OFFICE OF THE STATE FIRE MARSHAL
STATE FIRE TRAINING**

P.O. Box 944246
SACRAMENTO, CA 94244-2460
(916) 902-9738
Website: www.fire.ca.gov

Date: July 10, 2026

To: Statewide Training and Education Advisory Committee
State Board of Fire Services

From: Caryn Petty, Deputy State Fire Marshal III (Specialist)

SUBJECT/AGENDA ACTION ITEM:

Contra Costa County Fire Protection District Accredited Local Academy (ALA) Reaccreditation

Recommended Actions:

Recommend that the Contra Costa County Fire Protection District (CCCFPD) be reaccredited as an Accredited Local Academy (ALA) in the State Fire Training (SFT) system for a reaccreditation period of five (5) years.

Background Information:

A reaccreditation Site Evaluation was conducted on May 21, 2026, with the Contra Costa County Fire Protection District in Pittsburg, CA. The Site Evaluation was conducted by Deputy State Fire Marshal III (Specialist) Caryn Petty, State Fire Training, with Assistant Chief David Watson and Training & Development Specialist Lucy Eger serving as hosts and representatives.

The Contra Costa County Fire Protection District Self-Assessment Report (SAR) was reviewed and discussed, with requirements for supplemental documentation noted. The documentation has since been received and meets the requirements set forth by State Fire Training policies and procedures. The SAR review was followed by an evaluation of all classrooms and training facilities, with an opportunity to review training course records and the equipment complement.

Analysis/Summary of Issue:

An evaluation of the training facilities verified sufficient classroom space and a fully functioning, compliant training facility, complete with all necessary props, tools, equipment, and vehicles to support a fire academy training program. The Department utilizes the current CFSTES Fire Fighter curriculum and has all necessary materials to deliver Certification Examinations. The training grounds feature California Fire Code-compliant classrooms equipped with enhanced audiovisual equipment and necessary learning aids. All academy recruits are provided with sufficient study materials, devices, and equipment to succeed in academy training. Several Registered Instructors and Evaluators participate in the academy instruction and Certification Exam delivery, making the program self-sustaining. The Department will focus on hosting additional registered SFT courses in

conjunction with cooperating and neighboring agencies. All student records are maintained in a compliant and confidential manner in accordance with SFT requirements.

Area(s) of focus for growth and improvement:

- Consistent participation at training officers and ALA meetings is recommended to continue fostering the growing relationships in the state for enhanced networking and partnership opportunities.
- Improved decontamination stations with extractors will serve to accommodate a safe and healthy learning environment. It is recommended that the procurement of additional facilities and equipment be explored to ensure student and instructor safety.
- Given the usage of the training site, improved equipment and burn logs shall be established and maintained in accordance with SFT and NFPA requirements.
- The agency may benefit from the utilization of Distance Education delivery of SFT courses. As an ALA, this is an available option.
- Exploration of Certification Exam progression is recommended, including digitization of skills sheets, video recording, expansion of additional Exam offerings to include Fire and Emergency Services 1 and 2, and Alternate Candidate exam events.
- The Department shall continue to explore outreach and recruitment opportunities for expanded diversification of the instructor cadre roster. Ongoing outreach through fire camps and community events is recommended to support continued diversification efforts.
- Ongoing outreach via fire camps and community events is recommended for continued diversification efforts.

The Contra Costa County Fire Protection District is an accomplished and historic organization, with well-rounded, experienced personnel providing expansive response capabilities and a steadfast focus on serving the rapidly increasing needs of the community and region. The Department provides comprehensive training evolutions focused on relevant, timely foundational practices, utilizing cutting-edge techniques and equipment tailored to its specific regional risks and hazards. A cooperative neighbor in the state, the agency promotes teamwork, reliability, and exceptional customer service. CCCFPD is an active participant in the statewide system, maintaining excellent working relations with SFT via instructional delivery, advisory committee and curriculum cadre participation, academy enhancement, and instructor development.

State Fire Training recommends continued recognition of the Contra Costa County Fire Protection District as an Accredited Local Academy for an accreditation period of five (5) years.
