
 - a. The project includes plans for external communications, such as planned press releases, project signage, community meetings or field tours that all, or in part, reach owners and residents in the project area.
 - b. Letters of Support have been obtained.
 - c. Letters of Commitment from partnering entities are submitted with the application. Letters of commitment are required if grantee is utilizing the California or Certified Community Conservation Corps.
 - d. Please note that although matching funds are not required, the existence of matching funds is a positive factor for CCI funds.
 - e. The degree to which a project provides in-kind services and/or secured federal, state, private, or local cost share funding. Have non-monetary and/or funding resources of agencies and organizations that have been identified and secured.
6. There is an implementation plan in place.
 - a. The project includes a detailed timeline that addresses potential limitations and includes specific tasks and milestones to measure progress during implementation of the project.
 - b. The project includes an accurate set of deliverables that are measurable and attainable.
 - c. The project is fully defined with metrics to measure progress and completion. This includes, but is not limited to, number of acres treated, number of parcels treated for fuel reduction for defensible space compliance, number of prevention plans created, or number of people reached in a public education project.
7. The project budget and narrative are clear and reasonable.
 - a. The proposed budget shows how grant funds will be spent by category.
 - b. Indirect costs are reasonable for the project proposed and should generally not exceed 12% of the total direct grant request, minus equipment costs, unless a higher indirect rate is approved by CAL FIRE for CCI funds.
 - c. Costs and indirect costs are reasonable for the size, scope, and anticipated benefit of the proposed project.
 - d. For hazardous fuel reduction projects, the actual number of acres being treated is clearly defined.
8. There is demonstrated capacity to administer the grant.
 - a. The applicant shows an acceptable amount of experience in administering grants. This is largely based on successfully administering other grant- funded projects/activities over the past five years. Project proponents having no previous experience with similar projects should discuss any past experiences that may help show capacity to successfully complete the proposed project. This may include partnering with a more experienced organization that can provide project support.

- b. Discuss successes and administration of previously awarded CAL FIRE grants or grants administered by the applicant for other granting entities.
- 9. Fire Risk Reduction Community List per [Public Resources Code 4290.1](#)
 - a. [Public Resources Code 4124.7](#) requires CAL FIRE to “prioritize local assistance grant funding applications” from local agencies based on the “Fire Risk Reduction Community List.”
 - b. The prioritization required in subdivision (a) of [Public Resources Code 4124.7](#) shall not affect applications from entities that are not local agencies.
 - c. Wildfire Prevention Grant applicants will receive priority for utilizing the funding to meet the List eligibility requirements.
 - d. Wildfire Prevention Grant applicants will also receive priority if the applicant is already on the List.
 - e. Projects are selected on a competitive basis and consecutive awards are not guaranteed.
 - f. Applicants not eligible for the List are not precluded from receiving grant funds.

For more information about the Fire Risk Reduction Community List, please visit the [Board of Forestry website](#)

APPLICATION PROCESS AND PROJECT ADMINISTRATION

Applicants should work with the local CAL FIRE Unit for guidance in developing project plans for your application. Find your [local CAL FIRE Unit contact](#) as listed by county. Building a relationship with the local CAL FIRE Unit enhances the potential for a successful application and grant award.

Applications not received by the deadline, not submitted in the CAL FIRE Grants Portal, or that do not adhere to the procedures in this guide, will not be accepted or considered.

STAGE 1 - PROJECT APPLICATION

Due August 06, 2025, at 3:00 PM Pacific Time

ELECTRONIC APPLICATION SUBMISSION IN THE CAL FIRE GRANTS PORTAL SOLICITATION LINK ON THE [WP GRANTS WEBSITE](#) AND IN THE WP GRANTS MAPPING CENTER [PROJECT MAPPING PROGRAM](#):

The Grants Portal WP Grants solicitation link and a Grants Portal user guide can be found on the [Wildfire Prevention Grants website](#).

Entities with more than one application should consider consolidating into just one application, especially if proposed project(s) are similar or share geographic locations. For additional assistance, work with your local CAL FIRE Unit coordinator or your region representatives.

Upload all documents related to your application to the Grants Portal no later than **3:00 PM Pacific Time on August 06, 2025**. Instructions on how to apply through the Grants Portal can be found in the [Grants Portal Application Submittal User Guide](#).

The Grants Portal will issue a Project Tracking Number for each application.

Please use this file naming structure (Project Tracking Number plus document name) for attachments (if you have multiples of one file, please make it into a zip file) uploaded in the Grants Portal. Below is an example (the Grants Portal will assign the actual Project Tracking number that you will use):

- 25-WP-UUU-XXXXXXXX-STD 204.pdf
- 25-WP-UUU- XXXXXXXX-Letter of Support.pdf
- 25-WP-UUU- XXXXXXXX-Letter of Commitment.pdf

PROJECT MAPPING PROGRAM

In addition to the CAL FIRE Grants Portal application package, each applicant must submit online mapping in our WP Grants Mapping Center [Project Mapping Program](#) database. Submit your application in the Grants Portal first to obtain the auto-generated Project Tracking Number, which you will need for the mapping program. The online mapping submission consists of submitting a Geopoint for all project types. For Hazardous Fuels Reduction projects, you also will need to submit treatment area polygon(s). The instructions on how to draw and submit a Geopoint and Polygon in the [Project Mapping Program](#) can also be found at [CAL FIRE WP Grants](#). There is a video and a quick reference guide with screenshots of the online mapping program.

- **Applications for Hazardous Fuel Reduction that do not include Treatment Area Polygon(s) in the Project Mapping Program will not be accepted.**
- **Applications for Wildfire Prevention Planning and Wildfire Prevention Education projects will submit a Geopoint only.**

Complete all documents accurately to avoid delays due to corrections and revisions prior to final approval. If revisions are necessary during Stage 2, then the revised documents will be used in the final grant agreement between the State and the grantee.

- Late submissions will be rejected. No exceptions. Late is defined as: after 3:00 PM Pacific Time on the due date according to the date stamp on the CAL FIRE Grants Portal. To avoid possible issues with the Grants Portal (such as internet connectivity and internet speed), applicants are highly encouraged to apply as early as possible.

- Please retain a copy of all documents uploaded to the CAL FIRE Grants Portal for your own records.

DISQUALIFICATION OF APPLICATION

CAL FIRE may consider an application inadequate and, therefore, disqualified from the selection process for several reasons. These may include, but are not limited to, the following:

- Application is not complete.
- Application contains significant inconsistencies with spatial data or project acres proposed for treatment.
- The application is not submitted by an eligible applicant in the Grants Portal.
- The project does not meet any of the other eligibility criteria outlined in the Grant Guidelines.

