Please see the information provided below prior to submitting your documents, and then see the [GETTING STARTED SECTION](#) when you are ready to submit.

2 DO YOU NEED A PERMIT?

2.1 CONSTRUCTION

- Work that requires a permit can be determined by reviewing California Code of Regulations (CCR) Title 24, Part 2 California Building Code (CBC) §105. Additional information regarding required permits may be found at: [Project Elements That Can Be Started Ahead of OSFM Permitting](#)
- A separate GOVMotus permit application is required for each building and/or structure involved in a project
 - You no longer need to submit a separate permit application for each package and deferred items. These items will now be additional review approvals within the permit for the project.
 - For multiple buildings submitted in one plan set, each building will need a permit application. See the [MULTIPLE BUILDINGS IN ONE SET](#) section for more information

**Office of the State Fire Marshal
Fire and Life Safety Division
Permitting and Inspection Requirements and Guidelines**

2.2 SPECIAL EVENTS

- A special event scheduled to occur within a State-Owned Building, property, or Specified State-Occupied buildings require an OSFM Special Event permit. Further information defining State-Owned and Specified State-Occupied buildings may be found in CCR Title 24, Part 1 California Administrative Code Chapter 3.
- Special event applications and associated documents shall be submitted to the OSFM FLS per the requirements below no later than **10 business days before the opening of the event**. Applications submitted less than 10 business days before the event may be canceled at the OSFM Supervisor's discretion.

3 PRELIMINARY PROJECT REVIEW MEETINGS (OPTIONAL)

THIS SECTION IS FOR CONSTRUCTION ONLY

- Requires a GOVmotus application to be saved in DRAFT status prior to the meeting
- The application permit number shall be provided at time of a meeting request
- Staff time will be billed to the respective State agency via the identified application permit number

**Office of the State Fire Marshal
Fire and Life Safety Division
Permitting and Inspection Requirements and Guidelines**

4 STATUS INQUIRIES

Application Intake Queue duration

- Applications are reviewed on a first-come, first-served basis

Review Queue duration

- Plans are reviewed on a first-come, first-served basis
- Queue time is approximately 8 weeks prior to a review taking place depending on the number of projects in the queue
- Actual review time is dependent on the size, complexity, and quality of the documents provided

Notifications

- **Updates and estimated timelines will not be provided**
- GOVmotus and ProjectDox will auto-generate e-mail notifications at each review milestone within the process

GOVmotus Permit Number Status Indicators

You can get a general idea of where your permit application is in the permitting process by logging into GOVmotus and checking the permit number in GOVmotus.

The current status of the application is reflected in the last two letters of the permit application number (Ex: 25-N-1234-C-**DR**). These letters change throughout the permitting process, so keep an eye on them. The list below identifies each of the statuses you might see and provides a brief explanation of what they mean.

- DR = Draft status; the application has not yet been submitted to the OSFM
- NW = New status; the application has been submitted and is in the NEW applications queue
- RJ = Rejected Status; this can mean one of two things:
 - The application was not filled out correctly and was returned to the applicant for revision
 - The application has gone through a full PAPER plan review cycle and was returned with corrections needed from the applicant

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

- AC = Accepted status; we have looked over the application and determined that it is valid. At this point you are permitted to submit plans:
 - If you elected to submit plans on PAPER, you can now mail/drop off plans in accordance with the [PAPER PLAN REVIEW](#) section
 - If you elected to submit plans electronically, you will receive a notification that a review workflow has been created in ProjectDox and you can upload in accordance with the [ELECTRONIC PLAN REVIEW](#) section
- ER = Pending Electronic Review; the plan review process has moved into ProjectDox. You'll need to access ProjectDox and review the Workflow Routing Slip report for the current status in ProjectDox
- PR = Reviewed; the plan review was approved but the permit was not issued. A few things that prevented the permit from being automatically issued are:
 - Something on the OSFM side of the application process is incomplete and we need to update some information
 - The Schematic Drawing checkbox on the application was checked which means the drawings were not for construction and would not receive a permit
- PI = Permit Issued; the permit has been issued, and construction can begin on the project
- IS = Inspected; all required inspections for the project have been passed and the project has been recommended to be issued a certificate of completion or occupancy
- AP = Approved; the project has been approved to receive a certificate of completion or occupancy, but the certificate has not been issued yet
- CO = Complete; this project has been issued a certificate of completion or occupancy and is now closed
- CN = Cancelled; the project/special event has been cancelled and is now closed

Please remember that using permit number information received through emails, PDF's, or printed documentation may not reflect the current status. Logging in and checking is the only way to see the current status.

**Office of the State Fire Marshal
Fire and Life Safety Division
Permitting and Inspection Requirements and Guidelines**

5 DEFERRED APPROVALS

THIS SECTION IS FOR CONSTRUCTION ONLY

Deferred approvals will not be accepted for review until after the construction plans for the project have been approved and issued a permit.

The OSFM only allows the following elements to be deferred (unless otherwise previously approved):

- Fire Alarms/Emergency Voice Evacuation systems
- Fire Sprinklers/Suppression systems
- Emergency Responder Radio Coverage systems

Please state the types of systems being deferred (Ex: NFPA 13 (or 13R or 13D) Fire Sprinklers; NFPA 72 Manual (or Automatic) Fire Alarm system with Emergency Voice Evacuation; UL 300 or Clean Agent Fire Suppression system).

