Website: www.fire.ca.gov

Date: June 16, 2022

To: Statewide Training and Education Advisory Committee
State Board of Fire Services, c/o State Fire Training

From: Scott Vail, OES Retired Annuitant
California Incident Command Certification System (CICCS) Task Force

SUBJECT/AGENDA ACTION ITEM:
2022 Revision of the CICCS Qualifications Guide

Recommended Actions:
Request Approval of the 2022 CICCS Qualifications Guide

Background Information:

After four years, the 2018 California Incident Certification System Qualifications Guide (CICCS Guide) has been revised to reflect changes and updates including:

- Emphasis on the all-hazard nature of CICCS.
 - Clarifying of the definition of “quality assignments”.
 - Adding additional positions (not an inclusive list)
 - US&R,
 - Haz Mat,
 - Behavioral Health
 - Unmanned Aerial Vehicles,
- Incident Command System (ICS) position requirements/changes
- Updates to the Equivalency Matrix to reflect State Fire Training curriculum

Attached is a draft of the 2022 Qualifications Guide with changes delineated.

The new positions are unchanged, except in format to mirror the Qualifications Guide from their source documents from the Federal Emergency Management Agency (FEMA), **Fire RESources of California Organized for Potential Emergencies (FIRESCOPE)**, the

National Wildfire Coordinating Group (NWCG) or the California Office of Emergency Services (CalOES).

Analysis/Summary of Issue:

The 2022 revision to the Guide captures the NWCGs direction on wildland fire and the National Incident Management System (NIMS) all-hazard certification and qualification requirements. The CICCIS Guide is inclusive of a broad spectrum of services consistent with their all-hazard mission including US&R and Haz Mat.

The CICCIS has rigorous qualification standards; which allows California to provide the highest levels of incident response and public service. The certification system is managed at the local, regional, and state levels. CICCIS recognizes the voluntary nature of this program and the differences in the mission of local, state and federal wildland fire agencies.

Maintaining the relevancy of CICCIS Guide is paramount to facilitate training, preparedness, and response efforts as crucial components of our premier statewide mutual aid system.

CALIFORNIA INCIDENT COMMAND CERTIFICATION SYSTEM (CICCS) QUALIFICATION GUIDE

Background & History

After Action Reports (AAR) from incidents in the early 1990's cited ICS training deficiencies that may have led to near misses, accidents and injuries. To address this concern, a meeting was held in 1995, with 230 representatives from the CAL FIRE, Office of the State Fire Marshal Office (CAL FIRE-OSFM), California Office of Emergency Services (Cal OES), Cal Chiefs and State Training Officers to discuss the use and implementation of ICS and to discuss the creation of a system to standardize certification and qualifications for Incident Command Systems (ICS) positions specific to California.

After the October 1996 Calabasas Fire, a task force of the involved agencies developed the Calabasas Fire Report. A total of 56 recommendations were presented to enhance fire agencies' capability to combat wildland fire incidents and provide for the safety of personnel. There was an agreement by the agencies that the 12 highest priority recommendations be forwarded to Firefighting Resources of California Organized for Potential Emergencies (FIRESCOPE) for review and implementation statewide.

In April of 1997, the Cal OES Fire & Rescue Service Advisory Committee/FIRESCOPE Board of Directors were presented with the findings of the Calabasas Fire Report. Three of the recommendations involved "Development of qualifications & experience requirements for all firefighters responding to mutual aid wildland/urban interface incidents."

In June 1997, CAL FIRE-OSFM presented a recommendation to the FIRESCOPE Board of Directors that "The Board of Directors should appoint members to a working group chaired by CAL FIRE-OSFM to develop standards for all-risk incident management using the National Wildfire Coordinating Group (NWCG) Positions Qualification Guide or PMS 310-1 as a model." In October 1997, Cal OES Fire & Rescue Service Advisory Committee/FIRESCOPE Board of Directors agreed the CAL FIRE-OSFM should lead the development of State of California Incident Management Certification and Qualification for the State.

In 1998, the California Incident Command Certification System (CICCS) Task Force was established with representatives from across the State. In 1999, the CICCS Task Force presented recommendations to the State Board of Fire Services (SBFS) who agreed on the following elements:

- Voluntary fire department participation
- Historical recognition of prior experience
- Specific system components
- Use of NWCG 310-1 as a base document

The SBFS, Cal OES Fire & Rescue Service Advisory Committee and the FIRESCOPE Board of Directors adopted CICCS In November 2000. State Fire Training (SFT), and the Governor's Office of Emergency Services Fire & Rescue Branch implemented the system in August 2002.

Introduction

The CICCS Incident Qualifications Guide was created when the CAL FIRE-OSFM tasked a subcommittee of the SBFS with developing a certification system that would enhance the state's ability to field adequately trained and qualified personnel resources for service throughout our emergency response system.

The CICCS Guide provides clear certification criteria, acknowledges individuals who have already completed equivalent training, recognizes individuals that have the appropriate training and are already functioning at these levels, and provides a road map for new resources to be certified.

The CICCS is a system that captures the NWCG's direction on wildland fire, the National Incident Management System (NIMS) all-hazard certification and qualification requirements and is inclusive of a broad spectrum of services consistent with all-hazard missions. The certification system is managed at the local, regional, and state levels. CICCS recognizes the voluntary nature of this program and the differences in the mission of local, state, and federal wildland fire agencies.

The SBFS and the Cal OES Fire and Rescue Services Advisory Committee/FIRESCOPE Board of Directors have endorsed this CICCS Qualification Guide.

Authority

The CICCS Task Force is a sub-committee of the SBFS. The State Board of Fire Services is a 17-member advisory board to the California State Fire Marshal. The Board is comprised of representatives of fire service labor, fire chiefs, fire districts, volunteer firefighters, city and

county government, Office of Emergency Services, and the insurance industry. The Board is chaired by the California State Fire Marshal.

The Board provides a forum for addressing fire protection and prevention issues of statewide concern; develops technical and performance standards for training of fire service personnel; accredits curriculum; establishes policy for the certification system for the California Fire Service; advises the State Fire Marshal on dissemination of regulations; and sits as an appeals board on the application of California State Fire Marshal regulations.

The CAL FIRE-OSFM has delegated the administration of CICCS to the State Fire Training Division(SFT).SFT is the OSFM division that establishes, develops, and delivers standardized training and education for the California fire service. SFT is the state certifying entity and serves on the CICCS Task Force (CICCS TF). The Task Force also functions as the peer assessment for the CICCS Evaluation Committee (PACE V), which is responsible for reviewing and certifying applications for ICS positions at the state level and makes recommendations for certification to SFT. This process is explained in the SFT Procedures Manual.

Objectives, Process & Design

The objective of CICCS is to create a qualification system that meets the needs of the California Fire Service. The process uses the established organization and authorities of the CAL FIRE-OSFM and Cal OES.

Cal OES utilizes their affiliation with local departments and agencies to establish local and regional Peer Review Committees, which are a cross section within those jurisdictional boundaries. Peer Review Committees act as the certifying body of the CICCS process when an applicant is determined to be qualified for a CICCS position.

This single statewide system ensures a minimum standard for all personnel deployed to all-hazard incidents outside of their home Department/Agency area of responsibility, or jurisdiction.

Program Administration & Accountability

Governor's Office of Emergency Services

Cal OES is responsible for the following components of the CICCS process:

- Establishing Operational Area and Regional Peer Review Committees
- Overseeing the peer review process
- Provide a statewide point of contact for CICCS
- Coordination of the CICCS Task Force

- Provide coordination of CICCIS between Cal OES and CAL FIRE-OSFM
- Provide coordination of CICCIS and FIRESCOPE
- Manage publications and documents of the CICCIS Task Force

FIRESCOPE

FIRESCOPE works with the SBFS and the CICCIS Task Force to ensure an integrated process is provided to the California Fire Service and is responsible for:

- Professional and technical information to the CICCIS Task Force (through the Operations Team) on course development
- Assistance with the development of position requirements for Incident Management positions within California
- Responsibility for operations, development and maintenance of ICS and the Multi-Agency Coordination System (MACS) within California
- A common voice for the California Fire Service

State Board of Fire Services

The SBFS is responsible for and provides:

- The authority to create the CICCIS program
- Reviews and approves the CICCIS process

CAL FIRE, Office of the State Fire Marshal/State Fire Training

The CAL FIRE-OSFM is responsible for and provides:

The Office of the State Fire Marshal (OSFM) created the California Incident Command Certification System (CICCIS) in collaboration with The State Board of Fire Services (SBFS).

CICCS enhances California's ability to field resources that are adequately trained and qualified for service through the emergency response system. It adequately prepares California's fire fighters to respond to all incident types by clearly identifying certification criteria.

CICCS can be managed at the local, regional, and state level, and provides a road map for certifying individuals as well as recognizing individuals who have already completed equivalent training and are functioning at these levels.

The CICCS was developed in response to the concerns of California's fire service personnel, who identified the need for a system that enhanced the readiness and safety of emergency responders to multiagency incidents. CICCS is a decentralized program that provides certifications administered at local, regional, and state levels.

A. Certification Requirements

1. Instruction

Applicants complete the training through a qualified instructor as specified in the approved curriculum for the position.

2. Prerequisites

Applicants must meet the certification prerequisites identified for the various levels of certification as established in the California Incident Command Certification System Qualification Guide.

3. Experience

Applicants must meet the experience requirement identified for the various levels of certification as established in California Incident Command Certification System Qualification Guide.

B. Committee Review

1. The PACE V5 Committee shall review the applicant's request for Area Command, Type 1, and identified specialty positions.

2. The Committee may contact the applicant to address questions.

3. The Committee may require the applicant to participate in a phone or in-person interview to address any unresolved concerns.

4. Applicants are responsible for their own costs related to attendance, travel, and miscellaneous expenses.

5. Any applicant that meets the certification criteria will receive a certificate upon passing the Committee's evaluation.
6. If an application is incomplete, the PACE V5 Committee shall send a letter to the applicant indicating the missing documents within five (5) working days of the PACE V5 Committee review meeting.
7. The Committee shall notify the applicant in writing of its decision.

Fire Departments and Agencies

Fire Departments and Agencies choosing to participate in the CICCS process are responsible for and provide:

- Endorsement of the peer review process
- Education of their department on the process
- Maintenance of all training records pertinent to the CICCS process
- Issuance of certification and qualification cards, or other department approved documentation
- Assurance that personnel are entered into IROC according to Operational Area and/or Regional procedure

Complete applications to the Peer Review Committees

- Provides representation to the Peer Review Committee when requested
- Incident position training
- Certification for positions at the department or agency level

Fire Chiefs/Administrators

The Fire Chief/Administrator provides final review and approval for qualification of their department personnel following the peer review process. The Fire Chief is responsible for and provides:

- Validation that personnel meet all the requirements as set forth in the CICCS
- Assurance that personnel meet the department's physical fitness standards

- A signature on the application letter presented to appropriate Peer Review Committee
- Final review and approval for qualification of personnel following certification
- Certification, recertification and decertification

Individuals Seeking Certification

Individuals are responsible for and provide:

- Completion of all CICCIS application requirements prior to submission.
- Maintenance of the original course completion certificates, performance evaluations and Position Task Books (PTBs)
- Assurance that all performance evaluations to maintain currency are submitted for documentation purposes to the appropriate person within the sponsoring Department/Agency
- Assurance that qualifications card/documents are accurate and current
- A properly initiated PTB when assigned as a trainee

System Description, Components & Process

Performance Based System

CICCIS is a performance-based qualification system and is not rank based. Qualification is based upon completion of required training and successful position performance demonstrated by completing the applicable PTB on all-hazard incidents, events, job activities, simulations, exercises, and/or classroom activities. Each of the tasks in PTBs have been developed by subject matter experts from a variety of agencies and geographical areas throughout the United States.

PTBs are used to document a Trainee's performance in all critical competencies, behaviors and tasks that must be successfully completed to become certified in the position. Tasks may be evaluated through means such as a simulation, non-emergency events, or actual incidents which are required for tasks pertaining to tactical decision-making and safety.

The primary criteria for qualification are a properly initiated PTB and properly documented individual performance as observed by an evaluator qualified in that position or a higher-level

position. Successful completion of all tasks required for the position form the basis for a recommendation for certification by the evaluator(s).