STAGE 2 - GRANT APPLICATION REVIEW AND SELECTION

Sacramento staff will review the project application packages for completeness and determine if the project meets the objectives of the program. Applications found to meet the initial criteria will continue in the multi-level review and selection process.

Incomplete applications will be disqualified.

Notification of grants selected for funding will be sent to the applicant. The grant agreement package for successful grant applicants will be emailed after selection and will include any required grant agreement forms and instructions to proceed to Stage 3. The grant agreement template can be found online, but may be subject to change prior to the execution of a final agreement.

[2024 Standard Grant Terms and Conditions](#)

STAGE 3 - GRANTS AWARDED

Awarded grant applicants shall review and return original signed agreements, and any additional information required, following the instructions provided in the correspondence. Grant agreement packages not completed or received by the agreement deadline may not be eligible for funding.

STAGE 4 – COMPLETED GRANT AGREEMENTS

Once the grant agreement is received and signed by the State Fire Marshal or designee, the approval process is complete. All agreements must be signed and submitted per deadlines established by CAL FIRE.

A CAL FIRE designee will be named as the designated contact. The CAL FIRE designee will work with the Region Program Manager on any grant project issues.

The CAL FIRE designee will conduct periodic and final inspections to ensure compliance with the project plan and environmental rules and regulations. All project messaging and documents must be approved by CAL FIRE.

CAL FIRE may perform an audit at any time during or upon completion of the project as described in this guide under “State Audit.”

Grant Termination Date: All project and activity work related to the grant must be completed by the project completion date identified in the executed grant agreement.

PROJECT AMENDMENTS, MODIFICATIONS, AND TERMINATIONS

Before work on the project begins, a Grant Agreement may be terminated by CAL FIRE or the grantee upon 30 days advanced written notice to the other party. After work begins on the Project, termination may occur: (1) if CAL FIRE and the grantee mutually agree to terminate the agreement; (2) if the State determines Grantee has made a material misrepresentation, violated this Agreement, failed to fulfill its obligations under this Agreement, or otherwise determines there is cause to do so; or (3) if the State gives 30-days written notice of termination to Grantee.

Once a Grant Agreement has been signed, it may only be amended with advanced written consent of both CAL FIRE and the grantee. Any amendment requests including the ability to extend the project timeline, where permissible, must be submitted to CAL FIRE sixty (60) days before the agreement end date using the Grants Portal system. CAL FIRE reserves the right to waive the sixty (60) days in extenuating circumstances.

A grantee wishing to change the scope or budget of an approved project at any stage shall submit the proposed change in writing, on entity letterhead, to CAL FIRE for review. Any change must be consistent with the need cited in the original application and authorizing legislation. Any modification or alteration to the grant agreement on file must be submitted to the State for review and may require a new signed amended agreement. Any reduction in the actual number of acres being treated in a hazardous fuel reduction grant may result in a corresponding reduction of the grant award.

ACCOUNTING REQUIREMENTS

The grantee shall maintain an accounting system that follows Generally Accepted Accounting Principles. The accounting system must accurately reflect fiscal transactions, using the necessary controls and safeguards. This system shall provide an adequate audit trail, including original source documents such as receipts, progress payments, invoices, purchase orders, timecards, canceled checks, etc. Please redact account numbers and personal identifying information before submitting invoices. The system shall also provide accounting data so the total cost of each individual project can be readily determined. CAL FIRE may request records and documentation at any time. These records shall be retained by the grantee for a period of three years after final payment is made by the State or one year after final disposition of any disputed audit findings, whichever occurs later, unless it is the grantee's policy to retain records for a longer duration. **Avoid audit exceptions – keep accurate records.**

LOSS OF FUNDING

The following are examples of actions that may result in a grantee's loss of funding:

- Grantee withdraws from or fails to complete the funded project (in substantial conformance with the Agreement).
- Grantee fails to submit all required documentation within the time periods specified in the grant agreement.
- Grantee fails to submit evidence of CEQA or NEPA compliance within 12 months of the execution of the agreement as specified by the grant agreement.
- Grantee changes the project scope without the approval of the State.
- Grantee or the State terminates the project in accordance with the terms and conditions in the grant agreement.
- Grantee engages in activities that would lead to the project not achieving GHG emissions reductions.
- Grantee or anyone acting on behalf of Grantee shall not engage in fraud, waste, or the abuse of Grant Funds in violation of California Penal Code section 424 et seq. Grantee shall cooperate in any investigation of such activities that are suspected in connection with this Agreement.
- Recipients of Grant Funds shall receive no more than the fair market value of an arm's length transaction for any goods or services provided under this Agreement. Grantee shall provide evidence to the State upon request of compliance with this Section 11.e. Violation of this Section 11.e. will result in a violation of California Penal Code section 424, subd. a.

PROPOSITION 4 INDIRECT COST RATES

For grants awarded for projects under Proposition 4, Wildfire Prevention Grants will reimburse the grantee's indirect costs. The grantee may request one of the following indirect cost rates:

- The grantee's federal negotiated indirect cost rate, pursuant to its Negotiated Indirect Cost Rate Agreement (NICRA).
- The 15 percent de minimis indirect cost rate specified in Part 200 of Title 2 of the Code of Federal Regulations.
- A rate negotiated by the grantee with another state agency within the last five years.
- A rate proposed by the grantee in the grantee's program application with the administering state agency if the grantee does not have an existing state rate.
- Grantee can request an indirect cost rate of 12% to 20%.

In the event of an audit, projects with budgets that include administrative costs must be able to document the appropriateness of these expenses. If the applicant does not have an existing NICRA, a typical method for documentation of administrative overhead expenses is a Cost Allocation Plan (CAP). A CAP is a formal accounting plan used to calculate and document the method for recovering overhead costs. The CAL FIRE strongly recommends that grantees consult with an accounting professional to develop an appropriate method for calculating the overhead rate and prepare a CAP.

PROJECT COSTS

Project costs must be consistent with the approved project and incurred during the performance period as specified in the grant agreement.

