

The OSFM relied on the documents listed in the Initial Statement of Reasons (ISOR) and the Addendums to the ISOR. Since the purpose of the rulemaking is to adopt a map, many of these documents are data sets and cannot be printed. These data sets are available at the links in the ISOR and Addendums and were available for the public to review during the rulemaking process. We have provided hard copies of those Documents Relied Upon that are able to be printed.