Training

The two types of training that are identified in this guide are ‘required’ and ‘recommended’. Both types of training have several components integrated to ensure a quality training experience is provided. Those integrated components include approved curriculum, a qualified instructor, and the issuance of proper completion certificates.

It is the responsibility of the sponsoring Department/Agency, providing the training course, to ensure that the above three components are provided. Peer Review Committees are unable to recognize the training if an unapproved course is provided, the instructor is not certified, or an incorrect certificate is issued.

Approved Course Curriculum

It is recommended that Departments/Agencies provide classes offered through:

- NWCG – member agencies, or their designated partners
- SFT – Fire Service Training and Education Program (FSTEP)
- SFT- California Fire Service Training and Education System (CFSTES)
- FEMA – National Fire Academy and Emergency Management Institute
- CAL FIRE - California Department of Forestry and Fire Protection
- NIMS All-Hazard Position Specific Training through OES (CSTI), State Fire Training and the Emergency Management Institute
- CFFJAC – California Firefighter Joint Apprenticeship Committee
- FIRESCOPE – Firefighting Resources of California Organized for Potential Emergencies
- Accredited California Community Colleges

Approved course curriculum is available from many different sources. A complete list of the equivalent approved courses is provided in the Equivalency Matrix found in Appendix A.

Approved courses have specific competency components that must be met to maintain the course’s approved objectives and intent. Each course must use a qualified instructor, teach to NWCG course objectives, use the approved course materials, and meet the classroom hour

requirements. Instructors may add materials and classroom hours to the course if the original objectives and intent are met.

The requirements for the NWCG course can be found in the NWCG Standards for Course Delivery (<https://www.nwcg.gov/publications/901-1>)

The CICC TF recognizes that Departments/Agencies may have a need to use or develop an alternative or equivalent course based on curriculum availability and/or student and Department/Agency needs. An agency using alternative curriculum must have:

- A reason the alternative course was used or developed, or
- A benefit gained using the alternative course, such as:
 - Cost savings
 - Broaden target audience
 - Enhanced learning experience for students

Should a Department/Agency desire to seek course equivalency, they must conduct a detailed analysis and document their findings. The analysis should follow these guidelines:

- All learning and performance objectives are met or exceeded in the equivalent course.
- Course prerequisites have not been altered.
- The equivalent course does not conflict or contradict established SFT, NWCG or FEMA guidelines and standards.

The analysis must be presented to the CAL FIRE-OSFM for consideration as outlined in the SFT Procedure Manual.

Instructors

New instructors for Incident Management courses are required to have their teaching abilities evaluated to ensure they meet the requirements as set forth by the organizations providing the approved course. Each organization has different requirements. Currently, there are several organizations that provide direction and guidelines for instructors.

New instructors for NWCG, SFT (FSTEP) and NIMS Position Specific Courses shall comply with all the guidelines presented in the appropriate manual(s) listed below:

- **NWCG Standards for Course Delivery, PMS 901-1**

<https://www.nwcg.gov/publications/901-1>

- **SFT: State Fire Training Procedures Manual**
- <http://osfm.fire.ca.gov/divisions/state-fire-training/>
-
- **NIMS: NIMS ICS All-Hazard Position Specific Training Program**
<https://training.fema.gov/allhazards/>

Certificates

ICS training courses are the foundation of CICCS. When a CICCS application is submitted to the appropriate Peer Review Committee, the course completion certificate is the official document verifying successful completion of an approved course by a qualified instructor and is one of the cornerstones of the documentation package.

At a minimum, the course completion certificate will include the following information:

- Correct name of the ICS course
- Instructor's name signed and legibly printed
- Instructor's sponsoring Department/Agency
- ICS qualifications as it relates to the course instructed
- Hours of instruction

It is recommended that Departments/Agencies provide classes offered through:

- NWCG - member agencies, or their designated partners
- SFT - Fire Service Training and Education Program (FSTEP)
- California Fire Service Training and Education System (CFSTES)
- NIMS All-Hazard Position Specific Training through OES, State Fire Training and the Emergency Management Institute
- CFFJAC - California Firefighter Joint Apprenticeship Committee
- Departments/Agencies
- Operational Areas

Courses sponsored by a Department/Agency must meet the minimum requirements set by the organization that developed the course (i.e., for a NWCG course, the minimum requirements are listed in the NWCG Standards for Course Delivery, PMS 901-1).

Unless the course is sponsored by an NWCG member agency, or the lead instructor is an authorized representative of NWCG, issuance of a NWCG certificate of completion is not authorized.

If a Department/Agency elects to teach an NWCG course and they are not an NWCG member agency, following statement must be provided on the Department/Agency course completion certificate: ***“The course, instructor and curriculum meet the minimum standards set forth by NWCG in the NWCG Standards for Course Delivery, PMS 901-1.*”**

Required Training

Required Training provides a direct link between training and job performance. This encompasses a focus on responder health and safe operations on incidents and planned events. Required Training cannot be challenged and must be completed prior to initiating a PTB.

There are a few exceptions to the completion of required training prior to the issuance of a PTB. These exceptions are for Command and General (C and G) Staff positions that require the successful completion of O-305, S-420, S-520, CIMC, AAIM and S-620.

To obtain a qualification at the Type 2 Level takes considerable commitment to training and qualifications in the CICC process. When an individual is interested in applying to attend an S420 class, they shall complete the nomination form with the list of the experience, qualifications and completed classwork documents.

The requirement for the S-420 class in each of the Command and General Staff positions are as follows:

➤ **Incident Commander**

Completed G/E/L-950 or S-400 and have completed any of the requirements set forth in one of positions below

➤ **Public Information Officer**

Qualified as a PIOF or a PIO3, completed G/E/L-952, or S-403 and I-400

➤ **Safety Officer:**

Qualified as a DIVS, SOFR or a SOF3, completed G/E/L-954 or S-404 and I-400

➤ **Liaison Officer**

Completed G/E/L-956 or C-402 and I-400

➤ **Plans Section Chief**

Qualified as a RESL and SITL, completed G/E/L-962 or S-440 and I-400

➤ **Logistics Section Chief**

Qualified in any two of the following positions, FACL, GSUL, SPUL, completed G/E/L967 or C-450 and I-400

➤ **Operations Section Chief**

Qualified as a DIVS and completed G/E/L-958 or S-430 and I-400

➤ **Finance Section Chief**

Qualified in any two of the following positions, COST, TIME or PROC and have completed G/E/L-973 or C-460 and I-400

The completed application shall be submitted to the PACE V Review Committee (Cal OES Fire and Rescue Division, CICCIS Task Force Manager, 3650 Schriever Avenue, Mather, CA, 95655) for approval to attend the S-420 class.

The PACE V Committee will notify the applicant, the sponsoring Department/Agency, and the Regional OES Review Committee when the application is approved. Unapproved applications will be returned to the sponsoring Department/Agency with the noted deficiencies.

Individuals interested in becoming Type 1 qualified shall be Type 2 qualified and complete NWCG S-520, CIMC or the AAIM class. To be considered to attend these classes, the individual shall fill out an application outlining the incidents that they have been involved with, indicate classes completed, and provide the CICCIS Certificate of Type 2 qualification. This certificate needs to be in the same position that is being applied for at the Type 1 Level.

Once the above information is compiled, the completed application shall be submitted to the PACE V Review Committee (Cal OES Fire and Rescue Division, Task Force Manager, 3650 Schriever Avenue, Mather, CA, 95655) for approval to attend the desired class.

Once the application is approved, the PACE V Committee will notify the sponsoring Department/Agency, the individual and the Regional OES Review Committee. Unapproved applications will be returned to the sponsoring Department/Agency with the noted deficiencies.

Required Recurrent Training

Required Recurrent Training will consist of the following, if applicable, or Agency Determined:

- Aviation Hazardous Materials Training (A-110)

- Annual Fireline Safety Refresher (RT-130)
- HRSP Refresher Workshop (RT-340)
- Triennial Helicopter Manager Workshop (RT-372)
- Air Tactical Group Supervisor (RT-378)

US&R Training

- Annual refresher training as required for first responder operations level for hazardous materials (OSHA 29 CFR, 1910.120)
- Maintain certification in cardiopulmonary resuscitation. Task force members currently licensed or certified as EMT (all levels) or licensed board-certified emergency physicians inherently meet this requirement
- Refresher training as required for respiratory protection training per OSHA 29 CFR 1910.134 (k)

HAZMAT Training

- The Cal OSHA requirement is found in Title 8 CCR §5192(e) (8):

Agency Determined Training consists of any additional courses specific to that sponsoring Department/Agency.

Recommended Training

Individuals are not required to complete courses referenced under ‘Recommended Training’ to qualify for a CICC position unless specific department, agency, Operational Area, or regional policy dictates that courses have been elevated to ‘Required Training’.

The training identified in the ‘Recommended Training’ includes job aids, knowledge and skills acquired through on-the-job training, work experience, and training determined by the sponsoring Department/Agency. It is a means by which individuals can prepare for position performance evaluation by obtaining specific knowledge and skills required to perform tasks identified in the PTB.

Job Aids

Job Aids are “how to” books that assist an individual in performing all tasks associated with a position. They are used by an individual, in a trainee position, who has met all the prerequisites but has not completed the PTB for the position. In some cases, familiarization of the Job Aid is a

part of the required training. Job Aids are also used after the individual has become qualified, as an aid or refresher in performance of the position.

No Job Aid can be issued without the approval of the Fire Chief/Administrator or their Designee.

Equivalencies

Equivalency courses are classes that have been determined to meet the objectives of the referenced course. The goal of course equivalencies is to minimize redundancy of training, expedite the certification process, and avoid unnecessary costs due to duplication of curriculum delivery. It is not the purpose of the Equivalency Matrix to dilute the referenced course curriculum. In comparative analysis, the identified equivalent course work meets or exceeds the intent of the referenced course content.

Approved equivalency courses can be found in the Equivalency Matrix in Appendix A. Any course listed as an equivalent course can be substituted for the referenced course for purposes of submitting a CICCIS qualification application.

Position Task Books (PTBs)

PTBs contain all the minimum critical Competencies, Behaviors and Tasks required to become certified for an ICS position. PTBs are designed in a format that allows documentation of a trainee's task performance. Documented performance provides critical feedback to the trainees and validates position performance for Peer Review Committees when considering applications for certification. Successful completion of all position tasks is required, as determined by an evaluator, and shall be the basis for recommending certification.

An individual may not have more than four active PTBs open at one time, and no more than two of the four PTBs may be in a single functional area.

Exceptions:

Aviation positions will not be considered Operations positions; they are considered their own functional area. This will allow an individual the ability to have two PTBs open in Operations and two in Aviation and still be compliant with the maximum of two PTBs open in a functional area.

A third position task book, PTB, may be opened in a single functional area if the PTB is for PSC3, LSC3, or FSC3. This does not apply to OSC3 or ICT3, nor does it increase the total number (4) of task books a trainee may have open at one time.

Example:

An individual may be issued a PTB for Facilities Unit Leader and a PTB for Food Unit Leader in the Logistics functional area; also, they may be issued PTBs for Staging Area Manager and Strike Team Leader, Engine in the Operations functional area. They would be compliant with the maximum number of four PTBs, with no more than two in a single functional area.

PTB Requirements:

- Only the Chief Administrator, or their Designee, of the sponsoring Department/Agency can initiate PTBs.
- The trainee status date begins when the position initiation and certification is completed by the training officer and the employee is entered into IROC in that ICS position.
- Once a PTB is initiated, a trainee will continue with that PTB until completion (if they are within timeframes) regardless of whether there are new requirements for that position.
- For Command & General (C&G) Staff Positions, completion of O-305, S-420, S-520, S-620, CIMC, or AAIM is not a requirement for task book initiation. This procedure allows trainees to gain experience that prepares them for passing these advanced courses.
- PTB Completion:
- PTBs for the Air Operations and Expanded Dispatch positions must be completed within 3 years.
- PTBs for all other positions must be completed within 5 years.
- With concurrence of the appropriate Peer Review Committee, the Chief Administrator or their Designee may grant an extension to the completion of a PTB. Extensions will be granted in 1-year increments, to a maximum of 5.
- PTBs not completed within the specified timeframes may require an individual to meet the current adopted training/experience qualification standard.

