Burn Location

Please enter the burn location address in the "Find address or place" search box in the upper left corner of the map, starting with the street address (example: 715 P Street, Sacramento, CA) and press enter on your keyboard. Reposition the placement of the point to the proposed burn area on your property, if needed, by clicking or tapping on the correct location in the map. The placement of the point will move, and the map will recenter.

HINT: You can use CTRL + the mouse button to zoom into the map or click on the "Large map" icon. The map will try to use your location services. If your browser does not have location services turned on, this is not needed. Click the X to ignore the message.

View the map diagram map diagram or the video if you need additional instructions on how locate your burn location on the map.
