Website: www.fire.ca.gov

Date: July 11, 2025

To: Statewide Training and Education Advisory Committee
State Board of Fire Services

From: Caryn Petty, Deputy State Fire Marshal III (Specialist)

SUBJECT/AGENDA ACTION ITEM:

Crafton Hills College
Accredited Regional Training Program (ARTP) Reaccreditation

Recommended Actions:

Recommend Crafton Hills College remains an Accredited Regional Training Program (ARTP) in the State Fire Training (SFT) system for the reaccreditation period of five (5) years.

Background Information:

A Reaccreditation Site Evaluation was conducted on April 17, 2025, at the Crafton Hills College Training Facility located in Yucaipa, California. The Accreditation Site Evaluation was conducted by Deputy State Fire Marshal III (Specialist) Caryn Petty, State Fire Training, with Academy Coordinator Ryan Harold serving as site host and representative.

The Crafton Hills College Self-Assessment Report (SAR) was reviewed and discussed, with requirements for supplemental documentation noted. Said documentation has since been received and has met the requirements as set forth by State Fire Training policies and procedures. The review of the SAR was followed by an evaluation of all classrooms and training facilities with an opportunity to review training course records and equipment complement.

Analysis/Summary of Issue:

An evaluation of the training facilities indicated sufficient classroom space with a fully functioning and compliant training facility complete with all necessary props, tools, equipment, and vehicles to accommodate a fire academy training program. Crafton Hills College utilizes the Fire Fighter (2019) curriculum and possesses all necessary materials for successful Certification Examination delivery. The training grounds exhibit appropriate California Fire Code-compliant classrooms equipped with enhanced audio/visual equipment and necessary learning aids. All academy cadets are provided with sufficient study materials, devices, and equipment for applicable success within the academy training. Several Registered Instructors and Evaluators participate in the academy and Certification Exam delivery making the program self-sustaining and the College will focus on hosting additional registered SFT courses in conjunction with cooperating and neighboring agencies. All student

records are maintained in a compliant and confidential manner in accordance with SFT requirements.

Area(s) of focus for growth and improvement:

- Consistent participation at California Fire Technology Director Association's meetings is recommended to continue fostering the growing relationships in the region for enhanced networking and partnership opportunities.
- The current staffing is at its capacity with workloads beyond the Academy delivery that would be offset with additional resources and personnel. The College has identified a specific need for dedicated personnel to offset the workload of existing staff and ensure the thorough delivery of the Academy free of peripheral assignments, tasks, and duties.
- The program may benefit from utilization of Distance Education delivery of SFT courses while garnering students from throughout the State. As an ARTP, this is an available option.
- The program shall continue to explore outreach and recruitment opportunities for expanded diversification of the instructor cadre roster. Ongoing outreach via fire camps and community events is recommended for continued diversifications efforts.

Crafton Hills College is a Southern California leader in the training and development of fire service professionals, recruiting from local high schools and diversification outreach programs to generate and maintain career interest in young adults. The College provides numerous continuing education opportunities for those seeking career advancement, offering a growing array of specialized courses and training events. CHC boasts an exemplary retention and success rate among students, making it a noteworthy training destination. The College maintains a dedication to providing a strong fire training program to the communities it occupies, focusing on outreach efforts to reach underserved populations, student and staff recruitment, and cooperation with neighboring agencies and training programs. All participants, staff and students alike, adhere to the strong program standards that have served as the foundation of this model fire service training program.

SFT recommends continued recognition of Crafton Hills College as an Accredited Regional Training Program for a Reaccreditation period of five (5) years.