A minimum of two quality assignments is required for an applicant to be considered for certification. Quality assignments include those that exercise the full range of responsibilities of the assigned trainee position. A quality assignment is guided by the idea that approximately 65% of all the required tasks for the given position has been completed. Consideration should also be given to complexity and length of assignment. Peer review committees should use this as a guideline in conjunction with the taskbook, ICS 225 and supporting documentation to ensure that at least two quality assignments have been completed and evaluated prior to considering a candidate for qualification.

The Peer Review Committee should evaluate each application based on the complexity of the assignments submitted for certification. While actual incidents are preferable CICCS recognizes the opportunities are limited therefore Deployment Exercises, which evaluate the five FEMA Operational Components (Mobilization, Transportation of Personnel and Cache, Establishing a Base of Operations (BoO), Onsite Operations and Demobilization, as experience in lieu of a deployment.

- All-hazard incidents shall be considered when evaluating applications for certification.
- Every assignment requires a completed ICS 225 Form (*Appendix D*).
- To receive the proper documentation and improve the quality of the trainee assignment, a trainee shall check in with the assigned Training Specialist (TNSP) at an incident when a TNSP is assigned.
- All documentation in a PTB must be legible. This includes the printed name of the evaluator and their signature.
- Each task in the PTB must be individually dated and initialed by the evaluator.
- The CICCS Task Force approves PTBs for use in the certification/qualification process.

Required Experience

Required Experience includes qualification in any prerequisite position, successful position performance through completion of the PTB, and recognition through the historical recognition process. Exercises that evaluate the five FEMA Operational Components of 1) Mobilization, 2) Transportation of Personnel and Cache, 3) Establishing a Base of Operations (BoO), 4) Onsite Operations, and 5) Demobilization, may count as experience in lieu of a deployment in the PTB.

The historical recognition process can only be initiated by the CICCS Task Force/PACE V Committee with concurrence of Cal OES and State Fire Training.

Peer Review Committees are encouraged to be discerning in considering experience. Local and all-hazard incidents shall be included in any review of experience. Required Experience cannot be challenged.

Certification

Certification is the role of SFT through the Peer Review Process, except for the positions that are approved by the local sponsoring Department/Agency. SFT certification can be achieved through either the:

- Cal OES Operational Area
- Cal OES Region
- CICCIS Task Force

This review process ensures that an individual has completed the required coursework and has obtained documented experience. Once an individual has received the approval of the appropriate CICCIS Peer Review Committee, a certificate will be issued from SFT through the certifying CICCIS Peer Review Committee.

The quality of the assignment shall be closely evaluated when deciding for advancement to the next highest ICS position. Quality assignments include those that exercise the full range of responsibilities of the assigned trainee positions. The quality of experience should relate to the number of assignments, the variety of incidents such as wildland or all hazard, or the size and complexity of the incident or event in terms of personnel, equipment, and operations.

Applications for certification shall be submitted to the appropriate Peer Review Committee. Certification for subordinate level positions will be granted when appropriate.

Qualification

Qualification is a two-step process.

Initially, the CICCIS Peer Review Committee must certify an individual for the position by determining the required experience and prerequisites meet CICCIS minimum standards. Then the sponsoring Chief/Administrator confirms the individual meets the sponsoring Department/Agency's physical fitness requirements, the need for additional qualified personnel in a given position, and any other criteria deemed necessary. This two-step process will apply to all positions other than the ICS positions approved by the local agency.

The Chief/Administrator is the ultimate authority for determining if an individual is qualified. Once a sponsoring Department/Agency has determined qualification, that individual can perform that position outside of the qualifying sponsoring Department/Agency's jurisdiction and is made available to the Mutual Aid System by being placed in the Interagency Resource Ordering Capability (IROC) or currently approved ordering system.

The Chief/Administrator shall ensure that certification records are maintained and shall either annually issue a CICCIS Qualification Card or maintain sponsoring Department/Agency approved documentation for each currently qualified individual. The CICCIS Qualification Card

shall contain, at a minimum, the individual's name, sponsoring Department/Agency, expiration date, qualified positions, trainee positions, physical fitness level, and Chief/Agency Administrator signature (or their Designee). This qualification card provides documented proof of position currency.

Completion of required training and experience alone does not guarantee an individual will be qualified to perform in a position. Qualification is a subjective determination each sponsoring Department/Agency must make based on task evaluations, position performance evaluations, and their own judgment of the quality of an individual's experience.

Participation by local government personnel on CAL FIRE Incident Management Teams (IMT), Federal IMTs, and Local All-Hazards IMTs is at the discretion of the sponsoring Department/Agency. Local government personnel assigned to these teams must follow the standards as set forth by the CICCIS Qualification Guide.

Note:

CAL FIRE "Types" their IMTs as Type 1; they do not have Type 2 Teams. Local government personnel, assigned to CAL FIRE teams in Command and General Staff positions that have not completed the Type 2 PTB, must first complete the Type 2 PTB and Regional Peer Review process. Once qualified as a PSC2 a Type 1 PTB can be initiated. Both Type 1 and Type 2 experience can be achieved while assigned to the CAL FIRE IMTs.

Transferring Qualifications

When an individual transfers qualification from a non-CICCIS participating Department/Agency to a sponsoring Department/Agency that endorses CICCIS, they shall follow the process outlined below:

- A complete CICCIS application shall be filled out, including the incidents that will keep the applicant current since the issuance of their last qualification card.
- Documentation of being on qualifying incidents will also need to be provided, (e.g. Incident Action Plans [IAP], ICS 225s, Incident Qualification System [IQS] printouts).
- A copy of past sponsoring Department/Agency qualification cards or other documentation will also need to be provided. If the individual was 'historically recognized' by their previous employer, that documentation shall be provided.
- Type 1 and other PACE V reviewed position applications will be sent directly to the PACE V Committee.

- Type 2 and other Regionally reviewed position applications will be sent directly to the appropriate Regional Peer Review Committee.
- Positions reviewed at the Operational Area will continue to be reviewed at the Operational Area.
- The Peer Review Committee may require additional information or documentation in addition to that listed above.

When an individual transfers from a CICCIS participating Fire Department/Agency to another Fire Department/Agency that is subject to CICCIS they shall provide a copy of their CICCIS file or documentation from their previous operational/regional Peer Review Committee. The supporting documentation will be reviewed by the receiving Peer Review Committee who may require additional documentation (based on local requirements) prior to an individual being entered into IROC in the new Operational Area.

Currency

Each sponsoring Department/Agency is responsible for reviewing the qualifications of its personnel based upon the requirements of this Guide on an annual basis.

Individuals who are qualified for any CICCIS position shall be required to perform that position satisfactorily at least once every five (5) years except for air operations and expanded dispatch positions, which require satisfactory performance once every three (3) years to maintain currency.

Currency for a position can be maintained by meeting any of the following requirements:

- Successful performance in the position qualified for within the stated timeframe
- Successful performance in a position identified in this Guide as “other position assignments that will maintain currency”.
- Successful completion of a trainee assignment in the position which they were qualified. This will apply when a qualified individual falls out of currency and has reverted back to ‘trainee’ status.
- Functioning in a position while participating in a documented scenario-based exercise or drill.

Example: Currency for a Resources Unit Leader (RESL) can be maintained by:

- Demobilization Unit Leader (DMOB)
- Planning Section Chief Type 1 (PSC1)
- Planning Section Chief Type 2 (PSC2)
- Planning Section Chief Type 3 (PSC3)
- Status/Check-In Recorder (SCKN)

Exercises or drills need to meet minimum complexity standards:

- The exercise or drill must fully exercise the position requirements as found in the FIRESCOPE Field Operations Guide (ICS 420-1).
- The exercise or drill has a completed Incident Action Plan or Training Plan with the objectives of the exercise and with the name and the position of the person fulfilling the currency requirement.
- A written performance evaluation, by a person fully qualified in that position or a higher position to that being evaluated, must be completed.
- The drill or exercise must be pre-approved by the appropriate Peer Review Committee to be considered as a qualifying event. The specific positions that can receive experiential credit must be identified in advance of the event: Every event will not provide a quality experience for all CICC positions.

Decertification

Decertification is the process of removing or reducing an individual's qualifications. Decertification is not an adverse action; it is a process to improve position skills. An employee may be recertified according to the procedures outlined in the 'Recertification' section of this document.

The decertification procedures in this section are intended to ensure safe and effective individual performance and to provide supervisors and managers with another mechanism to ensure employee safety.

Causes for decertification may include the following:

- An individual voluntarily surrenders their certification of qualifications, or requests to be qualified at a lower level of responsibility.

- As an individual, member of a crew, or IMT, an individual performs actions that violate recognized standard operational procedures or identified safety procedures that are determined to have been instrumental in the endangerment of incident personnel or the public.

Examples of instances that may warrant decertification include:

- *Deliberate disregard of identified safe practices*
- *Insubordinate actions that lead to unsafe conditions*
- *Intentional misrepresentation of fire qualifications*
- *Unsatisfactory performance in key elements of position tasks that lead to unsafe conditions*
- *Falsification of experience or training records*

Performance Evaluation and Documentation

All actions that violate established safety procedures shall be documented. The preferred method to document deficiencies is on a performance evaluation, ICS 225 Form. Performance reviews, especially those that trigger consideration of decertification, shall be coordinated and tracked.

Responsibility for Performance Evaluation and Decertification:

- The Incident Commander is responsible for providing oversight of the initial performance review process. Within the authority delegated to all Incident Commanders is the responsibility to relieve from assignment, and demobilize, any individual for safety violations. Incident Commanders, however, do not have the authority to decertify individuals.
- Incident Commanders are responsible for providing documented reasons for relieving an individual. ICs will send a copy of the performance rating and documentation package to the Cal OES Fire and Rescue Division, Operations Deputy Chief, 3650 Schriever Avenue, Mather, CA, 95655, and the individual's home agency.

- The Peer Review Committee is responsible for initiating an administrative review to determine if decertification is appropriate.
- Any decision to decertify an individual should include a performance improvement plan.
- During an evaluation of decertification, an individual's certification may be suspended. Decisions around certification can be made through expert mentoring or independent assessment.
- Peer Review Committees shall review individual certification and address decertification.
- Individuals recommended for decertification, who have been relieved from an assignment, shall not be reassigned to any other incident until approval by the Peer Review Committee.

Recertification

The evaluation of an individual's competency is key to recertification where qualifications have expired or been decertified. If currency has lapsed or decertification has taken place, the individual shall: revert to the trainee level, be issued a PTB for the position, complete on-the-job training if needed, and requalify in a position performance assignment. By returning to the trainee level, the person recertifying is introduced to new technology that will assist with recalling position duties and responsibilities.

Physical Fitness

Personnel must meet established physical health and fitness demands for the specific ICS position to which they are assigned. Criteria are established by individual Departments/Agencies. Once an individual meets the criteria for the specific position, it is deemed that the individual meets the health and fitness levels as outlined by CICCS.

1. All agencies participating in CICCS should utilize the IAFF/IAFC Wellness Fitness Initiative as a model for their organization.
2. The Fire Chief has the authority and responsibility to determine and approve that individuals are qualified meet the physical fitness requirements outlined in CICCS.

In addition, the IAFF/IAFC Wellness Fitness Initiative is updated every few years by a joint IAFC and IAFF committee. This is essential because it keeps the document current with industry, NFPA, and medical standards.

To ensure individual safety, CICCIS recommends that all Departments/Agencies consider the following health and fitness components:

- Baseline medical evaluations
- Comprehensive wellness and fitness program
- Evaluation to determine that an individual can meet the physical demands of the position for which they are being qualified

CICCIS identifies four (4) levels of health and fitness required for position qualification. The health and fitness levels are defined as outlined below:

Arduous

Duties involve fieldwork requiring physical performance calling for above-average endurance and superior conditioning. These duties may include an occasional demand for extraordinarily strenuous activities in emergencies under adverse environmental conditions and over extended periods of time. Requirements include running, walking, climbing, jumping, twisting, bending, and lifting more than 50 pounds; the pace of work typically is set by the incident.