5.1 PAPER FORMAT

- Prior to mailing your deferred approval plans to our office, you need to make a New Review Request from within your GOVmotus permit application.
 - Once in your GOVmotus permit application, click on Create New Review Request in the Control Panel on the left side of the screen.
 - Choose the Plan Review Type from the dropdown. If the review type that you are submitting is not in the list provided, please email FLS.HelpDesk@fire.ca.gov for assistance.
 - After you submit your review request, wait until you receive a notification from the OSFM that your request has been approved before mailing your plans to our office per the [PAPER PLAN REVIEW](#) section of this document.
 - All submittals should follow all requirements in the [PAPER PLAN REVIEW](#) section of this document.
- Provide the approved GOVmotus application number with submittal
- Ensure the original approved construction plans have been uploaded into Manage Documents in the permit application

**Office of the State Fire Marshal
Fire and Life Safety Division
Permitting and Inspection Requirements and Guidelines**

5.2 ELECTRONIC FORMAT

- Please email FLS.HelpDesk@fire.ca.gov to get a new workflow started in ProjectDox. In the email, include the permit number and the name of the deferred submittal item (Ex: Deferred Fire Sprinklers).
- Your review request will be evaluated by our intake staff. If the requested review poses no issues, the review request will be accepted. After this acceptance a new workflow will be created under your permit in ProjectDox, and you will receive a notification that a new Upload and Submit task has been assigned to you.
- Once a new Upload and Submit task is received:
 - Upload and submit your deferred approval files to the correct subfolder under the Drawings and Documents folders following all of the requirements and processes defined in the [**INITIALLY SUBMITTING ELECTRONIC PLANS IN PROJECTDOX**](#) and [**WHEN THERE IS MORE THAN ONE WORKFLOW**](#)

6 BID AND REFERENCE DRAWINGS AND DOCUMENTS

THIS SECTION IS FOR CONSTRUCTION ONLY

6.1 PAPER AND ELECTRONIC PLANS

- All bid drawings and documents shall be clearly marked with a large label in size 48 font with the following text:
 - BID DOCUMENT – NOT FOR CONSTRUCTION
- All reference drawings and documents that are included in your package to be reviewed and approved shall be clearly marked with a large label in size 48 font with the following text:
 - FOR REFERENCE ONLY – NOT FOR CONSTRUCTION
 - Drawings and documents uploaded to the Reference Docs folder that are not intended to be approved with your package do not need to have this label or example layout.

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

- Drawings from previous projects that are being submitted for reference shall be provided as a reduced scan onto a sheet for the new project (see example below)
- If the reference drawings are part of a previously approved GOVmotus permit, the approved drawings can be referenced by identifying the GOVmotus permit number the plans were approved under in a note on the new submittal.

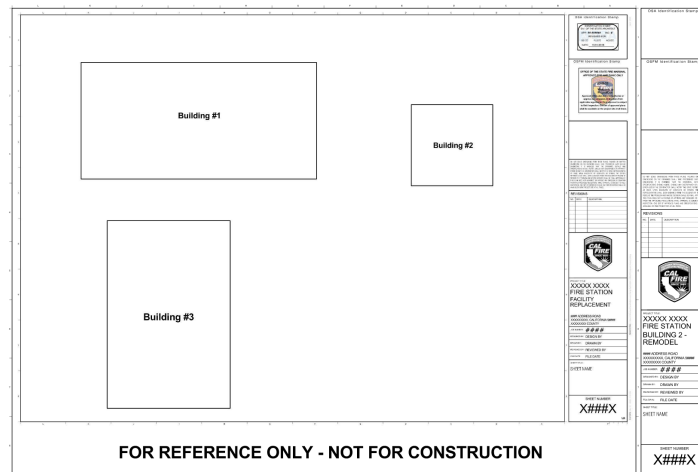

Figure 1 Example of For Reference Only

7 PARTIAL PERMITTING

THIS SECTION IS FOR CONSTRUCTION ONLY

For large projects wishing to utilize a partial review process, please see the [Partial Permitting Guidelines](#) document. Ensure each building in the scope of work has a permit as noted under the [DO YOU NEED A PERMIT?](#) section. For multiple buildings submitted in one plan set, each building will need a permit application. See the [MULTIPLE BUILDINGS IN ONE SET](#) section for more information.

**Office of the State Fire Marshal
Fire and Life Safety Division
Permitting and Inspection Requirements and Guidelines**

8 LOCAL FIRE AUTHORITY – ACCESS APPROVAL FORM

THIS SECTION IS FOR CONSTRUCTION ONLY

A [Local Fire Authority – Access Approval Form](#) must be submitted to the local fire department for them to review and approve the elements that directly impact their response to emergencies. The form shall accompany applicable plan sheets for the project. Once signed, the form must be scanned onto the plans prior to submission to the OSFM.