Budget Item	Eligible Cost	Required Documentation
Salaries and Wages (Grantee Only)	Salaries and wages of employees employed by the grantee who are DIRECTLY engaged in the execution of the grant project. Limited to actual time spent on the grant project. Leave benefits (i.e., sick leave, vacation, etc.) that are consistent with the grantee's leave benefit policy may be charged to the grant in proportion to the percentage of time worked on the grant within the pay period. Examples of expenditures include time-related to site visits and project monitoring and completion of reporting related to the grant project. Staff time related to accounting, business services, etc. are allowed only if those functions are not included in the grantee's overhead cost.	A payroll summary of all employees' time spent on the project must be provided with invoices requesting salary/wage reimbursement. Payroll documentation should show a nexus between time worked on the project and wages paid to the employee after the fact. Timesheets or similar documentation detailing days and hours worked on the project must be maintained and retained by the grantee for audit purposes but should not be submitted to CAL FIRE unless otherwise instructed. Any leave charged to the grant must reflect the calculation of time spent on the grant compared to overall time worked. A statement certifying that leave charged to the grant is in proportion to employee's time spent must be included as part of the supporting documentation. All salary and wages charged to the grant must tie back to the grantee's accounting records.
Benefits (Grantee Only)	Employer contribution share of fringe benefits associated with employees (paid from salaries and wages Budget Item) who are directly engaged in the execution of the grant project. This will include Social Security, Medicare, Health Insurance, Pension Plan costs, Payroll taxes, etc. as applicable for the specific employee.	Same documentation as Salaries and Wages. Payroll summary documentation showing wages and hours paid to employee and associated fringe benefits. Back-up documentation to be retained by grantee for audit records.
Contractual	Direct consultant and contractual services necessary to achieve the objectives of the grant. Examples of contractual costs will be RPF supervision/certification, professional/consultant services (the costs of consultant services necessary for project planning and implementation), Wildfire Prevention contractor, etc. Procurement of contractual services should be documented to ensure selection on a competitive basis and documentation of price analysis.	Invoices from Consultant/Contractor identifying expenditure, services performed, and period of services. When reporting acres, contractor invoices must identify when and where the acres were treated. Documents related to consultant/contractor selection analysis must be kept by the grantee and made available for audit purposes, upon request. Use of California Conservation Corps or certified community conservation corps is exempt from competitive selection.
Travel (Grantee Only)	Travel costs associated with travel to and from project sites, meetings, etc. directly related to the grant project and must be considered reasonable and necessary for the completion of the project. Absent a written policy, per diem shall not exceed the California Standard Per Diem Rate allowable by the U.S. General Services Administration . Mileage rates shall not exceed the rates allowable by the IRS. If not using the per diem rate by the U.S. General Services, the Grantees' travel policy must be submitted and approved by CAL FIRE and must be submitted with the application.	Receipts identifying travel costs (i.e., lodging, rental cars). Mileage must be documented by either employee travel claims that are signed by the employee or vehicle mileage logs for vehicles owned by the grantee. Per Diem must be documented by employee travel claims.

Budget Item	Eligible Cost	Required Documentation
Supplies (Grantee Only)	Supplies that are used in the direct support of the project are allowable. Supplies exceeding \$500 per unit cost shall be documented to ensure procurement of supplies on a competitive basis and documentation of price analysis. Any technology must be identified and pre-approved by CAL FIRE. Supplies include items under \$5,000 per unit cost. (e.g., chainsaws etc.) All food costs must be pre-approved and explicitly listed in the Scope of Work, Budget, and Budget narrative in order to be considered an eligible cost.	Receipts identifying item purchased, cost, and date of purchase. Documentation related to price analysis of procurement of supplies exceeding \$500 must be kept by the grantee and made available for audit purposes upon request.
Equipment (Grantee Only)	Equipment is an item of \$5,000 or more per unit cost and has a tangible useful life of more than one year. Purchase of equipment may not exceed \$750,000 and must be owned by the grantee. The cost to lease equipment to use in the grant project may be charged to the grant but listed under the 'Other' budget category. A cost-benefit analysis to justify the cost of purchasing equipment versus leasing, must be identified in the scope of work. Procurement of equipment must be done on a competitive basis and include documentation of price analysis. The grantee must include in the application package the proposed use and maintenance plans for equipment after the performance period of the grant. Disposition of equipment beyond the project performance period is subject to CAL FIRE approval. If grantee fails to complete grant or dissolves during grant, grantee must dispose of the equipment in accordance with an equipment disposition plan that is approved by CAL FIRE in advance. Equipment purchased using grant funds can not be used as collateral, financed, or sold without written approval from the State at its discretion.	Cost of equipment purchased shall be substantiated by purchase receipt and a bid quote worksheet at the time of invoicing. All documentation related to price analysis of procurement of equipment must be kept by the grantee and made available for audit purposes, upon request. Disposition of the equipment must be submitted and approved by CAL FIRE every two years upon completion of the project until notified in writing by CAL FIRE that reporting is no longer required.
Other (Grantee Only)	Other costs that do not fit in any of the above categories. The cost must be directly related to the grant project. A cost (such as rent, utilities, phones, general office supplies, etc.) that must be apportioned to the grant is considered indirect cost unless written justification is submitted and approved by CAL FIRE. Use of equipment owned by the grantee may be charged to the grant at a rate set by the California Department of Transportation Labor Surcharge and Equipment Rental Rate Guide. Example, grantee has a rental rate in Other for equipment and Fuel in Supplies for said equipment. As per the Cal-Trans guideline, fuel is calculated and accounted for in the rate.	Invoices or receipts identifying the item and cost charged to the grant. Cost of leased equipment charged to the grant must be substantiated with receipts identifying equipment leased, dates equipment was leased, lease rate and total cost. Use of grantee equipment must be substantiated with an equipment usage log that identifies the equipment used, rate, and total rental cost.

Budget Item	Eligible Cost	Required Documentation
Indirect Costs (Grantee Only)	<p>Indirect Costs are costs associated with doing business that are of a general nature and are incurred to benefit two or more functions within the grantee organization. These costs are not usually identified specifically in the grant agreement, project, or activity, but are necessary for the general operation of the organization. Examples include salaries and benefits of employees not directly assigned to a project; functions such as personnel, accounting, budgeting, audits, business services, information technology, janitorial, and rent, utilities, supplies, etc. Functions included as direct versus indirect costs must be applied consistently for all activities within the Grantee organization, regardless of fund source. The maximum allowable indirect charge for this grant program for all entities including UC's and CSUs should generally not exceed 12%, unless an exemption is approved by CAL FIRE (see Indirect Rate Exemption). For grants awarded for projects under Proposition 4, Wildfire Prevention Grants will reimburse the grantee's indirect costs. The grantee may request one of the following indirect cost rates:</p> <p>The grantee's federal negotiated indirect cost rate, pursuant to its Negotiated Indirect Cost Rate Agreement (NICRA).</p> <ul style="list-style-type: none"> • The 15 percent de minimis indirect cost rate specified in Part 200 of Title 2 of the Code of Federal Regulations. • A rate negotiated by the grantee with another state agency within the last five years. • A rate proposed by the grantee in the grantee's program application with the administering state agency if the grantee does not have an existing state rate. • Grantee can request an indirect cost rate of 12% to 20%. 	<p>Applied on a percentage (%) basis on direct costs except for equipment. Documentation related to the determination of the grantee's indirect cost rate must be retained by the grantee and made available upon request for audit purposes.</p>