Moderate

Duties involve fieldwork requiring complete control of all physical faculties and may include considerable walking over irregular ground, standing for long periods of time, lifting 25 to 50 pounds, climbing, bending, stooping, squatting, twisting, and reaching. Occasional demands may be required for moderately strenuous activities in emergencies over long periods. Individuals usually set their own work pace.

Light

Duties mainly involve office-type work with occasional field activity characterized by light physical exertion requiring basic good health. Activities may include climbing stairs, standing, operating a vehicle, and long hours of work, as well as some bending, stooping, or light lifting. Individuals can usually govern the extent and pace of their physical activity.

None Required

Positions that do not require a physical fitness level.

Incident Complexity

‘Incident Complexity’ is a characterization, used by incident management personnel, to describe the level of difficulty, severity, or overall resistance while trying to manage an incident to a

successful conclusion or to manage one type of incident compared to another type. Determining ‘Incident Complexity’ is a subjective process based on examining a combination of indicators or factors. These may include: the area (location) involved; threat to life, environment, and property; political sensitivity; organizational complexity; jurisdictional boundaries; values at risk; and weather. Most indicators are common, but some may be unique to a particular type of incident.

Refer to the following link for a complete listing of ‘Complexity Indicators’.

CICCS Policy

Review Committees

Committee Makeup / Members

Peer Review Committees are established to represent a cross section of the Departments/Agencies that make up the geographical boundaries of the Operational Area (OA) or Region. Each Peer Review Committee is only required to have representatives from the categories listed below if that category has a sponsoring/participating Department/Agency within the boundaries of the Operational Area or Region. If an Operational Area has fewer than 3 Departments/Agencies, it will be combined with another Operational Area to increase the number of Departments/Agencies to 3 or more.

Below is a list of the membership categories that will make up a Peer Review Committee:

City Fire Department

(Municipal function of a city or town)

➤ Metro Fire Department

(Department with more than 350 personnel)

➤ Fire Protection District

(Political subdivision that has its own governing body separate from a town or city)

- CAL FIRE
- Cal OES
- Contract County (Los Angeles, Orange, Ventura, Kern, Santa Barbara, Marin)
- Federal Wildland Fire Agency
- Federal Military Fire Agency
- Tribal Fire Department
- Labor Organization
- Independent/Volunteer Fire Department
- Qualified ICS Training Specialist (from any sponsoring Department/Agency)
- Community College that offers ICS courses

Committee Formation

The Peer Review Committee formation process begins with the Operational Area or Regional Coordinator. The coordinator will initiate the following sequence of events to formulate the Peer Review Committees:

- Peer Review Committees will be established at the Operational Area, Region, and State level.
- The Operational Area or Regional Coordinator announces the opportunity to participate on the committee and accepts applications for committee membership from applicable Departments/Agencies from within the boundaries of the peer review area.
- The Operational Area or Regional Coordinator makes the initial appointments to the Peer Review Committee.
- The committee members elect a chairperson who shall be from a CICCS participating Department/Agency.

- The chairperson serves a two-year term or longer at the approval of the other members of the Peer Review Committee.
- Committee members serve a two-year term or longer at the approval of the other members of the Peer Review Committee.
- The committee shall select any new members from applications, received by the Operational Area or Regional Coordinator, as vacancies occur.
- An agency represented on the committee can only hold one position on the committee. *Example: Los Angeles County Fire Department, while it is a Contract County, a Metro Department, a Fire District, and a City Department, may only represent one of these committee categories.*
- The Cal OES CICCIS Task Force Manager will be notified of changes to Peer Review Committee chairs.
- Operational Areas (OA) have the option of moving a position to the Region for the review if they do not have the expertise to adequately review the applications.
- OA's that do not have adequate resources to develop a Peer Review Committee may partner with contiguous OAs to establish a more complete committee.

Committee Responsibilities

A primary responsibility of CICCIS is the delegated authority to Cal OES Operational Area and Region Peer Review Committees to oversee the certification process. Peer Review Committees need to adhere to the following guidelines and direction:

- Peer Review Committees exist to maintain the professional standards and integrity of the California Incident Command Certification System. It is their responsibility to ensure applicants for certification receive proper consideration and a thorough review of documented position performance.
- The Peer Review Committee members represent the area or agency and do not need to be qualified in all of the ICS positions (*although that is helpful*). Peer Review Committees

should consult qualified subject matter experts, in the positions being reviewed, if the expertise does not reside on the committee when reviewing applications for certification. In the case of US&R and HAZ MAT applications, a US&R or HAZ MAT subject matter expert must be consulted.

- Peer Review Committees will meet at least annually; however, it is recommended that additional meetings be scheduled to allow for timely review of applications and maintenance review work pertaining to the IROC.
- Any questions a Peer Review Committee might have regarding a process or procedure should be referred to the next higher-level committee or the CICC Task Force for assistance.
- Peer Review Committees, with the approval of the applicant's Chief/Administrator, may require that trainees be vetted through the peer review process prior to their qualification status being updated in IROC.
- Each Peer Review Committee shall submit their membership roster to the CICC Task Force by July 1st of each year.
- Annually, Peer Review Committees will submit a list of qualified personnel and trainees to the next higher Peer Review Committee.
- Operational Area and Region Peer Review Committees cannot be less restrictive than this Guide.
- Operational Area and Region Chiefs/Administrators can set direction for their review committees to ask for additional training, experience, or other requirements if the Chiefs/Administrators decide that it is in the best interest of their Operational Area or Region. In doing so, Peer Review Committees may create undesired constraints and barriers to advancement in the qualifications system.
- Any committee member that has an application to be reviewed must be excused during their application review process.

- To maintain the integrity of the system, Operational Area and Region Peer Review Committees should conduct an annual audit to validate who holds qualifications in IROC.
- It is recommended that each Operational Area establish a web page that includes frequently asked questions (FAQs), applications, and links to related sites.
It is strongly recommended that committee members remain open to receive communications and questions, from the Operational Area or Region on subjects pertinent to CICC process, throughout the year.

It is recommended that each sponsoring Department/Agency create their own internal review committee to review their responsibility positions, and all CICC applications sent to the external Peer Review Committees to ensure the applications are complete.

Committee Quorum

A simple majority (50% plus 1) of the committee membership shall be a quorum.

Peer Review Committee members, available via conference call, will be counted toward the quorum count.

Committee Position Review Responsibilities

There are four levels of CICC application review:

- The sponsoring Department/Agency
- The Operational Area
- The Region
- The State

The following lists are separated into the above outlined review committees. When a new position is identified, the CICC Task Force will determine which level of peer review will perform the CICC application review and certification.

The sponsoring Department/Agency will be responsible for the review and certification of the following:

- Agency Representative (AREP)
- Crew Boss (CRWB)
- Engine Boss (ENGB)
- Engine Operator (ENOP)
- Emergency Medical Technician (EMTB)
- Paramedic (EMTP)
- Firefighter Type 1 (FFT1)
- Firefighter Type 2 (FFT2)
- Incident Commander Type 4 (ICT4)
- Haz Mat Group Supervisor
- Haz Mat Assistant Safety Officer
- Haz Mat Entry Leader
- Haz Mat Technician
- Haz Mat Specialist

- Haz Mat Decontamination Leader

- Haz Mat Site Access Control Leader

- Haz Mat Refuge Area Manager

- Haz Mat SAFE Refuge Area Manager

- Haz Mat Technical Specialist Reference

- Haz Mat MASS Decontamination Group Specialist

- Haz Mat MASS Decontamination Unit Leader

- Haz Mat Decontamination Lane Manager

- Handler (Decontamination)

** Position qualification requirements are determined by the Sponsoring Department/Agency.*

The sponsoring Operational Area Peer Review Committees will be responsible for the review and certification of the following:

- Aircraft Base Radio Operator (ABRO)
- Aircraft Dispatcher (ACDP)
- Base/Camp Manager (BCMG)
- Claims Specialist (CLMS)
- Communications Unit Leader (COML)
- Compensation/Claims Unit Leader (COMP)
- Compensation for Injury Specialist (INJR)
- Cost Unit Leader (COST)
- Critical Incident Stress Leader (CISL)
- Critical Incident Stress Member (CISM)
- Critical Incident Stress Clinician (CICL)
- Critical Incident Stress Chaplain (CISC)
- Critical Incident Stress Canine (CISK)
- Damage Inspection Specialist (DINS)
- Damage Inspection Manager (DINM)
- Deck Coordinator (DECK)
- Demobilization Unit Leader (DMOB)
- Display Processor (DPRO)
- Division/Group Supervisor (DIVS)
- Documentation Unit Leader (DOCL)

- Equipment Manager (EQPM)
- Equipment Time Recorder (EQTR)
- Expanded Dispatch Recorder (EDRC)
- Expanded Dispatch Support Dispatcher (EDSD)
- Facilities Unit Leader (FACL)
- Felling Boss (FELB)
- Field Observer (FOBS)
- Finance Section Chief Type 3 (FSC3)
- Fire Line EMT (EMTF)
- Fire Line Paramedic (EMPF)
- Fire Effects Monitor (FEMO)
- Firing Boss (FIRB)
- Food Unit Leader (FDUL)
- Geographic Information System Specialist (GISS)
- Ground Support Unit Leader (GSUL)
- Heavy Equipment Boss (HEQB)
- Helicopter Crewmember (HECM)
- Helicopter Manager Single Resource (HMGB)
- Human Resource Specialist (HRSP)
- Incident Commander Type 3 (ICT3)
- Incident Commander Type 3 All-Hazard (ICA3)
- Incident Communications Manager (INCM)
- Incident Communications Technician (COMT)

- IST Division Supervisor
- IST Situation Unit Leader
- IST Documentation Unit Leader
- IST Field Observer
- IST Demobilization Unit Leader
- IST Resources Unit Leader
- IST Hazardous Materials Specialist
- IST Structures Specialist
- IST Technical Specialist
- IST Medical Officer
- IST Doctor of Veterinary Medicine
- Communications Unit Leader
- IST Supply Unit Leader
- IST POA/ Mobilization Center Manager
- IST Facilities Unit Leader
- IST Ground Support Unit Leader
- IST Security Manager and Protective Services Manager
- Logistics Section Chief Type 3 (LSC3)
- Medical Unit Leader (MEDL)
- Operations Section Chief Type 3 (OSC3)
- Ordering Manager (ORDM)
- Personnel Time Recorder (PTRC)
- Planning Section Chief Type 3 (PSC3)

- Procurement Unit Leader (PROC)
- Public Information Officer Type 3 (PIO3)
- Public Information Officer (PIOF)
- Radio Operator (RADO)
- Receiving and Distribution Manager (RCDM)
- Resources Unit Leader (RESL)
- Safety Officer Type 3 (SOF3)
- Safety Officer, Line (SOFR)
- Security Manager (SECM)
- Situation Unit Leader (SITL)
- Staging Area Manager (STAM)
- Status Check-in Recorder (SCKN)
- Strike Team Leader Crew (STCR)
- Strike Team Leader Engine (STEN)
- Strike Team Leader Heavy Equipment (STEQ)
- Supply Unit Leader (SPUL)
- Task Force Leader (TFLD)
- Task Force Leader Water Handling (TFWH)
- Time Unit Leader (TIME)
- Unmanned Aircraft Systems Manager (UASM)
- Unmanned Aircraft Systems Leader (UASL)
- Unmanned Aircraft Systems Pilot (UASP)

FEMA US&R Task Force Positions

- Task Force Leader
- Safety Officer
- Rescue Team Manager
- Equipment & Rigging Specialist
- Structures Specialist
- Rescue Squad Officer
- Rescue Specialist
- Water Rescue Specialist
- US&R Boat Operator
- Search Team Manager
- Canine Search Specialist
- Technical Search Specialist
- Planning Team Manager
- Technical Information Specialist
- Logistics Team Manager
- Logistics Specialist
- Medical Team Manager
- Medical Specialist

CA Regional Task Force Positions

- Task Force Leader
- Safety Officer
- Hazardous Materials Specialist
- Rescue Team Manager
- Rescue Squad Officer
- Heavy Equipment Specialist
- Rescue Specialist
- US&R Paramedic
- Search Team Manager
- Technical Search Manager
- Planning Team Manager

- Technical Information Specialist
- Logistics Specialist

Swiftwater/ Flood Positions

- Swiftwater/ Flood Search and Rescue Technician
- Swiftwater/ Flood Search and Rescue Boat Operator

The Cal OES Regional Area will be responsible for the review and certification of the following:

- Air Operations Branch Director (AOBD)
- Air Support Group Supervisor (ASGS)
- Air Tactical Group Supervisor (ATGS)
- Expanded Dispatch Coordinator (CORD)
- Finance/Administration Chief Type 2 (FSC2)
- Helibase Manager (HEBM)
- Helicopter Coordinator (HLCO)
- Incident Commander Type 2 (ICT2)
- IST Leader
- IST Safety Officer
- IST Liaison
- IST PIO
- IST Operations
- IST Air Operations
- IST Plans
- IST Logistics
- Liaison Officer (LOFR)

- Logistics Chief Type 2 (LSC2)
- Operations Branch Director (OPBD)
- Operations Section Chief Type 2 (OSC2)
- Planning Section Chief Type 2 (PSC2)
- Public Information Officer Type 2 (PIO2)
- Safety Officer Type 2 (SOF2)
- Structure Protection Specialist (STPS)
- Training Specialist (TNSP)

The SFT and PACE V Committee will be responsible for the review and certification of the following:

- Area Commander (ACDR)
- Area Command Aviation Coordinator (ACAC)
- Area Command Logistics Chief (ACLC)
- Area Command Planning Chief (ACPC)
- Finance/Admin Section Chief Type 1 (FSC1)
- Fire Behavior Analyst (FBAN)
- Incident Commander Type 1 (ICT1)
- Logistics Section Chief Type 1 (LSC1)
- Long Term Fire Analyst (LTAN)
- Operations Section Chief Type 1 (OSC1)
- Planning Section Chief Type 1 (PSC1)
- Public Information Officer Type 1 (PIO1)
- Safety Officer Type 1 (SOF1)

➤ Strategic Operational Planner (SOPL)

All of the requirements of the positions listed above can be found in the 'Positions Qualifications' portion of this guide. Each sponsoring Department/Agency is responsible for establishing position requirements guided by the sponsoring Department/Agency directives or interagency guides.

In many cases personnel with unique skills are needed to support incident operations. Many technical specialists are certified in their field or profession and may be utilized within any functional area of the incident organization. The qualifications of technical specialists can be evaluated by checking licenses, evaluating previous training, work experience, and observing on-the-job performance. The evaluation and use of these technical specialists is outside the scope of this document.

Also note there are Incident Command Positions not addressed in the CICCS Qualification Guide because there is little demand for the qualification by local government, or the position is specific to a single agency.

Application Submittal Process

The CICCS process begins with the application, which can be viewed or downloaded at: <http://www.firescope.org/specialist-groups/ciccs/ciccs.htm>. The application is required to be typed.

A sample of a properly filled out CICCS application is provided in Appendix E.

In addition to the completed CICCS application, the following information is also required:

➤ A complete copy of the PTB

A copy of a properly filled out PTB can be found in Appendix C.

➤ ICS 225 Forms

The incident, where the qualification was recommended by the trainer, is required to have a performance evaluation submitted. The name of the trainer and evaluator must be legibly written.

A sample of a properly completed ICS Form 225 can be found in Appendix D.

Application Peer Review Process

The CICCIS Peer Review Committee will receive applications from the member Departments/Agencies. During the Peer Review Committee meetings, the following procedures will be followed/accomplished, where applicable:

- The committee will review CICCIS applications for certification, and trainee packages.
- The committee will determine if the applicant meets the CICCIS standards for certification or trainee status.
- The chairperson will notify the applicant and or their Chief/Administrator or Designee of the results of the peer review.
- The committee will award a CICCIS certificate upon successful committee evaluation and approval and, in the case of a trainee, will recommend their entry into IROC.

Note: PACE V certificates are issued by the State Fire Marshal.

- The committee will use Subject Matter Experts during the review process to ensure the Peer Review Committee has the level of expertise necessary to review positions.

Certificates

Departments/Agencies are responsible for issuing certificates for the positions they are responsible for as outlined earlier in this Guide. Departments/Agencies will be required to issue certificates for these positions so they can be included in CICCIS applications for higher-level positions.

Once a CICCIS application has been approved by any of the review committees, that committee will issue a CICCIS certificate. It will include the ICS position, signature of the chairperson of the review committee, and will be issued through the authority of the SFM. Completed/signed certificates will be sent to the sponsoring Department/Agency for distribution to the certified individual.

Note: Peer Review Committees can obtain blank certificates from their respective Cal OES Region Assistant Chief.

Appeals Process

When a CICCIS application is denied, an appeals process has been established. The applicant must appeal the denial, in writing, to the CICCIS Task Force c/o Cal OES Fire and Rescue Division, CICCIS Deputy Chief, 3650 Schriever Avenue, Mather, CA, 95655, within 30 days of receiving the denial notification. The CICCIS Task Force will have 30 days to respond, in writing, after the receipt of the appeal. The decision of the CICCIS Task Force shall be final.

Record Keeping

The CICCIS chairperson shall keep a file of all information pertaining to the procedures of the Peer Review Committees including:

- Electronic messages or notes
- Hard copy notes, letters and other correspondence
- Minutes of each meeting
- Original signed applications
- IROC inputs and reviewed documentation
- Incident Qualifications System reviewed documentation

Each committee must establish procedures for the safe storage of the CICCIS records and for the transfer of files to new chairpersons.

CICCIS records are considered training records and must be retained for the duration of employment of the member. The home agency is ultimately responsible for maintaining the training files for its employees.

Incident Qualifications System (IQS) & Incident Resource Ordering Capacity (IROC)

Incident Qualification System (IQS) is a software program that allows the home agency to manage qualifications, experience, task books, and fitness levels for personnel. The IQS is the CICCIS recommended system for maintaining certification records.

IQS directly interfaces with Interagency Resource Ordering Capability (IROC) to maintain certification records.

CICCS & IROC

A review of personnel qualifications in IROC should be performed annually by each CICCS Peer Review Committee to ensure accuracy. This must be coordinated with the Cal OES Fire and Rescue Operational Area and Region Coordinators and sponsoring Department/Agency IQS coordinators.

Qualification Cards

Agencies are required to have Qualification Cards, or other proof of qualifications, at all times when responding outside of their home jurisdiction. An example of a qualification card can be found in Appendix F, or at the below listed websites:

FIREScope

<http://www.firescope.org/specialist-groups/ciccs/ciccs.htm>

Cal OES Fire and Rescue Operations <http://www.caloes.ca.gov/cal-oes-divisions/fire-rescue/fire-operations>

Additionally, an example is in the Incident Qualifications Program (IQS).

The Chief/Administrator shall ensure that certification/qualification records are maintained and shall issue a qualification card annually to each currently qualified individual. The card shall contain, at a minimum:

- Individual's name
- Sponsoring Department/Agency
- Expiration date
- Qualified positions
- Trainee positions
- Physical fitness level
- Signature of qualifying official

Qualification cards must be available, for both qualified and trainee positions, whenever an individual is assigned to an incident.

Historical Recognition

Historical Recognition is the process of providing the opportunity, for individuals that possess extensive experience, to become certified for a newly created position. For experience to be considered, it must have been obtained prior to the announcement of the new position.

Once a position has been created/identified there will be a one-year timeframe to submit CICCIS applications for consideration. The timeframe begins the date of the letter from the CICCIS Taskforce announcing the new position. All CICCIS applications must be received by the review committees prior to the one-year anniversary date of the CICCIS new position announcement letter.

Because of the nature of the Historical Recognition process, PTBs or Performance Evaluations are not considered part of the submission application. Other forms of documentation will be necessary and may include: IAP components (203's and 204's), 214's, compensation documentation, and/or letters from superiors that have supervised or can validate necessary experience.

Note

There are Incident Command Positions not addressed in the CICCIS Qualification Guide because there is little demand for the qualification by local government, or the position is specific to a single agency.

For positions not otherwise identified in this guide, please refer to CAL FIRE 4039 and/or NWCG Standards for Wildland Fire Positions PMS 310-1.

Qualifications for Command Positions

Area Commander [ACDR]

REQUIRED TRAINING

Area Command (S-620)

REQUIRED EXPERIENCE

Qualified as an Assistant Area Commander Planning (ACPC) +
Successful position performance as an Area Commander (ACDR)

OR

Qualified as an Assistant Area Commander Logistics (ACLCLC) +
Successful position performance as an Area Commander (ACDR)

OR

Qualified as an Incident Commander Type 1 (ICT1) +
Successful position performance as an Area Commander (ACDR)

REQUIRED RECURRENT TRAINING

Annual Fireline Safety Refresher Training (RT-130)

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

Assistant Area Commander Planning (ACPC)
Assistant Area Commander Logistics (ACLCLC)
Incident Commander Type 1 (ICT1)

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

N/A

Incident Commander Type 1 [ICT1]

REQUIRED TRAINING

Advanced Incident Management (S-520)

OR

Complex Incident Management Course (CIMC)

OR

Advanced All-Hazard Incident Management Training (AAIM)

REQUIRED EXPERIENCE

Qualified as an Incident Commander Type 2 (ICT2) +

Successful position performance as an Incident Commander Type 1 (ICT1)

REQUIRED RECURRENT TRAINING

Annual Fireline Safety Refresher Training (RT-130)

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

Assistant Area Commander Logistics (ACLCLC)

Assistant Area Commander Planning (ACPC)

Finance/Administration Section Chief Type 1 (FSC1)

Incident Commander Type 2 (ICT2)

Logistics Section Chief Type 1 (LSC1)

Operations Section Chief Type 1 (OSC1)

Planning Section Chief Type 1 (PSC1)

Any higher position for which this position is a prerequisite

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Leadership is Action L-580

Incident Commander Type 2 [ICT2]

REQUIRED TRAINING

Incident Commander (G/E/L-950)

REQUIRED EXPERIENCE

Qualified as an Operations Section Chief Type 2 (OSC2)

OR

Qualified as a Planning Section Chief Type 2 (PSC2)

OR

Qualified as a Logistics Section Chief Type 2 (LSC2)

OR

Qualified as a Finance/Administration Section Chief Type 2 (FSC2) +

Successful position performance as an Incident Commander Type 2 (ICT2)

REQUIRED RECURRENT TRAINING

Annual Fireline Safety Refresher Training (RT-130)

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

Finance/Administration Section Chief Type 2 (FSC2)

Incident Commander Type 3 (ICT3)

Logistics Section Chief Type 2 (LSC2)

Operations Section Chief Type 2 (OSC2)

Planning Section Chief Type 2 (PSC2)

Any higher position for which this position is a prerequisite

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Organizational Leadership in the Wildland Fire Service (L-480)

All-Hazards Incident Commander Type 3 [ICA3]

REQUIRED TRAINING

Advanced ICS (I-400)

Extended Attack Incident Commander (S-300)

Incident Commander (G/E/L-950)

All-Hazard Incident Management Training (O-305) **OR**
Command and General Staff (S-420)

REQUIRED EXPERIENCE

Qualified as an Operations Section Chief Type 3 (OSC3)

OR

Qualified as a Planning Section Chief Type 3 (PSC3)

OR

Qualified as a Logistics Section Chief Type 3 (LSC3)

OR

Qualified as a Finance/Administration Section Chief Type 3 (FSC3) +

Successful position performance as an Incident Commander Type 3 (ICT3)

REQUIRED RECURRENT TRAINING

Annual Fireline Safety Refresher Training (RT-130)

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

Incident Commander (Type 1 & Type 2)

Any Command and General Staff Position (Type 3)

Any higher position for which this position is a prerequisite

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Incident Commander Type 3 [ICT3]

REQUIRED TRAINING

Advanced ICS (I-400)

Extended Attack Incident Commander (S-300)

Introduction to Wildland Fire Behavior Calculations (S-390)

REQUIRED EXPERIENCE

Qualified as an Incident Commander Type 4 (ICT4)

+

Task Force Leader (TFLD)