9 ALTERNATE MEANS AND METHODS REQUEST (AMMR)

THIS SECTION IS FOR CONSTRUCTION ONLY

- AMMR's shall utilize the existing GOVmotus project application
- AMMR's shall utilize the [REQUEST FOR ALTERNATE MEANS OF PROTECTION](#) form and be submitted with the plans for review
- If approved, the OSFM signed AMMR shall be scanned and placed on the construction drawings prior to permit approval.
- See a [sample AMMR request](#)

**Office of the State Fire Marshal
Fire and Life Safety Division
Permitting and Inspection Requirements and Guidelines**

10 APPLICATION & PERMIT INACTIVITY

10.1 CONSTRUCTION & SPECIAL EVENT APPLICATIONS

- A DRAFT application (never been submitted to the OSFM) shall be canceled after 365 days of inactivity.
- An application for a permit for any proposed work shall be deemed to have been abandoned after 180 days of inactivity at any stage of the plan review process.
- Applications and reviews not pursued in good faith will be canceled

10.2 PERMIT EXTENSIONS

THIS SECTION IS FOR CONSTRUCTION ONLY

- A permit issued for any proposed work shall be deemed to have been abandoned/inactive 12 months after the date of permit issuance or last date of inspection, unless the proposed work has been pursued in good faith
- **Only two** extensions of time may be granted, at OSFM discretion, for periods of not more than 180 days per extension. Permit extensions shall not be extended beyond 180 days into a new code cycle that has taken effect
- If an extension is not submitted prior to the expiration of the permit application or the first approved extension request, the permit application will be cancelled.
- The permittee shall request an extension in writing and demonstrate justifiable cause for the extension in accordance with the [OSFM permit extension process](#)
- Abandoned permits without approved extensions will be cancelled by the OSFM

**Office of the State Fire Marshal
Fire and Life Safety Division
Permitting and Inspection Requirements and Guidelines**

11 OSFM ITEMS REQUIRED ON ALL PLANS

THIS SECTION IS FOR CONSTRUCTION ONLY

This is not an all-inclusive list of items that need to be included on your plans. Please reference applicable codes and regulations for what other items may be needed based on the scope of the project.

- Building Data Analysis (*this section is to be provided in full on your drawing set with responses to each prompt*)
 1. Occupancy classification and use
 2. Building construction type
 3. Number of stories
 4. Actual building height
 5. Building area in Square Feet
 6. Area of project in Square Feet. (i.e. Tenant Improvements)
 7. Separated or Non-separated Use
 8. Allowable area per C.B.C.
 9. Area increase
 10. Height increase
 11. Fire Sprinklers (yes or no) Type: (Wet, Dry, Pre-action or Deluge)
 12. Fire Alarm (yes or no) Type: (Manual, Automatic, etc.)
 13. Other Fire Protection System, if any (yes or no)
 14. Smoke Control System (yes or no)
 15. Occupant load for entire building and each floor
 16. Year building was constructed
 17. Is building in High Fire Hazard Severity Zone (yes or no)
 18. Seismic Joints (yes or no) if yes, provide location
 19. Emergency Responder Radio Coverage (yes or no)
 20. High-rise (yes or no)
- GOVmotus Permit Application Number(s) (*e.g. 24-N-1234-CP*)

**Office of the State Fire Marshal
Fire and Life Safety Division
Permitting and Inspection Requirements and Guidelines**

12 OVER THE COUNTER (OTC) REVIEWS

THIS SECTION IS FOR CONSTRUCTION ONLY

12.1 WHAT CAN BE REVIEWED AS AN OTC?

Examples of projects that are acceptable for OTC review, limited to 60 minutes:

- Minor interior tenant improvements which do not affect the means of egress
- Reroofing
- Removal and replacement of roof or ground HVAC units
- Exterior and interior barrier removal & accessible path of travel improvements
- Exterior site improvements, such as fences, walls, utilities, landscaping, etc., which do not affect the means of egress or the emergency vehicle access.
- Removal and replacement of existing exterior siding, windows, doors, and similar for Type V-B construction
- Alterations to fire sprinkler systems involving no more than 20 sprinklers
- Alterations to existing fire alarm systems involving no more than 20 devices or appliances.

Examples of projects that do not qualify for OTC review:

- Addition or expansion to an existing building
- New buildings
- Projects that include hazardous materials
- Projects that include high-piled storage
- Projects that take longer than 60 minutes to review
- Projects that include a change of occupancy classification
- Project that includes alterations to the means of egress such as rated corridors, interior and exterior stairs, ramps, or exit passageways
- Projects that include emergency power systems (Level 1) or stand-by power systems (Level 2) requiring compliance with CCR Title 24 California Electrical Code (CEC) Article 700, 701, California Fire Code (CFC) Section 1207, and National Fire Protection Association (NFPA) 110 or NFPA 111

Office of the State Fire Marshal

Fire and Life Safety Division

Permitting and Inspection Requirements and Guidelines

12.2 OTC APPOINTMENTS

12.2.1 PAPER FORMAT

- A GOVmotus permit application must be submitted to the OSFM and in Accepted (AC) status prior to arriving at our office for an OTC review. The GOVmotus system will email you when we have accepted your application.
 - Provide a copy of application when signing in for review
 - If the OTC is for a [BACKCHECK RESUBMITTAL](#) of a previous OTC review, [ADDENDUM](#), or a [DEFERRED APPROVAL](#) review item for a project that has already been issued a permit, please complete the steps outlined in those sections of this document. You must already have the request for those types of reviews accepted by OSFM intake prior to arriving for an OTC review.
- Plans shall be in accordance with the requirements found under [PAPER PLAN REVIEW](#)
- Plans that have already been submitted through our normal process will not be taken out of the queue for an OTC review
- Due to limited space, one project representative and one design professional with signature authority will be allowed to attend the review