Funds will be disbursed only when there is a fully executed grant agreement between CAL FIRE and the grantee. An agreement is considered fully executed upon signature and approval by the State Fire Marshal or designee. All payments are made on a reimbursement basis, except in cases where CAL FIRE authorizes advance payments. (i.e., the grantee is invoiced for services, products, or supplies; invoices CAL FIRE for same; and is reimbursed by the State upon approval of the invoice). **No work prior to or after the grant period will be reimbursable.**

CAL FIRE has the legal right to conduct a spot inspection to verify that work invoiced has been satisfactorily completed. If a financial report is incomplete or non-reimbursable, it will be returned to the grantee.

STATE CONFLICT OF INTEREST LAWS

All applicants, individuals who participate in the review of submitted Project Proposals, and grantees are subject to state and federal conflict-of-interest laws. Applicable statutes include, but are not limited to, California Government Code section 1090 and Public Contract Code sections 10365.5, 10410, and 10411. These statutes include, but are not limited to, prohibitions on the following conduct:

1. **Current State Officers or Employees:** No State officer or employee shall engage in any employment, activity, or enterprise from which the officer or employee receives compensation or has a financial interest, and which is sponsored or funded by any State agency, unless the employment, activity, or enterprise is required as a condition of regular State employment. No State officer or employee shall contract on his or her own behalf as an independent contractor with any State agency to provide goods or services.
2. **Former State Officers or Employees:** For the two-year period from the date he or she left State employment, no former State officer or employee may enter into a contract in which he or she engaged in any of the negotiations, transactions, planning, arrangements, or any part of the decision-making process relevant to the contract while employed in any capacity by any State agency. For the twelve-month period from the date he or she left State employment, no former State officer or employee may enter into a contract with any State agency if he or she was employed by that State agency in a policy-making position in the same general subject area as the proposed contract within the twelve-month period prior to his or her leaving State service.

Any individual who has participated in planning or setting priorities for a specific grant solicitation over and above the public comment process or who will participate in any part of the grant development and negotiation process on behalf of the State is ineligible to receive funds or personally benefit from funds through that solicitation. Failure to comply with conflict-of-interest laws, including business and financial disclosure provisions, will result in the Project Proposal being rejected or any grant agreement made in violation of the conflict-of-interest laws being

declared void. CAL FIRE may request additional documentation during the performance of the grant, including review of financial progress reporting, or during State Audit to verify that a conflict of interest does not exist. Other legal actions may also be taken.

If an applicant has any questions about compliance with conflicts of interest laws, the applicant should consult the California Fair Political Practices Commission or a qualified attorney.

CAL FIRE may require Grantee to establish conflict-of-interest policies and procedures and maintain adequate controls to ensure that the grantee or anyone acting on behalf of the grantee does not have any conflicting personal or financial interest associated with activities funded by the grant project. CAL FIRE may request additional documentation during the performance of the grant, including during review of financial or progress reporting, or during State Audit to verify that a conflict of interest does not exist.

Private Benefit Prohibited

Grantee will not be reimbursed for any costs that exceed the fair market value of an “arm’s length” transaction for goods or services rendered in furtherance of the grant project.

An “arm’s length” transaction exists where the parties have an adverse (or opposing) interest. For example, a seller wants to sell his goods at the highest possible price, while a buyer wants to buy at the lowest possible price. These are adverse interests. In negotiating with a person, an adverse interest is assumed if that person is otherwise unrelated to you in the sense of not being in a position to exercise substantial influence over you or your affairs. If the person is in a position to exercise substantial influence over your affairs, then an arm’s length standard requires additional precautions to eliminate the effect of the relationship. Using a conflict-of-interest policy, information about comparable transactions between unrelated parties, and reliable methods for evaluating the transaction, are examples of precautions that would help make the negotiation process equivalent to one between unrelated persons.

Fair market value is the price at which goods, services, or property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy, sell, or transfer the goods, services, or property, and both having reasonable knowledge of relevant facts.

Grant recipients must avoid or scrutinize transactions that exhibit signs of actual or possible conflicts-of-interests and should avoid even the appearance of conflicts. The appearance of a conflict of interest occurs when a person in a position of authority over an organization, such as a director, officer, or manager, may benefit personally from a decision he or she could make. Conflict-of-interest red flags may also include organizations that engage in transactions that are less than “arm’s length” indicating there may be a bargain or gift element, such as transactions with friends and relatives, or receiving gifts from contractors. In addition, transactions with organizations that have several employees or Board members who are personally or professionally related should be highly scrutinized.

ADVANCE PAYMENTS

In accordance with Public Resources Code section 4124.5, or other applicable statutory authority, advance payments may be considered for non-profit organizations, local agencies, Resource Conservation Districts, special districts, and Native American tribes. Advance payments are solely at CAL FIRE's discretion and eligibility and may be subject to change. An advance request form must be submitted identifying how funds may be used over a six-month period.

Advance payments must be deposited into a federally insured, interest-bearing account that provides the ability to track interest earned and withdrawals. Any interest earned on advance payment funds must be accounted for as project income and used toward offsetting the project cost or returned to the STATE. Refer to Appendix K on calculations and supporting documentation for interest income. All other advance payment requests shall not exceed 25% of the total grant award.

Advances must be fully utilized within a six-month period unless additional time has been requested and is approved by CAL FIRE. Any Advance Payment, or portion thereof, that is not spent within the later of six months or the spending timeline approved by the CAL FIRE must be returned to the State and will be returned to the grant balance.

Additional advances may not be requested until acceptable documentation is received that the previous advance has been fully liquidated on eligible expenses. In addition, an accountability report must be submitted to CAL FIRE every four months upon receipt of funds until funds have been fully liquidated.

CAL FIRE processes for approving and managing grant advances are subject to change.

STATE AUDIT

Projects may be subject to an audit at any time during the Project Performance Period and for three years following Project completion. The purpose of the audit is to verify that project expenditures were properly documented.

