2021 California NFIRS Reporting

**Please continue sending your 2020 NFIRS files to
CalStats@fire.ca.gov**

CalStats is still importing 2020 data. Quarter 4 files that have already been received will be validated and a response will be sent once the file has been imported.

Please send all remaining 2020 files in by March 31st, 2021.

**No need to resend your 2020 Q4 files
if you have done so already.**

eNFIRS Users - Formerly Data Entry Tool (DET) Users

- Users who still have access to the NFIRS 5.0 DET should export and send all remaining 2020 data to CalStats@fire.ca.gov.
- Previous DET users who have not already registered for eNFIRS should go to <https://www.nfirs.fema.gov/NFIRSWeb/login> and click on "Register as a State & Local User."
- Once the account is approved, users can begin entering 2021 incidents in eNFIRS. Incidents are due on a quarterly basis.
- Moving forward for 2021, eNFIRS users will no longer export files and email them to CalStats.
- Users can reset their own passwords through eNFIRS.

Third-Party Vendor Software Users

Vendor software users will continue to send files to CalStats@fire.ca.gov at the end of each quarter. The NFIRS File Validation Utility tool (VVT) can no longer be used to pre-validate quarterly files exported from vendor software programs. Please send incident files directly to us. The files will be validated, and a response will be sent upon import to the national database.

**Third-party vendor software users will not use eNFIRS and
should not be registering for an eNFIRS account.**

For more information on NFIRS reporting, visit the CalStats website at:
