## Wildfire Prevention Grants Project Mapping Program

# Please email <u>WPGrants@fire.ca.gov</u> for questions.

Create the Geo Point and if applicable, the Treatment Influence Zone (TIZ) polygon(s) for your grant project. Hazardous Fuels Reduction grant applications are required to create both a Geo Point and TIZ polygons(s). Education and Planning projects need a Geo Point only. Applications without the required mapping elements will be disqualified from consideration.

Once you have selected your project type from the drop-down menu, confirm that you have drawn the required geometry for your project. Select from the Yes/No options. Remember, you must draw a **Geo Point** and **Treatment Influence Zone(s) (TIZ)** for your Hazardous Fuels Reduction project. <u>Wildfire Prevention Planning and Education Projects will require a Geo Point</u> only.

**Note:** An application will be automatically rejected if an applicant fails to each draw required geometry for their project.