If your project is selected for audit, you should include all books, papers, accounts, documents, or other records of the grantee, as they relate to the project for which state funds were granted.

- To expedite the audit, the grantee must have the project records readily available, including the source documents, and canceled warrants. The grantee must also make an employee who has knowledge of the project and the accounting procedure or system available to assist the state auditor. The grantee must provide a copy of any document, paper, record, or the like as requested by the auditor.
- Projects may be suspended if the audit reveals discrepancies, or if CAL FIRE believes there are improprieties or issues with the project.

Grantees must keep source documents for all expenditures related to each grant for at least three (3) years following project completion or one year following an audit, whichever occurs later, unless the grantee has a longer retention policy.

EXPLANATION OF TERMS

TERM	EXPLANATION
Agreement	A legally binding agreement between the State and another entity.
Amendment	A formal modification or a material change of the Agreement, such as terms, cost, budget, or scope of work.
Applicant	The entity who has applied, requesting grant funds.
Application	The form identified by CAL FIRE as the document to be submitted by an applicant requesting grant funds, and its required supporting attachments, as required by the enabling legislation or program.
Appropriation	A Legislative budget authorization from a specific fund to a specific agency or program to make expenditures or incur obligations for a specific purpose and period.
Authorized Representative	The designated person or position identified by the Grantee as the agent to sign all required grant documents including, but not limited to, grant agreements, Application forms, and payment requests.
CEQA	The California Environmental Quality Act as stated in the PRC § 21000 et seq.; Title 14 California Code of Regulations (CCR) §15000 et seq. CEQA is a law establishing policies and procedures that require agencies to identify, disclose to decision makers and the public, and attempt to lessen significant impacts to environmental and historical resources that may occur because of the agency's proposed Project.
Consultant Services	Services which provide a recommended course of action or personal expertise, such as accounting or a Registered Professional Forester (RPF).
Contractor	An entity contracting with the grantee for services and generally receives a form 1099 for tax purposes.
Direct Costs	Expenses of doing business that are directly attributable to the Project. Examples of direct costs are salaries and benefits of employees directly associated with a Project or expenses of items used directly by the Project.
Employee	Individuals employed directly by the grantee and who generally receive a W-2 for tax purposes.
Encumbrance	A commitment of funds guaranteeing a source of payment for a specific Agreement.

Execution of an Agreement	The act of signing an Agreement, which provides a legal basis for required performance by parties to the Agreement.
Grantee	The entity that has an executed grant agreement for the award of grant funds.
Indirect Costs	Expenses of doing business that are of a general nature and are incurred to benefit at least two or more functions within an organization. These costs are not usually identified specifically with a grant, grant agreement, Project, or activity, but are necessary for the general operation of the organization. Examples of Indirect Costs include salaries and benefits of employees not directly assigned to a Project; functions, such as personnel, business services, information technology, janitorial; and rent, utilities, supplies, etc. Indirect Costs may be referred to as overhead or administrative costs.
Modification	An agreement modification is an informal agreement that moves dollars in the line item and task budgets not to exceed 10% of total grant amount; changes deliverable due dates or makes a minor change in the work in accordance with the intent of the legislation. It does not require a formal amendment of the grant agreement. See the modifications section for further requirements.
Non-profit Organization	Any California corporation organized under Sections 501(c)(3) of the Federal Internal Revenue Code. A letter of determination certifying non-profit status will be required prior to Project approval.
Operating Expenses (Direct Costs)	Any cost that can be specifically identified as generated by and in accordance with the provisions or activity requirements of the grant agreement.
Payee Data Record (Std. 204)	Form Std. 204, "Payee Data Record" is required for all grant recipients. The form must be submitted to establish a vendor number for payment and to have funds encumbered.
Personnel Services	This budgeted amount includes salaries and benefits for wage-earning personnel employed by the grantee/contractor (not a subcontractor) and working on the Project.
Program Income	Income that is generated directly by Grantee's performance of the Project, including any interest earned on Advance Payments.
Project Performance Period	The period during which the Project Scope of Work costs may be incurred, and the work described in the Project Scope of Work must be completed, billed, and paid for by the State. Only eligible costs incurred during the Project Performance Period will be paid.
Project	The term "Project" means the activity or work to be accomplished utilizing grant funds and match (if applicable).
Project Scope of Work	The term "Project Scope of Work" defines the individual scope of work or activity describing in detail the proposed tasks identified, as described in enabling legislation and in the grant agreement.
Project Budget Narrative	The term "Project Budget Narrative" defines the proposed detailed budget plan.

Resolution	The purpose of a resolution by a grantee's governing body is to allow the entity to sign Agreements and amendments for a specific project, i.e., it allows the designated entity to enter into an agreement with the State of California, and it designates someone to sign on behalf of the grantee's governing board. A signed resolution can be submitted at the time the signed grant agreements are returned to CAL FIRE's Grants Management Unit, Sacramento Headquarters.
Severely disadvantaged community	A community with a median household income of less than 60 percent of the area average or less than 60 percent of statewide median household income.
Vulnerable population	A subgroup of the population within a region or community that faces a disproportionately heightened risk or increased sensitivity to the impacts of climate change and that lacks adequate resources to cope with, adapt to, or recover from such impacts.

Appendix B: Sample Resolution (not required)

Appendix C: Invoice

Appendix D: State of California Standard Required Forms

Appendix E: CalMAPPER (Awarded Grants Only)

Appendix F: Low-Income and Disadvantaged Communities

Appendix G: PDF Project Map

Appendix H: Justification for indirect rate above 12% and supporting documentation

Appendix I: Application Package

Appendix J: Additional Resources

NOTE: Grantee must submit proof of California Environmental Quality Act (CEQA) or National Environmental Policy Act (NEPA) compliance within **one year** of the execution of the grant agreement, unless a longer period is approved by CAL FIRE. To ensure this occurs in a timely manner, the grantee should contact the Department of Forestry and Fire Protection (CAL FIRE) Local Unit Contact as soon as possible after receiving the executed Grant Agreement.

NATIONAL ENVIRONMENTAL POLICY ACT (NEPA) COMPLIANCE

Project work involving Federal actions must comply with NEPA.