12.2.2 ELECTRONIC FORMAT

- **Starting March 4th, 2026, we will start an appointment-based process for electronic “OTC” reviews.**
 - Appointments are on Wednesdays and are limited to 1-hour, including paperwork processing.
 - Only 1 project/permit will be allowed per time slot
 - Only 2 time slots will be given to each person each Wednesday
 - Multi-building submissions following our [MULTIPLE BUILDINGS IN ONE SET](#) process may be allowed at OSFM discretion.
 - Appointments will be held at the following times:
 - 08:00am
 - 09:30am
 - 11:00am
 - 1:00pm
 - 2:30pm
- To request an electronic OTC:

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

- A GOVmotus permit application must be accepted by the OSFM and the project must have successfully passed Prescreen in ProjectDox before requesting an electronic OTC review.
 - The ProjectDox system will email you when we have accepted your drawings and documents and placed you in the review queue.
- After you have successfully passed Prescreen and received the email that you are in the review queue, please email FLS.OTC@fire.ca.gov and request an OTC review.
 - The email subject line should include the permit number, State Agency, and location (Ex: 25-1234 – CDCR – VSP)
 - The email should include:
 - Permit application number
 - List 3 dates (Wednesdays only) you would like to try to schedule for
 - List our time slots (shown above) that you are available for in your order of preference for each date
 - Do not include more than the maximum of 2 projects/permits that are allowed for each person per week

I would like an electronic OTC review for permit number 25-1234.

I am available:

3/4/26 08:00am, 11:00am

3/11/26 08:00am, 1:00pm, 2:30pm

3/18/26 11:00am, 2:30pm

Figure 2 Example of OTC request email information

- Electronic OTC request emails will be reviewed, processed, and scheduled every Wednesday for the upcoming weeks.
- If a reviewer has already picked up your plans for review, your OTC request will be rejected as it is already under review.
- Prior to scheduling the review, OSFM staff will confirm your scope of work can be reviewed in the 1-hour time limit. If it cannot be reviewed in that amount of time, your request will be rejected, and we will leave your project in the main review queue.

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

- If your project meets OTC requirements, we will provide you with a calendar appointment and a Microsoft Teams link.
- If the OTC is for a [BACKCHECK RESUBMITTAL](#) of a previous OTC review, [ADDENDUM](#), or a [DEFERRED APPROVAL](#) review item for a project that has already been issued a permit, please complete the steps outlined in those sections of this document. You must already have the request for those types of reviews accepted by OSFM and successfully passed Prescreen prior to requesting an OTC review.
- Plans shall be in accordance with the requirements found under [ELECTRONIC PLAN REVIEW](#) following all of the requirements and processes defined in the [INITIALLY SUBMITTING ELECTRONIC PLANS IN PROJECTDOX](#) and [WHEN THERE IS MORE THAN ONE WORKFLOW](#) sections.
- A design professional must attend the review in case the reviewer has questions.

**Office of the State Fire Marshal
Fire and Life Safety Division
Permitting and Inspection Requirements and Guidelines**

13 ADDENDUMS

THIS SECTION IS FOR CONSTRUCTION ONLY

For the purposes of our office, addendums, are changes requested to be made to approved documents before work commences. Requests for addendums will utilize the existing permit that the original plans were approved under.

13.1 PAPER FORMAT

- Prior to mailing your revised plans to our office, you need to request an addendum review from within your GOVmotus permit application.
 - Once in your GOVmotus permit application, click on Create New Review Request in the Control Panel on the left side of the screen.
 - Choose the Plan Review Type from the dropdown. If the review type that you are submitting is not in the list provided, please email FLS.HelpDesk@fire.ca.gov for assistance.
 - After you submit your review request, wait until you receive a notification from the OSFM that your request has been approved before mailing your plans to our office per the [PAPER PLAN REVIEW](#) section of this document.
 - All submittals should follow all requirements in the [PAPER PLAN REVIEW](#) section of this document.
- Provide the approved GOVmotus application number with submittal
- Provide only the revised sheets for review
- Ensure the original approved plans have been uploaded into Manage Documents in the permit application
- Ensure that all revisions are clouded
- Provide a change narrative to assist the reviewer in identifying the changes made
- After approval, amended construction documents shall be slip sheeted into the previously approved set and the entire submittal shall be scanned and uploaded again as a complete set

**Office of the State Fire Marshal
Fire and Life Safety Division
Permitting and Inspection Requirements and Guidelines**

13.2 ELECTRONIC FORMAT

- Please email FLS.HelpDesk@fire.ca.gov to get a new workflow started in ProjectDox. In the email, include the permit number and the name of the addendum (Ex: Addendum #1).
- Our intake staff will create a new workflow under your permit in ProjectDox and you will receive a notification that a new Upload and Submit task has been assigned to you.
- Once a new Upload and Submit task is received:
 - Upload and submit only your revised files to the correct subfolder under the Drawings and Documents folders following all of the requirements and processes defined in the [**INITIALLY SUBMITTING ELECTRONIC PLANS IN PROJECTDOX**](#) and [**WHEN THERE IS MORE THAN ONE WORKFLOW**](#) sections
 - Provide a change narrative to assist the reviewer in identifying changes made and upload it to the Reference Docs folder
 - Once all of your files are uploaded, complete your task.
- The addendum submission will go through the same cycles and process as a normal plan review. This will allow comments to be tracked and responded to within ProjectDox.
- Once approved, the revised documents will be stamped and added to the “Approved” folder in ProjectDox, superseding any previous files with the same name in the revised set.