OR

Qualified as an Incident Commander Type 4 (ICT4)

+

Qualified as a STCR or STEQ or STEN

+

Qualified as two single resource bosses (one must be CRWB or ENGB)

+

Successful position performance as an Incident Commander Type 3 (ICT3)

REQUIRED RECURRENT TRAINING

Annual Fireline Safety Refresher Training (RT-130)

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

Incident Commander (Type 1 & Type 2)

Any Command and General Staff Position (Type 3)

Any higher position for which this position is a prerequisite

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

None

INCIDENT COMMANDER TYPE 4 (ICT4)

REQUIRED TRAINING

Initial Attack Incident Commander (S-200)

REQUIRED EXPERIENCE

Qualified in any Single Resource Boss position (CRWB, HEQB, ENGB, HMGB)

+

Successful position performance as an Incident Commander Type 4 (ICT4)

REQUIRED RECURRENT TRAINING

Annual Fireline Safety Refresher Training (RT-130)

PHYSICAL FITNESS LEVEL

Arduous

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN

Firing Operations (S-219)

Fire Operations in the Wildland/Urban Interface (S-215)

Safety Officer Type 1 [SOF1]

REQUIRED TRAINING

Advanced Incident Management (S-520)

OR

Complex Incident Management Course (CIMC)

OR

Advanced All-Hazards Incident Management Training (AAIM)

REQUIRED EXPERIENCE

Qualified as a Safety Officer Type 2 (SOF2)

+

Successful position performance as a Safety Officer Type 1 (SOF1)

REQUIRED RECURRENT TRAINING

Annual Fireline Safety Refresher Training (RT-130)

PHYSICAL FITNESS LEVEL

Moderate

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

Operations Section Chief Type 1 (OSC1)

Operations Section Chief Type 2 (OSC2)

Safety Officer (Any Type)

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Organizational Leadership in the Wildland Fire Service (L-480)

Safety Officer Type 2 [SOF2]

REQUIRED TRAINING

Advanced ICS (I-400)
Command and General Staff (S-420)

REQUIRED EXPERIENCE

Qualified as a Division/Group Supervisor (DIVS) +
Qualified as a Line Safety Officer (SOFR)
+
Successful position performance as a Safety Officer Type 2 (SOF2)

OR

Qualified as a Division/Group Supervisor (DIVS) +
Safety Officer Type 3 (SOF3)
+
Successful position performance as a Safety Officer Type 2 (SOF2)

REQUIRED RECURRENT TRAINING

Annual Fireline Safety Refresher Training (RT-130)

PHYSICAL FITNESS LEVEL

Moderate

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

Division/Group Supervisor (DIVS)
Safety Officer, Line (SOFR)
Safety Officer Type 3 (SOF3)
Structure Protection Specialist (STPS)
Any higher position for which this position is a prerequisite

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Incident Leadership (L-381)

All-Hazards Safety Officer Type 3 [SOF3]**

REQUIRED TRAINING*

Intermediate ICS (I-300)
All-Hazard Incident Management Training (O-305)

OR

Command and General Staff (S-420)
Safety Officer (S-404)

OR

All-Hazards Safety Officer (G/E/L-954)

Division/Group Supervisor [DIVS]

REQUIRED TRAINING

Intermediate ICS (I-300)
Introduction to Wildland Fire Behavior Calculations (S-390)
Division/Group Supervisor (S-339) **OR**
All-Hazards Division Group Supervisor (G/E/L-960)

Additional Required Training if using Option 3*

Intermediate ICS (I-300)
Firing Operations CA-219
Basic Air Operations (S-270)
Intermediate Fire Behavior (S-290)**
Strike Team Leader (AH-330)

REQUIRED EXPERIENCE

Qualified as a Strike Team/Task Force Leader (Any Type) +
Successful position performance as a Division/Group Supervisor (DIVS)

OR

Qualified as an Incident Commander Type 3 (ICT3) +
Successful position performance as a Division/Group Supervisor (DIVS)

OR

* Option 3: Qualified as an Incident Commander Type 4 (ICT4) +
Five (5) years qualified as any Single Resource Boss, and assigned to fire suppression operations +
Successful performance as a Division/Group Supervisor (DIVS)

REQUIRED RECURRENT TRAINING

Annual Fireline Safety Refresher Training (RT-130)

PHYSICAL FITNESS LEVEL

Arduous

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

Incident Commander Type 3 (ICT3)
Strike Team/Task Force Leader (Any Type)
Structure Protection Specialist (STPS)
Any higher position for which this position is a prerequisite

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Incident Leadership (L-381)

*** The online S-290 course does not meet the requirement for this position. Only the full NWCG **OR** SFT classroom version is acceptable.*

Task Force Leader [TFLD]

REQUIRED TRAINING

Intermediate ICS (I-300)
National Response Framework an Introduction (IS-800.b)
Intermediate ICS (I-300)
Firing Operations (CA-219)
Basic Air Operations (S-270)
Intermediate Fire Behavior (S-290)*
FIRESCOPE All-Hazard Task Force/Strike Team Leader (AH-330)

REQUIRED EXPERIENCE

Qualified as any Strike Team Leader (STCR, STEQ, STEN) +
Successful position performance as a Task Force Leader (TFLD)

OR

Qualified in any two Single Resource Boss positions (one must be CRWB **OR** ENGB) +
Qualified as an Incident Commander Type 4 (ICT4) +
Successful position performance as a Task Force Leader (TFLD)

REQUIRED RECURRENT TRAINING

Annual Fireline Safety Refresher Training (RT-130)

PHYSICAL FITNESS LEVEL

Arduous

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

Division Group Supervisor (DIVS)
Incident Commander Type 4 (ICT4)
Any Strike Team Leader (STCR, STEQ, STEN)
Structure Protection Specialist (STPS)
Any higher position for which this position is a prerequisite

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Fireline Leadership (L-380)

** The online NWCG S-290 course does not meet the requirement for this position.
Only the full NWCG **OR** SFT classroom version is acceptable.*

Note: The Task Force Leader (TFLD) and Strike Team Leader (STCR, STEQ, STEN) PTBs are combined. However, the positions are not combined. Strike Team Leader tasks are

completed only once. The Required Experience for TFLD must be met prior to completing additional TFLD tasks.

Task Force Leader Water Handling [TFWH] **

REQUIRED TRAINING

Intermediate ICS (I-300)
Intermediate ICS (I-300)
Firing Operations (CA-219)
Basic Air Operations (S-270)
Intermediate Wildland Fire Behavior (S-290)*
FIRESCOPE All-Risk Task Force/Strike Team Leader (AH-330)

REQUIRED EXPERIENCE

Qualified as an Engine Boss, Single Resource (ENGB) +
Successful position performance as a Strike Team Leader Engine (STEN)

REQUIRED RECURRENT TRAINING

Annual Fireline Safety Refresher Training (RT-130)

FITNESS LEVEL

Arduous

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

Strike Team Leader (Any Type)

Qualifications IST Operations Positions

IST Operations Section Chief

REQUIRED TRAINING

Intermediate Incident Command System (ICS-300)
Advanced Incident Command System (ICS-400)
Course work compliant to the NFPA 1006 Structural Collapse Technician level
FEMA IST Course *
All-Hazards Operations Section Chief (L-958) or CA Operations Section Chief (CA- 430)
S-420 Command and General Staff Course**

REQUIRED EXPERIENCE

The IST Operations Section Chief shall have the following minimum experience:
Five years of experience in the FEMA US&R system serving in positions of significance (e.g., Program manager, TFR, deployed TFL, etc.) and
Three deployments (to include actual task force deployments and deployment exercises) as either a Division Supervisor or Task Force Leader, *or*
Three deployments as an Operations Section Chief on a Type III IMT or greater.

Required Recurrent Training

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING

All-Hazards Division Group Supervisor (L-960) or NWCG Division Group Supervisor (S- 339)

*May be selected to position without but to be deployable individuals must complete the FEMA IST training course.

** May be selected to the position without but must complete within two years of assignment to an IST.

IST Aviation Branch Director

REQUIRED TRAINING

Intermediate Incident Command System ICS-300)
National US&R Response System GPS Operations Level Course
Air Operations Safety for US&R Personnel Course
FEMA IST Course *
All-Hazards Air Operations Branch Director Course (G/E/L-986) or
NWCG Air Operations Director (S-470)
S-420 Command and General Staff Course**

REQUIRED EXPERIENCE

Satisfactory performance as a Helibase Manager,
or
Successful position performance in a related air support coordination role such as military
experience.

Required Recurrent Training

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Transportation of Hazardous Materials (NWCG A-110) or the IATA Course
Basic Air Operations Course (NWCG S-270)
Helicopter Manager Course (NWCG S-372)

IST Division Supervisor

REQUIRED TRAINING

Intermediate Incident Command System (ICS-300)
Course work compliant to the NFPA 1006 Structural Collapse Technician level
FEMA US&R Structural Collapse Technician
FEMA IST Course *
All-Hazards Division Supervisor (L-960) or CA Division Supervisor (CA- 339)
S-420 Command and General Staff Course**

Required Experience

The IST Division Supervisor shall have the following minimum experience
Five years of experience in the FEMA US&R system and
Three deployments (to include actual task force deployments and deployment exercises) as
either a Task Force Leader, Rescue Team Manager, Search Team Manager *or*
Three deployments as a Division Supervisor on a Type III IMT or greater.

REQUIRED RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

None

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

*May be selected to position without but to be deployable individuals must complete the FEMA IST training course.

** May be selected to the position without but must complete within two years of assignment to an IST.

Qualifications for IST Planning Positions

IST Planning Section Chief

REQUIRED TRAINING

Intermediate Incident Command System (ICS-300)
Advanced Incident Command System (ICS-400)
FEMA Planning Team Course
All-Hazards Planning Section Chief (L-962) or NWCG Logistics Section Chief Course (S- 440)
FEMA IST Course *
S-420 Command and General Staff Course**

Required Experience

The IST Planning Section Chief shall have the following minimum experience:

Five years of experience in the FEMA US&R system,

and

Three deployments (to include actual task force deployments and deployment exercises) as either a Planning Team Manager,

or

Three deployments as a Planning Section Chief on a Type III IMT or greater.

REQUIRED RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

All-Hazards Resources Unit Leader (L-965) or NWCG Resources Unit Leader Course (S- 348)

Intermediate Incident Command System ICS-300)

NWCG Resource Unit Leader/Demobilization Unit Leader Pre-Course Work (S-349)

*May be selected to position without but to be deployable individuals must complete the FEMA IST training course.

IST Structural Specialist

REQUIRED TRAINING

FEMA/USACE Structural Specialist Course (StS1)
FEMA/USACE Structural Specialist Course (StS2)
FEMA Structural Collapse Technician Course
FEMA IST Course *

REQUIRED EXPERIENCE

Currently licensed as a Professional Engineer specializing in structures or equivalent as sanctioned by the FEMA US&R Technical Sub-Committee and,

Five years' experience in structure design and analysis to include evaluation of existing structures, field investigation or construction observation.

RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Intermediate ICS (ICS-300)
FEMA US&R Heavy Equipment and Rigging Course

*May be selected to position without but to be deployable individuals must complete the FEMA IST training course.

IST US&R Technical Specialist

REQUIRED TRAINING

Intermediate Incident Command System (ICS-300)
Advanced Incident Command System (ICS-400)
FEMA Logistics Specialist Course
FEMA IST Course *

REQUIRED EXPERIENCE

The IST US&R Technical Specialist shall have the following minimum experience:
Three deployments (to include actual task force deployments and deployment exercises) as a functional unit team manager (Plans, Rescue, Search, Logistics Medical) and/or,
Task Force Leader

REQUIRED RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

NWCG Command and General Staff (S-420) **
All-Hazards Liaison Officer (I-956) or NWCG Liaison Officer PTB Completion
ESF #9 Supervisor Course

*May be selected to position without but to be deployable individuals must complete the FEMA IST training course.