Regardless of jurisdiction, CEQA Compliance is required when using Wildfire Prevention grant funds. For Federal jurisdictions that meet the requirements of Public Resources Code (PRC) section 4799.05(d)(1), a CEQA notice of exemption will need to be filed. This means that prescribed fire, reforestation, habitat restoration, thinning, or fuel reduction projects undertaken, in whole or in part, on federal lands to reduce the risk of high-severity wildfire that have been reviewed under NEPA may not need additional analysis and would be statutorily exempt from CEQA. See Item #5 below.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA)

Within one year of the execution of the grant agreement and prior to commencing any work that could impact the environment, CAL FIRE requires proof of adequate compliance with CEQA. This may be accomplished by one or more of the following methods:

1. Notice of exemption filed with the State Clearinghouse and the county clerk in the manner specified in subdivisions (b) and (c) of Section 21108 or subdivisions (b) and (c) of Section 21152.
2. Initial study and negative declaration or mitigated negative declaration and all associated noticing documents filed with the State Clearinghouse and the county clerk.
3. Draft and final environmental impact report and all associated noticing documents filed with the State Clearinghouse and the county clerk.
4. *Including shapefiles identifying the “treatment” area surveyed where activities will be conducted during the grant period.*
5. Timber harvesting permit or notice in compliance with the California Forest Practice Act and Rules for projects that undertake timber operations per PRC § 4527. Note that use of timber harvest documents for CEQA compliance in the absence of timber operations is not appropriate, as the Forest Practice Act and Rules do not apply in these circumstances. Applicants that will be utilizing timber harvest documents for CEQA compliance should identify within the harvest documents that they are receiving CAL FIRE grant funding.
6. Finding of no significant impact-decision notice, categorical exclusion- decision memo, or environmental impact statement-record of decision prepared in compliance with the

NEPA for projects that are exempt from CEQA pursuant to PRC § 4799.05(d)(1). When using a NEPA document, per PRC § 4799.05(d)(4)(A), a CEQA notice of exemption needs to be filed with the State Clearinghouse and with the county clerk in the county in which the project will be located in the manner specified in subdivisions (b) and (c) of Section 21108 or subdivisions (b) and (c) of Section 21152. The lead agency will also need to post the notice of exemption on its internet website together with a description of where the documents analyzing the environmental impacts of the project under the federal National Environmental Policy Act of 1969 are available for public review.

7. Completed and accepted project-specific analysis under the CalVTP ([California Vegetation Treatment Program](#)) and all associated noticing documents filed with the State Clearinghouse and the county clerk.

1

For exempt projects where the grantee is a public agency¹, the grantee must prepare and file the notice of exemption for an exempt project. For exempt projects where the grantee is not a public agency (e.g., Fire Safe Council), CAL FIRE or another public agency will be responsible for preparing and filing the notice of exemption.

For non-exempt projects where the grantee is a public agency, the grantee will assume the role of lead agency. For non-exempt projects where the grantee is not a public agency (e.g., fire safe council), CAL FIRE or another public agency will need to assume the role of lead agency. The lead agency is responsible for: (a) performing the necessary environmental effects analysis; (b) preparing environmental documents; and (c) filing associated notices.

The lead agency may require the grantee to prepare, or retain a consultant to prepare, the environmental documents required for demonstrating adequate compliance with CEQA. When CAL FIRE is the lead agency, the grantee must work closely with CAL FIRE staff to ensure the environmental documents reflect CAL FIRE's independent judgement.

¹ "Public agency" includes the following:

PRC § 21062. "Local agency" means any public agency other than a state agency, board, or commission. For purposes of this division a

Grantees should ensure they ask for adequate funds for environmental work when applying for grants. When preparing their budgets, grantees should consider the need to contract with appropriate resource professionals to do the necessary environmental effects assessment and document preparation work. This may include biologists, professional archaeologists, air quality experts, registered professional foresters, environmental planners, etc.

For all environmental documents where CAL FIRE is the lead agency, except timber harvesting permits or notices, cultural resources must be assessed per the procedures outlined in *Cultural Resources Review Procedures for CAL FIRE Projects*. This may require the grantee to consult with the appropriate CAL FIRE archaeologist to determine if impacts to cultural resources are possible and what, if any, assessment or mitigation work will have to be done. This consultation should be done as early in the planning process as possible.

CAL FIRE must review all environmental documents and associated notices for adequate compliance with applicable procedures and CEQA.

redevelopment agency and a local agency formation commission are local agencies, and neither is a state agency, board, or commission.

PRC § 21063. “Public agency” includes any state agency, board, or commission, any county, city and county, city, regional agency, public district, redevelopment agency, or other political subdivision.

14 CCR § 15368 “Local agency” means any public agency other than a state agency, board, or commission. Local agency includes but is not limited to cities, counties, charter cities and counties, districts, school districts, special districts, redevelopment agencies, local agency formation commissions, and any board, commission, or organizational subdivision of a local agency when so designated by order or resolution of the governing legislative body of the local agency.

14 CCR § 15379 “Public agency” includes any state agency, board, or commission and any local or regional agency, as defined in these Guidelines. It does not include the courts of the state. This term does not include agencies of the federal government.

APPENDIX B – SAMPLE RESOLUTION (NOT REQUIRED)

RESOLUTION OF THE (TITLE OF GOVERNING BODY/CITY
COUNCIL/BOARD OF SUPERVISOR/BOARD OF DIRECTORS) OF
(CITY/COUNTY/DISTRICT), STATE OF CALIFORNIA

Resolution Number: _____

WHEREAS, the Governor of the State of California in cooperation with the California State Legislature has enacted State of California **Climate Investment**, which provides funds to the State of California and its political subdivisions for **fire prevention programs**; and

WHEREAS, the State Department of Forestry and Fire Protection (CAL FIRE) has been delegated the responsibility for the administration of the program within the State, setting up necessary procedures governing application by local agencies, non-profit organizations, and others under the program, and

WHEREAS, the applicant will enter into an agreement with the State of California to carry out (PROJECT TITLE) project;

NOW, THEREFORE, BE IT RESOLVED that the (GOVERNING BODY):

1. Approved the filing of an application for “California Climate Investments Wildfire Prevention Grants Program”; and
2. Certifies that said applicant has or will have sufficient funds to operate and maintain the project; and,
3. Certifies that funds under the jurisdiction of (GOVERNING BODY) are available to begin the project.
4. Certifies that said applicant will expend grant funds prior to (GRANT DEADLINE).
5. Appoints (POSITION TITLE) or a designee, to conduct all negotiations, execute and submit all documents including, but not limited to applications, agreements, amendments, payment requests and so on, which may be necessary for the completion of the aforementioned project.