**Office of the State Fire Marshal
Fire and Life Safety Division
Permitting and Inspection Requirements and Guidelines**

14 MULTIPLE BUILDINGS IN ONE SET OF PLANS

THIS SECTION IS FOR CONSTRUCTION ONLY

As a submittal option, when there is work at the same facility location for multiple buildings in the scope of the project, all buildings may be submitted on one single set of plans, with a separate permit application for each building in the plan set. **This option does not allow ANY work on the buildings to commence until the entire plan set has been approved. If there is a need to start work on any building prior to full plan approval, that building must be submitted in a separate set of plans and must be removed from the multi-building submittal. Once a multi-building plan set has been submitted, this cannot be undone without starting the entire process over; please plan accordingly.**

The following are the requirements for submitting a multi-building plan set:

- Provide one single set of plans that complies with the OSFM [PAPER PLAN REVIEW](#) or [ELECTRONIC PLAN REVIEW](#) requirements
- Provide one application for each building in the plan set
 - List all permit application numbers on the cover sheet of the plan set with the building names next to them
 - Identify the permit application that will be the primary application for the project with the word “primary” next to the application number and building name. This should be the building that is scheduled to be completed last in the project. All plan review will occur under the primary permit application
 - The primary application shall be noted in the Master Permit Application field on the applications for the other buildings in the submittal.
 - If submitting on PAPER plans, all applications shall identify the format as “paper”
 - If submitting on ELECTRONIC plans, the “primary” permit application shall have the format identified as “electronic”, and all other applications for the set shall be identified as “paper”
- The multi-building plans will only need to be submitted under the primary application number

**Office of the State Fire Marshal
Fire and Life Safety Division
Permitting and Inspection Requirements and Guidelines**

15 PAPER PLAN REVIEW

THIS SECTION IS FOR CONSTRUCTION ONLY

All plans submitted for review must meet the following requirements or they will be returned unprocessed:

- Plans must be mailed to **2251 Harvard Street, Suite 130, Sacramento, CA 95815**
- A GOVmotus permit application must be submitted to the OSFM and in Accepted (AC) status prior to mailing your plans to our office for a review. The GOVmotus system will email you when we have accepted your application.
- Paper plans are accepted in the following sizes:
 - 22" x 34" (ANSI D)
 - 24" x 36" (ARCH D)
 - 30" x 42" (ARCH E1)
- 8 ½" x 11" for documents such as specification packages
- Appropriately bound (per item/volume)
- Weight of 40 pounds or less (per item/volume)
- Title Block and document cover page configurations shall be in accordance with the [**TITLE BLOCK CONFIGURATION AND STAMP LOCATION**](#)
- Plans shall be in accordance with the [**DRAWING SCALE REQUIREMENTS**](#)
- Plans shall be signed and stamped by the responsible licensed design professional
- Shall not contain pre-printed OSFM approval stamp block and language
- Only one copy of the submittal is required for review
- Once submitted, plans submitted in the paper plan format cannot be changed to the electronic format
- Plans ready to be picked up from our office are the responsibility of the applicant. Outgoing plans will be held for a maximum of 5 business days, after which they will be recycled if the applicant is unresponsive. Upon notification that your plans are ready for pickup, there are two options:
 - Provide a mailing label and pickup service through a courier such as FedEx, UPS, or GLS. We have mailing supplies on hand if needed
 - Pick up the plans at our Sacramento office located at **2251 Harvard St., Suite 130, Sacramento, CA 95815**
- Once Paper plans are stamped approved and have been issued a Permit:

Office of the State Fire Marshal

Fire and Life Safety Division

Permitting and Inspection Requirements and Guidelines

- Drawings and other approved Project Documents must be scanned by you and uploaded into “Manage Documents” in the GovMotus permit application
- Paper plans with multiple buildings in the plan set will only be uploaded to the primary permit designated for plan review
- Amended construction documents shall be slip sheeted into the previously approved set and the entire submittal shall be uploaded again

16 ELECTRONIC PLAN REVIEW (EPR)

All plans submitted for electronic review (construction and special events) must meet the applicable requirements of this section or they will be returned unprocessed:

- Shall not contain pre-printed OSFM approval stamp block and language
- Files for Special Events must contain the [OSFM Special Events Cover Page](#) as the first page of the submittal in accordance with the [DRAWING FILE REQUIREMENTS](#)
- File types for uploading shall be in accordance with the [FILE TYPE REQUIREMENTS](#)
- Accepted sheet sizes shall be in accordance with the [TITLE BLOCK CONFIGURATION AND STAMP LOCATION](#)
- Title Block and document cover page configurations shall be in accordance with the [TITLE BLOCK CONFIGURATION AND STAMP LOCATION](#)
- Plans shall be in accordance with the [DRAWING SCALE REQUIREMENTS](#)
- Files shall be in accordance with [ELECTRONIC FILE NAMING STANDARDS](#)
- Files shall be electronically stamped and signed by the responsible licensed design professional
- Once submitted, plans submitted in the electronic format cannot be changed to a paper plan review format
- Once Electronic plans are approved, they can be downloaded from the Approved folder in ProjectDox

