Incidents with mutual aid given or automatic aid given to a neighboring fire department are not included in statistics.
Structure Fires include building fires, as well as confined fires within buildings.

The data contained in this report comes from the Office of the State Fire Marshal (OSFM) California Incident Data and Statistics (CalStats) data warehouse. Property and contents loss figures, if included herein, are estimates only. These emergency incident statistics, including injury and death counts, are based only upon information submitted to the OSFM by participating California fire departments. Please note that apparent variations in incident counts and associated losses shown in this report may be solely due to fluctuations in the amount of data submitted to OSFM. While incoming data is validated according to logical data rules, individual data elements are not always verified for accuracy.