The foregoing resolution was approved and adopted the ____ day of _____, 20__ by the following vote:

NOTARY CERTIFICATION
(If Applicable)

INVOICE GUIDELINES

It is preferred, but is not required, that grantees use the [invoice template](#) posted on the CAL FIRE Grants website. Due to differences in accounting systems used by the grantee, the grantee must include the following elements when submitting a payment request, either on the grantee's invoice or as an attachment to the invoice. If a grantee chooses to use their invoice in lieu of the invoice template provided, the invoice must be put on grantee's official letterhead.

1. The word "Invoice" shall appear at the top of the page.
2. Grantee Information – Includes the grantee name and address which shall match the Std. 204 - Payee Data Record submitted with the grant agreement. Payment will be submitted to this address after the financial report has been approved. Grantee shall notify CAL FIRE in writing regarding address changes and effective dates.
3. Invoice Date and Number – Date invoice was issued and unique invoice number to be determined by the grantee for reference.
4. Grant Identification – Grant Number, Grant Performance Period, and Project Name as identified in the Grant Agreement.
5. Invoice reporting period – Performance start and end dates for which grantee is invoicing CAL FIRE. Under no circumstances will an invoice period outside of the grant performance period be accepted.
6. Payment Type – Indicate whether the invoice is to request an advance payment, interim payment, or final payment.
7. Cost breakdown – Grantee costs must be broken down by the budget item consistent with the approved budget in the Grant Agreement. The grantee must identify the amount for which CAL FIRE is being billed in the invoice period and the total amount spent and match (if applicable) from the beginning of the grant performance period through the invoice period. Advance requests should still include a breakdown of the budget items for which the grantee is planning to expend the funds.
8. Offset to current cost – Include the balance of advance funds given to grantee as well as program income earned from the grant if applicable.
9. The total amount for which grantee is requesting reimbursement from CAL FIRE.
10. Grantee contact name, phone number, and email address for questions related to the invoice.
11. All backup documentation to support the invoice (see Project Costs section).
12. Certification and signature of authorized representative - Please see sample invoice for certification language.

APPENDIX D – STATE OF CALIFORNIA STANDARD REQUIRED FORMS

THESE STANDARD FORMS MUST BE SUBMITTED IN THE GRANTS PORTAL WITH THE PROJECT APPLICATION. THE STANDARD FORMS BELOW ARE ALSO LINKED IN THE GRANTS PORTAL.

Payee Data Record form (STD. 204) – CAL FIRE utilizes this form internally for all grantees. This form is required for all applicants, including local governments, despite the language on the form. [Payee Data Record STD. 204](#)

APPENDIX E – CALMAPPER (AWARDED GRANTS ONLY)

All California Climate Investments (CCI) and Prop 4 funded projects will be recorded in CAL FIRE's Management Activity Project Planning & Event Reporter (CalMAPPER). To achieve this, grantees must provide spatial information via shapefiles about where the project occurs on the landscape, identify treatments for their project, and identify what activities occurred. Submission of all activities completed must be submitted with invoices or other methods identified by the Grants Program. This may be requested as often as ground-disturbing work is performed.

APPENDIX F – LOW-INCOME AND DISADVANTAGED COMMUNITIES

California Climate Investments must meet minimum levels of investments to projects that benefit residents of disadvantaged communities, low-income communities, and low-income households collectively referred to as "priority populations" and defined by Health and Safety Code section 39713.

CAL FIRE's Wildfire Prevention Grants Program and Forest Health Program has a goal of funding a percentage of projects that benefit Low-Income Communities or Households. This is not a requirement for eligibility, but preference will be given to projects that benefit a priority population.

Achieving "Low-Income Community or Household" designation requires three steps:

Step 1: Identify the Priority Population(s). Located within a census tract identified as a disadvantaged community or low-income community, or directly benefit residents of a low-income household. [California Air Resource Board's Community Investments](#) webpage may be used to identify the census tract.

Step 2: Address a Need. Meaningfully address an important community or household need for priority populations; and

Step 3: Provide a Benefit. Using the evaluation criteria, identify at least one direct, meaningful, and assured benefit that the project provides to priority populations.

The following tables will assist you in achieving the designation and can be found on the California Air Resources Board [CCI Quantification, Benefits, and Reporting Materials](#) webpage.

Evaluation Criteria for Providing Benefits To Priority Populations
LAND RESTORATION AND FOREST HEALTH

Project Type: Projects will increase carbon storage through restoration and management of natural lands.

Projects must satisfy the applicable criteria through Step 3 to be considered to provide direct, meaningful, and assured benefits to priority populations and count toward statutory investment minimums.

Step 1 – Identify the Priority Population(s).¹ Evaluate the project against each of the following criteria. Check all boxes that apply.

Note: For this project type, the majority of the project must be located within a disadvantaged or low-income community census tract.

- ☐ A. Is the project located within the boundaries of a **disadvantaged community census tract**?
- ☐ B. Is the project located within the boundaries of a **low-income community census tract**?
- ☐ C. Is the project located outside of a disadvantaged community, but **within ½-mile of a disadvantaged community and within a low-income community census tract**?
- ☐ D. Is the project located within the boundaries of a **low-income household**?

If a project does not meet at least one of the qualifying criteria in Step 1, the project does not count toward statutory investment minimums and no further evaluation is needed. If the project meets at least one Step 1 criterion, continue the evaluation in Step 2.

Step 2 – Address a Need. Identify an important community or household need and evaluate whether the project provides a benefit that meaningfully addresses that need.

To identify a need that the project will address, agencies and/or applicants can use a variety of approaches:

- ☐ A. **Recommended Approach:** Host community meetings, workshops, outreach efforts, or public meetings as part of the planning process to engage local residents and community groups for input on community or household needs, and document how the received input was considered in the design and/or selection of projects to address those needs;
- ☐ B. **Recommended Approach:** Receive documentation of support from local community-based organizations and/or residents (e.g., letters, emails) identifying a need that the project addresses and demonstrating that the project has broad community support;

Evaluation Criteria for Providing Benefits To Priority Populations
LAND RESTORATION AND FOREST HEALTH

Step 2 – Address a Need (continued). *Identify an important community or household need and evaluate whether the project provides a benefit that meaningfully addresses that need.*

- ☐ C. **Alternative Approach:** Where direct engagement is infeasible, look at the individual factors in CalEnviroScreen that are most impacting an identified disadvantaged or low-income community (i.e., factors that score above the 75th percentile), and confirm that the project will reduce the impacts of at least one of those factors; or
- ☐ D. **Alternative Approach:** Where direct engagement is infeasible, refer to the list of common needs for priority populations in CARB's Funding Guidelines Table 5 and confirm that the project addresses at least one listed need.