**Office of the State Fire Marshal
Fire and Life Safety Division
Permitting and Inspection Requirements and Guidelines**

16.1 DRAWING FILE REQUIREMENTS

16.1.1 CONSTRUCTION

- **Drawing Files:** Each sheet/page of the drawing shall be uploaded as a separate file and in landscape view. Drawing files will be rejected if uploaded as a multi-page document or in an incorrect orientation. ***Every sheet must contain a version identifier in the bottom right corner of the drawing reflected as V1, V2, V3, etc. V1 is the first time the sheet has been submitted; V2 is after the full initial review; V3 is after the second full review; etc.***
- **Supporting Document Files:** All files required as part of the application submission, other than drawing files, e.g., Specifications, Structural Calculations, Geo-Tech Reports, Easement Letters, Product Data Sheets, shall be uploaded as individual multi-page documents in an appropriate orientation for the content they contain. ***The cover page for each supporting document must contain a version identifier in the bottom right corner of the page reflected as V1, V2, V3, etc. V1 is the first time the document has been submitted; V2 is after the full initial review; V3 is after the second full review; etc.***

16.1.2 SPECIAL EVENTS

- **Event Files:** For Special Events, all documents will be required to be uploaded as one, multi-page PDF document, with the OSFM Special Events Cover Page as the first page. ***Every sheet must contain an identifier in the bottom right corner of the document reflected as V1, V2, V3, etc. V1 is the first time the sheet has been submitted; V2 is the second time; V3 is the third; etc.***

16.2 FILE TYPE REQUIREMENTS

- ALL Drawings, Supporting Documents and Special Event packages shall be provided in PDF format
- Flatten all PDF files to the smallest possible size
- Supporting Documents: Searchable PDF files are required for calculations, reports, and other non-drawing files.
- ProjectDox does not support 3D files.

Office of the State Fire Marshal

Fire and Life Safety Division

Permitting and Inspection Requirements and Guidelines

16.3 ELECTRONIC FILE NAMING STANDARDS

- All files should be numbered and named according to the [DOCUMENT & SPECIAL EVENT FILE NAMING STANDARDS](#) and [DRAWING FILE NAMING STANDARDS](#).
- They shall be provided in the order listed on your provided Title Sheet, Cover Sheet, or Table of Contents.
- As all submittals for a project will now be under one permit application number, we have created subfolders in the Drawings and Documents folders in ProjectDox to organize submissions.
 - Each folder is named for the type of submittals we typically receive and for the OSFM Partial Permitting process.
 - Each folder is named with a two-digit prefix number. Your Drawings and Document files will need to include this prefix to help provide clarity and help group the documents once they have been stamped and placed in the Approved folder
 - See the list of subfolders and prefixes below.
 - Please email FLS.HelpDesk@fire.ca.gov if you have any questions on where to upload your files.

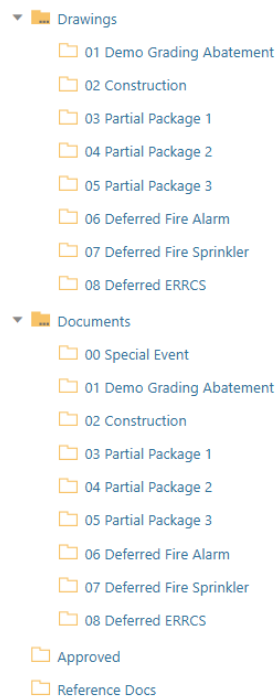

Figure 3 ProjectDox subfolder information

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

16.3.1 DOCUMENT & SPECIAL EVENT FILE NAMING STANDARDS

Supporting Documents and Special Event packages shall start with a two-digit subfolder prefix number to designate which Documents subfolder it should go in, followed by “-D” and then numbered in sequence with two-digits starting with “01”, followed by the name of the document/event. Please keep file names to 70 characters or less (including the “.pdf” file ID type) and do not use special characters other than (#&-_.). This revised naming convention will help group the documents once they have been stamped and placed in the Approved folder.

