# Fire Marshal (NFPA Fire Marshal)

## Certification Task Book (2016)

California Department of Forestry and Fire Protection  
Office of the State Fire Marshal  
State Fire Training

## Overview

### Authority

This certification task book includes the certification training standards set forth in the Fire Marshal Certification Training Standards Guide (2016) which is based on NFPA 1037: Standard on Fire Marshal Professional Qualifications (2016).

Revised: January 2020

Published by: State Fire Training, PO Box 944246, Sacramento, CA 94244-2460.

Cover photo courtesy of Office of the State Fire Marshal.

### Purpose

The State Fire Training certification task book is a performance-based document that identifies the minimum requirements necessary to perform the duties of that certification. Completion of a certification task book verifies that the candidate has the required experience, holds the required position, and has demonstrated the job performance requirements to obtain that certification.

### Assumptions

With the exception of the Fire Fighter 1 and 2 certifications, a candidate may begin the task book initiation process upon completion of all required education components (courses).

Each job performance requirement (JPR) shall be evaluated after the candidate's fire chief initiates the task book.

An evaluator may verify satisfactory execution of a job performance requirement (JPR) through the following methods:

- First-hand observation
- Review of documentation that verifies prior satisfactory execution

State Fire Training task books do not count towards the NWCG task book limit. There is no limit to the number of State Fire Training task books a candidate may pursue at one time if the candidate meets the initiation requirements of each.

It is the candidate's responsibility to routinely check the State Fire Training website for updates to an initiated task book. Any State Fire Training issued update or addendum is required for task book completion.

A candidate must complete a task book within five years its initiation date. Otherwise, a candidate must initiate a new task books using the certification's current published version.