Describe identified community or household need(s):

If the project addresses a community or household need as described in Step 2, proceed to Step 3. If the project does not address a community or household need, it will not count toward statutory investment minimums and no further evaluation is needed.

Step 3 – Provide a Benefit. *Evaluate the project against each of the following criteria to determine if it provides direct, meaningful, and assured benefits to priority populations. The benefit provided must directly address the identified need.*

Project must meet at least one of the following benefit criteria:

- ☐ A. Project restores a site that allows public access;
- ☐ B. Project significantly reduces flood risk to households within one or more disadvantaged or low-income communities;
- ☐ C. Project significantly reduces fire risk to households within one or more disadvantaged or low-income communities;
- ☐ D. Project provides regular and ongoing educational opportunities through partnerships with schools or non-profit organizations located in disadvantaged or low-income communities and site access to residents of these communities.

If the project meets the criteria in Steps 1, 2, and 3, it will be considered as providing direct, meaningful, and assured benefits to priority populations and will be counted toward statutory investment minimums.

APPENDIX G – PDF PROJECT MAP

In addition to the online WP Grants Mapping Center project mapping program Geopoint and polygons, include a pdf map(s) of the project with the project application. The map(s) shall meet the following requirements:

- Electronic format of PDF.
- Printed format(s) should measure 8 ½ by 11 inches.
- The scale should be 1:24,000 scale or finer. The maps should show enough of the surrounding area so that the application review team can get a sense of the relationship of the project to the surrounding area.
- The map(s) should clearly show:
 - Project boundaries
 - Treatment area(s) by type
 - Roads
 - Watercourses
 - Parcels
 - City/County/Unit
 - Proximity to wildfire threatened communities
 - Other necessary information
- Legend: Include a map legend that identifies:
 - The features on the map
 - The project tracking number
 - Project name
 - Project proponent

APPENDIX H – JUSTIFICATION FOR INDIRECT COST RATE ABOVE 12%

Applicants that utilize a higher indirect rate on non-CAL FIRE grants and agreements ***may request to apply an indirect cost rate in excess of 12% as part of their application. The request shall include a detailed justification as a separate attachment to the grant application indicating why a higher rate is needed for the grant project along with supporting documentation as to how the higher indirect rate is determined. Supporting documentation may include, but is not limited to, the entity's Federally approved Negotiated Indirect Cost Rate Proposal. Under no circumstances will CAL FIRE approve an indirect rate exceeding 20% for CCI funded projects. Submittal of the justification and supporting documentation does not guarantee approval of the higher rate which is solely at CAL FIRE's discretion.***

Applicants requesting the higher rate may include the higher rate within the total application request and within the budget breakdown. CAL FIRE will evaluate the request for a higher indirect rate concurrently with the grant application. If the project is approved, but the higher indirect rate is not, CAL FIRE will notify the Grantee of the reduced award amount and request changes to the budget, if needed.

For grants awarded for projects under Proposition 4, Wildfire Prevention Grants will reimburse the grantee's indirect costs. The grantee may request one of the following indirect cost rates:

- The grantee's federal negotiated indirect cost rate, pursuant to its Negotiated Indirect Cost Rate Agreement (NICRA).
- The 15 percent de minimis indirect cost rate specified in Part 200 of Title 2 of the Code of Federal Regulations.
- A rate negotiated by the grantee with another state agency within the last five years.
- A rate proposed by the grantee in the grantee's program application with the administering state agency if the grantee does not have an existing state rate.
- Grantee can request an indirect cost rate of 12% to 20%.

APPENDIX I – APPLICATION PACKAGE

A COMPLETE APPLICATION PACKAGE INCLUDES AND IS REQUIRED TO BE CONSIDERED:

Grants Portal (Solicitation Link on [WP Grants website](#)):

- Application
- Scope of Work
- Budget
- Goals
- File Uploads*
- Online submission of Geopoint or polygons in the [Project MappingProgram](#)

*File uploads to Grants Portal:

- PDF version of Project Map(s) (formatted to 8 ½" x 11")
- Articles of Incorporation, including document w/seal from Secretary of State (non- profit applicants)
- State of California Payee Data Record form (Std. 204) – see Appendix D
- Letter(s) of Commitment if matching funds or services are included
- Letter(s) of Support (not required)
- UC/CSU Model Agreement Template (Required for UC/CSU and associated auxiliary entities)

Board Resolution granting authority to sign if non-profit or local government, a signed resolution may be requested if necessary.

ZIP MULTIPLE FILES OF ONE TYPE, I.E., MULTIPLE LETTERS OF SUPPORT, TRAVEL POLICY (IF TRAVEL IS INCLUDED), FOR FUELS REDUCTION WORK; SHAPE FILES ARE REQUIRED, AND UPLOAD AS A SINGLE ZIP FILE.

APPENDIX J – ADDITIONAL RESOURCES

[Local CAL FIRE Unit](#) (Vegetation Management Foresters and Local Wildfire Prevention Grants Resources)

SouthernRegionGrants@fire.ca.gov (Southern Region Contact)

CNRgrants@fire.ca.gov (Northern Region Contact)

WPGrants@fire.ca.gov (Wildfire Prevention Grants Program Analysts)

CALFIRE.Grants@fire.ca.gov (Grants Administration)

[Subscribe](#) to CAL FIRE grant email notifications to be notified when our workshops are scheduled and to receive solicitation announcements.

Interest on Advance Payments must be reported on invoices as Program Income no less frequently than quarterly, unless otherwise waived by CAL FIRE. Documentation to be provided with the invoice should include a copy of the statement showing the grantee's name, initial deposit of the advance funds into the account and the interest rate earned for each statement period associated with the invoice period reported until the advance funds have been fully liquidated. It is advised that the account number and other sensitive information be redacted from the bank statement.

Separate Account for Advance Payments: Advance funds deposited in a separate interest-bearing account that is not comingled with any other funds should provide a copy of the statement showing the interest earned for each statement period. The amount reflected as interest earned on each statement should tie to the Program Income reported on the invoice, unless there is additional program income earned.

Co-mingled Advance Payments: Advance funds that are co-mingled with other funds shall include a copy of the statement for each statement period associated with the advance funds. The calculation for the invoice period must be included and the total interest should tie to the Program Income reported on the invoice, unless there is additional program income earned. The interest earned can be calculated as:

Formula:

Remaining advance funds x interest rate % = Annual Interest.

Annual Interest/365 days = Daily Rate.

Daily Rate x number of days = Interest/Program Income

Use of an alternative calculation method based on the grantee's accounting process may be accepted at CAL FIRE's discretion.