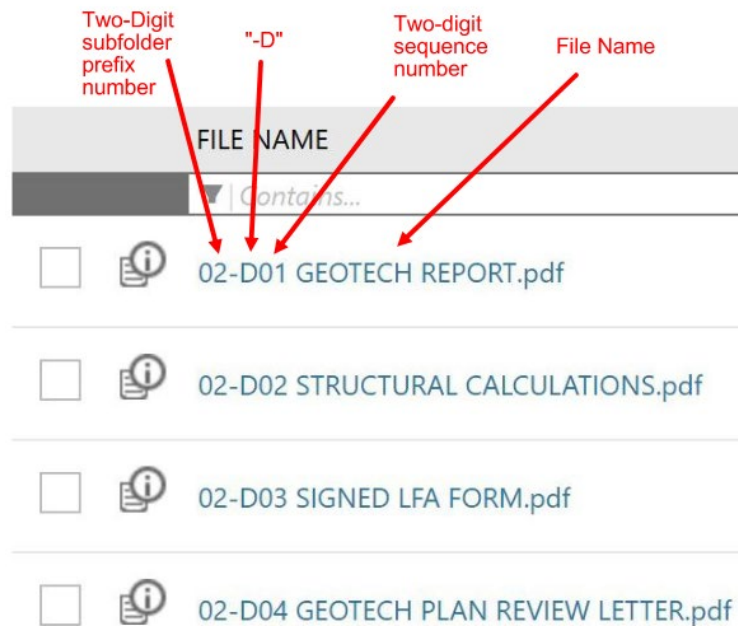

Figure 4 Document File Naming example

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

16.3.2 DRAWINGS FILE NAMING STANDARDS

THIS SECTION IS FOR CONSTRUCTION ONLY

Drawing files shall start with a two-digit subfolder prefix number to designate which Drawings subfolder it should go in, followed by a dash. Then the rest of the file name follows our existing naming standard of a four-digit sequence number, the sheet number, and sheet name. Please keep file names to 70 characters or less (including the ".pdf" file ID type) and do not use special characters other than (#&-_.). This revised naming convention will help group the documents once they have been stamped and placed in the Approved folder.

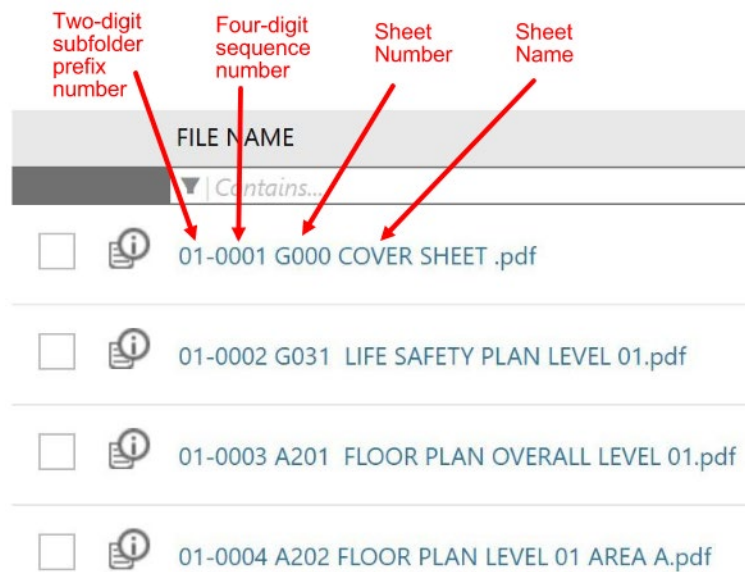

Figure 5 Drawings File Naming example

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

16.3.3 ADDING FILES TO YOUR COMPLETED UPLOAD

THIS SECTION IS NOT FOR SPECIAL EVENTS

After you have completed your initial upload, if you find that you need to add files between existing sheets, notify the review coordinator at FLS.HelpDesk@fire.ca.gov for assistance. To add your new documents or drawings to your already uploaded files, add a decimal to the four-digit sequence number as shown below:

FILE NAME	
▼ Contains...	
<input type="checkbox"/>	01-0001 G000 COVER SHEET .pdf
<input type="checkbox"/>	01-0002 G031 LIFE SAFETY PLAN LEVEL 01.pdf
<input type="checkbox"/>	01-0003 A201 FLOOR PLAN OVERALL LEVEL 01.pdf
<input type="checkbox"/>	01-0004 A202 FLOOR PLAN LEVEL 01 AREA A.pdf

If you want to upload a new drawing sheet and want it between sheets 01-0002 and 01-0003, name your new file with 01-0002.1 at the beginning of the new file name.

Figure 6 Adding Files to Your Completed Upload scenario

Adding “01-0002.1” to the front of the file name of the additional document uploaded placed it in order between the files “01-0002 G031 LIFE SAFETY PLAN LEVEL 01” and “01-0003 A201 FLOOR PLAN OVERALL LEVEL 01”.

FILE NAME	
▼ Contains...	
<input type="checkbox"/>	01-0001 G000 COVER SHEET .pdf
<input type="checkbox"/>	01-0002 G031 LIFE SAFETY PLAN LEVEL 01.pdf
<input type="checkbox"/>	01-0002.1 A013 Existing and Proposed .pdf
<input type="checkbox"/>	01-0003 A201 FLOOR PLAN OVERALL LEVEL 01.pdf
<input type="checkbox"/>	01-0004 A202 FLOOR PLAN LEVEL 01 AREA A.pdf

This inserts the file into the uploaded files in the order you want it to be in. If you need to insert more than nine (9) files in a row, add a zero after the decimal to keep them in order (Ex: 0002.01)

Figure 7 Adding Files to Your Completed Upload example

Figure 10 Stamp location on Drawings with Vertical Title Blocks

18 DRAWING SCALE REQUIREMENTS

THIS SECTION IS FOR CONSTRUCTION ONLY

- All plans must be drawn to scale
- Each sheet must have an independent scale:
 - e. 1in = 40ft or 3/16in = 1ft
- Each sheet must have a scale bar for each scale used on its respective sheet. Reflect a 3" bar for the designated scale.
- When more than one scale is used on a sheet, an independent scale must accompany the applicable detail.
- Fire alarm plans shall utilize 1/8" scale
 - Fire alarm plans shall contain a sheet with a legend of scale square outlines for wall and ceiling mounted strobe coverage areas for all candela ratings and ceiling heights per NFPA 72. See examples below. The legend shall identify the following for each outline:
 1. Mounting location: Wall or Ceiling
 2. Candela rating
 3. Max lens height
 4. Size of outline (same scale as the drawings)

Office of the State Fire Marshal

Fire and Life Safety Division

Permitting and Inspection Requirements and Guidelines

- Specific requirements for ELECTRONIC plans
 - All drawings must be calibrated. This calibration shall be saved in the drawing ensuring it is available to the reviewer.
 - Fire alarm plans shall contain:
 1. A general note identifying required detector spacing based on NFPA 72
 2. To scale spacing outline templates shall be provided per the examples below

Figure 11 Smoke Detector Coverage Template

19 GETTING STARTED – PLAN REVIEW APPLICATION AND SUBMISSION

Please ensure you have read all of the other requirements prior to following the steps below.