** May be selected to the position without but must complete within two years of assignment to an IST.

IST Documentation Unit Leader

REQUIRED TRAINING

FEMA Planning Team Course

FEMA IST Course *

All-Hazards Resource Unit Leader Course (L-965) or All-Hazards Situation Unit Leader (S-346)

NWCG Documentation Unit Leader Task Book

REQUIRED EXPERIENCE

None Required

REQUIRED RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

None

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Intermediate Incident Command System (ICS-300)

NWCG Job Aid J-342 Documentation Unit Leader

*May be selected to position without but to be deployable individuals must complete the FEMA IST training course.

** May be selected to the position without but must complete within two years of assignment to an IST.

IST Hazardous Materials Technical Specialist

REQUIRED TRAINING

Intermediate ICS (ICS-300)

FEMA Hazardous Materials Specialist Course

FEMA IST Course *

Training to meet and maintain certification as a Hazardous Materials Technician (OSHA Standard 29 CFR 1910.120 Hazardous Waste Operations and Emergency Response)

Training to meet and maintain AHJ competencies in accordance with NFPA 472 (Standard for Professional Competence of Responders to Hazardous Materials Incidents to level of Hazardous Materials Technician)

Continuing education in CBRNE and Hazardous Materials Response to maintain currency.

REQUIRED EXPERIENCE

Five years' experience as a member of a task force hazardous materials team, and

Three deployments (to include actual task force deployments and deployment exercises) as a Hazardous Materials Manager.

Technician/Specialist knowledge in the specialized field of CBRNE and hazardous materials with experience documented by agency and approved by FEMA US&R program staff.

REQUIRED RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

FEMA US&R Task Force Safety Officer Course

*May be selected to position without but to be deployable individuals must complete the FEMA IST training course.

** May be selected to the position without but must complete within two years of assignment to an IST.

Qualifications for IST Logistics Positions

IST Logistics Section Chief

REQUIRED TRAINING

Intermediate Incident Command System (ICS-300)

Advanced Incident Command System (ICS-400)

FEMA Logistics Specialist Course

All-Hazards Logistics Section Chief (L-967)

or

NWCG Logistics Section Chief Course (S- 450)

FEMA IST Course *

S-420 Command and General Staff Course**

REQUIRED EXPERIENCE

Five years of experience as a member of a task force logistics team,
and

Three deployments (to include actual task force deployments and deployment exercises) as either
a Logistics Team Manager,

or

Three deployments as a Logistics Section Chief on a Type III IMT or greater.

REQUIRED RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

NWCG Ground Support Unit Leader Course (S-355)

All-Hazards Facilities Unit Leader (L-971)

or

NWCG Facilities Unit Leader Course (S- 354)

All-Hazards Supply Unit Leader (L-970)

or

NWCG Supply Unit Leader Course (S-356)

*May be selected to position without but to be deployable individuals must complete the FEMA IST training course.

** May be selected to the position without but must complete within two years of assignment to an IST.

IST Medical Officer

REQUIRED TRAINING

FEMA US&R Medical Specialist Course
FEMA IST Course *

REQUIRED EXPERIENCE

Be a licensed physician who is emergency medicine-trained and/or Board Certified in emergency medicine and actively practicing clinical emergency medicine and having experience with pre-hospital medical care or

Be a currently licensed physician with current ACLS, ATLS and PALS certification (or equivalent) whose medical activities include clinical medicine and or pre-hospital care
Three US&R deployments on missions that entail actual operations (exclusive of deployment exercises)

REQUIRED RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

None

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

All-Hazards IMT Training (USFA O305)
Intermediate Incident Command System ICS-300)

*May be selected to position without but to be deployable individuals must complete the FEMA IST training course.

.

IST Medical Unit Leader

REQUIRED TRAINING

Intermediate Incident Command System (ICS-300)
FEMA IST Course *
NWCG Medical Unit Leader (S-359)

REQUIRED TRAINING

Five years' experience as a member of a task force medical team,
and

Three deployments (to include actual task force deployments and deployment exercises) as a member of the Medical Team (Medical Specialist or Medical Team Manager).

REQUIRED RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

*May be selected to position without but to be deployable individuals must complete the FEMA IST training course.

IST Doctor of Veterinary Medicine

REQUIRED TRAINING

FEMA IST Course *

REQUIRED EXPERIENCE

The Doctor of Veterinary Medicine shall have the following minimum experience:

- Be a licensed veterinarian,
- Experience with canine emergency care

REQUIRED RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

None

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

All-Hazards IMT Training (USFA O305)

Intermediate Incident Command System ICS-300)

Animal Rescue Training

*May be selected to position without but to be deployable individuals must complete the FEMA IST training course.

.

IST Communications Unit Leader

REQUIRED TRAINING

FEMA US&R Communications Specialist Course
FEMA IST Course *
All-Hazards Communications Leader Course (L-969) or NWCG Communications Unit Leader (S-358)

REQUIRED EXPERIENCE

The IST Communications Unit Leader shall have the following minimum experience:

Three deployments (to include actual task force deployments and deployments (exercises) as a Communications Specialist.

REQUIRED RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Intermediate Incident Command System (ICS-300)

*May be selected to position without but to be deployable individuals must complete the FEMA IST training course.

IST SUPPLY Unit Leader

REQUIRED TRAINING

FEMA Logistics Specialist Course

FEMA IST Course *

All-Hazards Supply Unit Leader (L-970) or NWCG Supply Unit Leader (S-356)

REQUIRED EXPERIENCE

Five years' experience as a member of a task force logistics team, and

Three deployments (to include actual task force deployments and deployment exercises) as a Logistics Team Manager.

REQUIRED RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Intermediate Incident Command System (ICS-300)

All-Hazards Logistics Section Chief (L-967) or NWCG Logistics Section Chief (S-450)

*May be selected to position without but to be deployable individuals must complete the FEMA IST training course.

** May be selected to the position without but must complete within two years of assignment to an IST.

IST Facilities Unit Leader

REQUIRED TRAINING

FEMA Logistics Specialist Course

FEMA IST Course *

All-Hazards Facilities Leader Course (L-971) or NWCG Facilities Unit Leader (S-354)

REQUIRED EXPERIENCE

Three deployments (to include actual task force deployments and deployment exercises) as a Logistics team Manager or Logistics Specialist or,

Three deployments as a Facilities Unit Leader on a Type III incident or greater.

REQUIRED RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Intermediate Incident Command System ICS-300)

*May be selected to position without but to be deployable individuals must complete the FEMA IST training course.

IST Ground Support Unit Leader

REQUIRED TRAINING

FEMA Logistics Specialist Course
FEMA IST Course *
NWCG Ground Support Unit Leader (S-355)

REQUIRED EXPERIENCE

Three deployments (to include actual task force deployments and deployment exercises) as a Logistics team Manager or Logistics Specialist or,

Three deployments as a Facilities Unit Leader on a Type III incident or greater.

REQUIRED RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Intermediate Incident Command System (ICS-300)

All-Hazards Logistics Section Chief (I-967) or NWCG Logistics Section Chief (S-450)

*May be selected to position without but to be deployable individuals must complete the FEMA IST training course.

**QUALIFICATIONS for
FEMA US&R Task Force Positions**

General Training Requirements

REQUIRED TRAINING

Complete a critical incident stress awareness training

ICS-100

ICS-200

ICS-700/ICS-800.B

FEMA National US&R Response System Orientation course (Course Code: 9G6100)

Complete initial training at the first responder operations level for hazardous materials (OSHA 29 CFR, 1910.120)

Respiratory protection training per OSHA 29 CFR 1910.134 (k)

Initial blood-borne pathogen training in accordance with OSHA 29 CFR 1910.1030

FEMA US&R Enhanced Operations in the Contaminated Environment - Instructor-Led Training (Course Code: 9G5420)

NFPA 1670 awareness level training for the following:

- a. Confined Space Search and Rescue
- b. Water Rescue
- c. Structural Collapse Search and Rescue

REQUIRED RECURRENT TRAINING

Annual refresher training as required for first responder operations level for hazardous materials (OSHA 29 CFR, 1910.120)

Maintain certification in cardiopulmonary resuscitation. Task force members currently licensed or certified as EMT (all levels) or licensed board-certified emergency physicians inherently meet this requirement

Refresher training as required for respiratory protection training per OSHA 29 CFR 1910.134 (k)

Qualifications for FEMA Task Force Command Positions

FEMA Task Force Leader

REQUIRED TRAINING

Advanced Incident Command System NIMS ICS-400

FEMA US&R Task Force Leader Course

REQUIRED EXPERIENCE

REQUIRED RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

FEMA Safety Officer REQUIRED TRAINING

General Requirements

Complete the National US&R Response System GPS Awareness Level Course

Complete ICS-300 in accordance with the National Standard Curriculum Training Development Guidance

Complete the National US&R Response System US&R Safety Officer Course

Meet requirements of NFPA 1006 (2008) Technical Rescuer Level 1 & 2

Chapter 5: Job Performance Requirements

Chapter 6: Rope Rescue (Levels 1 & 2)

Chapter 7: Confined Space Rescue (Levels 1 & 2)

Chapter 8: Trench Rescue (Levels 1 & 2)

Chapter 10: Vehicle and Machinery Rescue (Levels 1 & 2)

Complete the National US&R Response System Structural Collapse Technician course or FEMA/DHS approved equivalent

Current Certification in basic first aid for first responders or equivalent

REQUIRED EXPERIENCE

Satisfactory performance as a SFT FFT2

REQUIRED RECURRENT TRAINING

FEMA Annual Ethics Orientation (IS-33.XX)

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Advanced ICS (ICS-400)

Qualifications for FEMA Task Force Search Positions

FEMA Task Force Search Manager

REQUIRED TRAINING

General Requirements

US&R Response System Technical Search Specialist Course

US&R Response System Canine Search Specialist Course

REQUIRED EXPERIENCE

Experience in technical or canine search operations to include but not limited to participation in field exercises and SAR deployments or deployment exercises as determined by SA/AHJ.

RECURRENT TRAINING

FEMA Annual Ethics Orientation (IS-33.XX)

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Intermediate ICS (ICS-300)

FEMA Planning Team Course

US&R Response System GPS Operations Level Course

FEMA Structural Collapse Technician Course

Meet the requirements of NFPA 1670 Chapter 9 Section 9.3.5

FEMA Canine Search Specialist

REQUIRED TRAINING

- Complete General Requirements
- US&R Response System Canine Search Specialist Course
- US&R Response System GPS Awareness Course
- Complete Technical Rescue Skills Sets

Required Experience

Current certification as US&R Response System Canine Search Specialist Team member
SUSAR Type 1 or equivalent Certification

RECURRENT TRAINING

- Complete annual FEMA Ethics Training IS-33.xx

PHYSICAL FITNESS LEVEL

None

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

- US&R Response System Technical Search Specialist Course or equivalent
- US&R Response System GPS Operations Level Course or equivalent
- Canine emergency field care course

Technical Search Specialist

REQUIRED TRAINING

US&R Response System Technical Search Specialist Course

Technical rescue skills sets and additional required rope skills as identified in appendix D

REQUIRED EXPERIENCE

RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

US&R Response System Canine Search Specialist Course

US&R Response System Search Planning and Management Course

FEMA Structural Collapse Technician Course

Meet the requirements of NFPA 10006 Technical Rescuer Level 1 &2 (excluding Chapter 1 Section 1.3.3)

Chapter 5: Job Performance

Chapter 6: Rope Rescue (Levels 1&2)

Chapter 7: Confined Space Rescue (Levels 1 & 2)

Chapter 8: Trench Rescue (Levels 1 & 2)

Chapter 10: Vehicle and Machinery Rescues (Levels 1 & 2)

Chapter 11 Surface Water Rescue (Levels 1 & 2)

Qualifications for FEMA Task Force Rescue Positions

FEMA Rescue Team Manager

REQUIRED TRAINING

General Training

FEMA US&R Response System GPS Awareness Level or equivalent

FEMA Structural Collapse Technician Course

Meet the requirements of NFPA 10006 Technical Rescuer Level 1 &2 (excluding Chapter 1 Section 1.3.3)

Chapter 5: Job Performance

Chapter 6: Rope Rescue (Levels 1&2)

Chapter 7: Confined Space Rescue (Levels 1 & 2)

Chapter 8: Trench Rescue (Levels 1 & 2)

Chapter 10: Vehicle and Machinery Rescues (Levels 1 & 2)

REQUIRED EXPERIENCE

CA Emergency Medical Technician

Experience in structural collapse operations to include participation in field exercises and/or deployment as a Rescue Specialist

RECURRENT TRAINING

FEMA Annual Ethics Orientation (IS-33.XX)

Meets current Training Program Administration Manual

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Intermediate ICS (ICS-300)

Advanced ICS (ICS-400)
SFT Rescue Systems 3 or FEMA Structural Collapse Specialist
Heavy Equipment Rigging Specialist (HERS) Course
US&R Response System GPS Operations Level Course
FEMA or CA Task Force Leaders Course
FEMA Plans Team Manager Course

FEMA Rescue Squad Officer

REQUIRED TRAINING

General Requirements

FEMA GPS Awareness Level Course or equivalent

FEMA Structural Collapse Technician Course

Meet the requirements of NFPA 10006 Technical Rescuer Level 1 &2 (excluding Chapter 1 Section 1.3.3)

Chapter 5: Job Performance

Chapter 6: Rope Rescue (Levels 1&2)

Chapter 7: Confined Space Rescue (Levels 1 & 2)

Chapter 8: Trench Rescue (Levels 1 & 2)

Chapter 10: Vehicle and Machinery Rescues (Levels 1 & 2)

Basic First Aid for First Responder or equivalent

REQUIRED EXPERIENCE

CA FFT 2

Experience in structural collapse operations to include participation in field exercises and/or deployment as a Rescue Specialist

SFT: Trench Rescue Technician

SFT: Rope Rescue Technician
SFT: River and Flood Rescue
CalOES: Technical Search Specialist

FEMA Heavy Equipment and Rigging Specialist

REQUIRED TRAINING

Complete General Requirements

Complete the National US&R Response Heavy Equipment Specialist Course

REQUIRED EXPERIENCE

Experienced in the heavy construction field, such as, heavy equipment operator, crane operator, iron worked, rigger or another applicable field,

Or

A minimum of three years of experience as Rescue Specialist on a task force.

REQUIRED RECURRENT TRAINING

Complete Annual FEMA Ethics Orientation (IS-33.XX)

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

All technical rescue skill sets and rope rescue skills unless qualified as a rescue specialist.

National US&R Response System Structural Collapse Training Course.

Qualifications for FEMA Task Force HazMat Positions

FEMA Hazardous Materials Team Manager

REQUIRED TRAINING

Complete all General Training Requirements

Training to meet and maintain certification as a Hazardous Materials Technician (OSHA Standard 29 CFR 1910.120 Hazardous Waste Operations and Emergency Response)

Training to meet and maintain AHJ competencies in accordance with NFPA 472 (Standard for Professional Competence of Responders to Hazardous Materials Incidents to level of Hazardous Materials Technician)

National US&R Response WMD considerations for Hazardous Materials Specialist Course.

FEMA US&R GPS Awareness Course or Equivalent

Complete all technical rescue skill sets

REQUIRED EXPERIENCE

Satisfactory performance as a SFT FFT2

REQUIRED RECURRENT TRAINING

FEMA Annual Ethics Orientation (IS-33.XX)

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Intermediate ICS (ICS-300)

NIMS IS-703 Resource Management Course

Weapons of Mass Destruction Radiological/Nuclear for Hazardous Materials Course (PER-241)

US Department of Energy National Security Administration, Nevada Test Site.

FEMA US&R GPS Operations Level Course or Equivalent

FEMA Hazardous Materials Technical Specialist

REQUIRED TRAINING

Complete all General Training Requirements

Training to meet and maintain certification as a Hazardous Materials Technician (OSHA Standard 29 CFR 1910.120 Hazardous Waste Operations and Emergency Response)

Training to meet and maintain AHJ competencies in accordance with NFPA 472 (Standard for Professional Competence of Responders to Hazardous Materials Incidents to level of Hazardous Materials Technician)

National US&R Response WMD considerations for Hazardous Materials Specialist Course.

Complete all technical rescue skill sets

REQUIRED EXPERIENCE

REQUIRED RECURRENT TRAINING

Complete FEMA Ethics Training IS-33.XX

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Weapons of Mass Destruction Radiological/Nuclear for Hazardous Materials Course (PER-241)

US Department of Energy National Security Administration, Nevada Test Site.

WMD Hazardous Materials Technician Training (HT) Course (PER-261)

TF Water Purification training

Hazmat CONOP training

Qualifications for FEMA Task Force Medical Positions

FEMA Medical Team Manager

REQUIRED TRAINING

Complete General Requirements
FEMA US&R Medical Team Training Course

REQUIRED EXPERIENCE

Be a licensed physician who is emergency medicine-trained and/or Board Certified in emergency medicine and actively practicing clinical emergency medicine and having experience with pre-hospital medical care

or

Be a currently licensed physician with current ACLS, ATLS and PALS certification (or equivalent) whose medical activities include clinical medicine and or pre-hospital care
Three US&R deployments on missions that entail actual operations (exclusive of deployment exercises)

REQUIRED RECURRENT TRAINING

FEMA Ethics Orientation (IS-33.XX)
ACLS, ATLS and PALS

PHYSICAL FITNESS LEVEL

None Required

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

FEMA Task Force Leader Course
All-Hazards Planning Section Chief (G/E/L-962) or NWCG Planning Section Chief (S-440)
Wide Area Search Course
All-Hazards Situation Unit Leader (G/E/L 964)
All-Hazards Resource Unit Leader (G/E/L 965) *
Documentation Unit Leader (NWCG J-342)
*Resource Unit Leader Course fulfills training requirement for Demobilization Unit Leader

FEMA Structures Specialist

REQUIRED TRAINING

General Requirements

FEMA/USACE Structural Specialist Course (StS1)

US&R Response System GPS Awareness Level Course

Complete all technical rescue skill sets

REQUIRED EXPERIENCE

The IST Structural Specialist shall have the following minimum experience:

Currently licensed as a Professional Engineer specializing in structures or equivalent as sanctioned by the FEMA US&R Technical Sub-Committee and,

Five years' experience in structure design and analysis to include evaluation of existing structures, field investigation or construction observation.

Or

BS In Civil Engineering (or similar curriculum) from a college or university recognized by the state licensing body

And

Five years of experience in phase of Structural Engineering including the teaching of subjects pertaining to Structures, Structural Safety and Structural Collapse

Or

Licensed Architects by the state may be considered having equivalent certification qualifications.

RECURRENT TRAINING

FEMA/USACE Structures Specialist Training (StS-2) every 5 years

USACE Regional Training every two years

PHYSICAL FITNESS LEVEL

None Required

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

REQUIRED EXPERIENCE

Satisfactory performance as a SFT FF1

REQUIRED RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

Arduous

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Weapons of Mass Destruction Radiological/Nuclear for Hazardous Materials Course (PER-241)

US Department of Energy National Security Administration, Nevada Test Site.

WMD Hazardous Materials Technician Training (HT) Course (PER-261), Centers for Domestic Preparedness, Anniston, Alabama.

SFT Rescue Systems 2: Advanced Rescue Skills

SFT: Trench Rescue Technician

SFT: Rope Rescue Technician

California Regional Logistics Specialist

REQUIRED TRAINING

Complete General Requirements
US&R Response System GPS Awareness Level Course

REQUIRED EXPERIENCE

REQUIRED RECURRENT TRAINING

None

PHYSICAL FITNESS LEVEL

Arduous

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

SFT FF2
SFT Low Angle Rope Rescue Operational
SFT Rescue Systems 1: Basic Rescue Skills
SFT Confined Space Rescue Technician
SFT Rescue Systems 3: or Structural Collapse Specialist
SFT Trench Rescue Technician
SFT Rope Rescue Technician

California Regional Task Force Rescue Positions

California Regional Rescue Team Manager

REQUIRED TRAINING

Complete General Training

FEMA US&R Response System GPS Awareness Level or equivalent

SFT FF1

Meet the requirements of NFPA 10006 Technical Rescuer Level 1 &2 (excluding Chapter 1 Section 1.3.3)

Chapter 5: Job Performance

Chapter 10: Vehicle and Machinery Rescues (Levels 1 & 2)

SFT Low Angle Rope Rescue Operational

SFT Rescue Systems 1: Basic Rescue Skills

SFT Confined Space Rescue Technician

SFT Rescue Systems 2: Advanced Rescue Skills

SFT Confined Space Rescue Technician

SFT Trench Rescue Technician

CalOES: Technical Search Specialist

REQUIRED EXPERIENCE

Current Certification as a California Emergency Medical Technician

Experience in structural collapse operations to include participation in field exercises and/or deployment as a Rescue Specialist

RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

Arduous

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Advanced ICS (ICS-400)

CalOES or FEMA Technical Search Specialist Course

SFT Rescue Systems 3 or FEMA Structural Collapse Specialist

Heavy Equipment Rigging Specialist (HERS) Course
US&R Response System GPS Operations Level Course
FEMA or CA Task Force Leaders Course
FEMA Plans Team Manager Course
Basic Air Operations (S-270)
Rescue Boat Operations
SFT Personal watercraft Recue Operations
SFT: River and Flood Water Rescue

California Regional Rescue Squad Officer

REQUIRED TRAINING

General Requirements

FEMA GPS Awareness Level Course or equivalent

Meet the requirements of NFPA 10006 Technical Rescuer Level 1 &2 (excluding Chapter 1 Section 1.3.3)

Chapter 5: Job Performance

Chapter 10: Vehicle and Machinery Rescues (Levels 1 & 2)

SFT FFT 2 or equivalent

SFT Low Angle Rope Rescue Operational

SFT Rescue Systems 1: Basic Rescue Skills

SFT Confined Space Rescue Technician

SFT Rescue Systems 2: Advanced Rescue Skills

SFT Trench Rescue Technician

SFT Rope Rescue Technician

REQUIRED EXPERIENCE

Current Certification as a California Emergency Medical Technician

Experience in structural collapse operations to include participation in field exercises and/or deployment as a Rescue Specialist

RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

Arduous

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

Intermediate ICS (ICS-300)

SFT: Rescue Systems 3 or Structural Collapse Technician or Structural Collapse Specialist

SFT: Personal Watercraft Rescue Operator

SFT: Rescue Boat Operations

SFT Animal Technical Rescue Technician

SFT: Vehicle Extrication
CalOES: Technical Search Specialist or Equivalent
Basic Air Operations (S-270)
SFT: River and Flood Water Rescue

California Regional Heavy Equipment and Rigging Specialist

REQUIRED TRAINING

Complete General Requirements

Complete the National US&R Response Heavy Equipment Specialist Course

SFT Firefighter 2 or equivalent

SFT Low Angle Rope Rescue Operational

SFT Rescue Systems 1: Basic Rescue Skills

SFT Confined Space Rescue Technician

SFT Rescue Systems 2: Advanced Rescue Skills

SFT Trench Rescue Technician

SFT Rope Rescue Technician

REQUIRED EXPERIENCE

Experienced in the heavy construction field, such as, heavy equipment operator, crane operator, iron worker, rigger or another applicable field,

Or

A minimum of three years of experience as Rescue Specialist

REQUIRED RECURRENT TRAINING

PHYSICAL FITNESS LEVEL

None Required

OTHER POSITION ASSIGNMENTS THAT WILL MAINTAIN CURRENCY

RECOMMENDED TRAINING WHICH SUPPORTS DEVELOPMENT OF KNOWLEDGE AND SKILLS

National US&R Response System Structural Collapse Technician or Specialist Course.

California Regional Rescue Specialist

REQUIRED TRAINING

Complete General Requirements
FEMA US&R GPS Awareness Level Course or equivalent
Complete the requirements of NFPA 10006 Technical Rescuer Level 1 &2 (excluding Chapter 1 Section 1.3.3)
Chapter 5: Job Performance
Chapter 10: Vehicle and Machinery Rescues (Levels 1 & 2)
SFT Low Angle Rope Rescue Operational
SFT Rescue Systems 1: Basic Rescue Skills
SFT Confined Space Rescue Technician
SFT Rescue Systems 2: Advanced Rescue Skills
SFT Trench Rescue Technician
SFT Rope Rescue Technician

REQUIRED EXPERIENCE

Certification as a SFT FF1
Current Certification as a California Emergency Medical Technician