19.1 STEP 1 – SETTING UP YOUR INTERNET BROWSER

Utilize and Configure Google Chrome. (**if you can't access your settings or are using a different browser, consult with your IT department or look online for instructions on how to set your browser up as shown below)

- Access your browser settings from the upper right corner of the browser window by click on the vertical “three dot” menu.

Figure 16 Google Chrome vertical "three dot" menu

- Click on settings from the menu that appears.

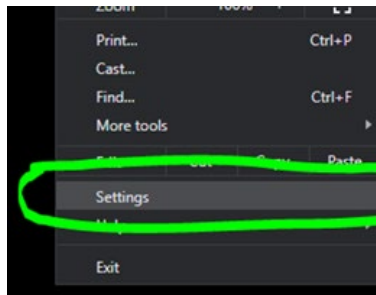

Figure 17 Google Chrome Settings option

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

- Under the section titled “Privacy and Security” click on “Site Settings” (on some versions of Chrome this is called “Content Settings”)
 - If you do not see this section, scroll to the bottom of the page, and click on Advanced. This may also be accessible from the left side of your browser page.
 - Once the advanced features appear look for the “Privacy and Security” section and click on “Site Settings” or “Content Settings”
- Once under “Site/Content Settings”, Look for “Pop-ups” or “Pop-ups and redirects” and click on it.

Under the “Pop-ups” section, go the “Allow” section and click on Add.

Figure 18 Location to add sites to allow Pop-ups

- Once the add window appears, add the following sites, and ensure they appear under the allowed sites once completed:
 - <https://calfire.govmotus.org/>
 - <https://projectdox.ibts.org/>
- Close and re-open the browser and proceed to **Step 2**.

19.2 STEP 2 – ACCESSING THE APPLICATION PORTAL

Log in to your existing GOVmotus account at <https://calfire.govmotus.org/>

If you do not have an account or forgot the user password, left mouse click on the respective “Register” button or “Forgot Password” hyperlink from this page to obtain or access a GOVmotus account.

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

Figure 19 GOVmotus login screen

19.3 STEP 3 – STARTING A NEW PERMIT

Once logged in to your existing or new GOVmotus account, a list of the user's projects, if any, will appear under "My Permits" service bar. Left mouse click on the "Apply for New Permit" button at the bottom left-hand side of the "My Permits" service bar to start a new application.

20-S-0049-SE-ER	Special Event	Pending Electronic Review	1/13/2020
20-S-0048-FA-ER	Fire Alarm	Pending Electronic Review	1/13/2020

1 2

Apply for New Permit

Figure 20 Public User's dashboard and Apply for New Permit button

19.4 STEP 4 – COMPLETING THE PERMIT APPLICATION

Complete the new application's mandatory fields indicated with a red asterisk (*) on the left-hand side of each data field. Below is helpful information for some of the fields on the GOVmotus application

**Office of the State Fire Marshal
Fire and Life Safety Division
Permitting and Inspection Requirements and Guidelines**

19.4.1 CONSTRUCTION

- Jurisdiction – Select OSFM unless your project is on a CSU or UC Davis Health campus
- Project Name – identify the name of the building the application applies to after the Project Name
- Project Description – please enter a brief description of the scope of work
- Master Permit Number – This field is utilized on multi-building submittals. Please enter the complete approved construction permit number for the project in this field with the last two letters being “PI” regardless of permit status. (ex: 22-N-1234-C-PI)
- Schematic Drawing Checkbox – please select this if your plans are not ready for construction, such as bid documents.
- Building Contractor – this section is optional.
- Agency Name – is the name of the State agency the project is related to
- Agency Billing Code – is the billing account name for the State agency that is paying for the project
- Agency Contact Info section – is for the representative of the State agency that the project is related to, such as the Project Director
- Construction Cost – this is the overall construction cost for all elements of the project
 - For multi-building submittals on the same project, the construction cost should be entered on the primary permit application. The other buildings shall enter “0”.

19.4.2 SPECIAL EVENTS

- Jurisdiction – Select OSFM unless your event is on a CSU or UC Davis Health campus
- Project Name – identify the name of the event
- Project Description – please enter a brief description of the event
- Schematic Drawing Checkbox – please leave this unchecked for special events
- Owner Name – is the name of the property owner
- Agency Billing Code – is the billing account name for the State agency that is to be billed for the event (usually the agency that owns the property)
- Owner Contact Info section – is for the Owner or their representative during the event

**Office of the State Fire Marshal
Fire and Life Safety Division
Permitting and Inspection Requirements and Guidelines**

19.5 STEP 5 – IDENTIFY THE SUBMISSION FORMAT THAT WILL BE UTILIZED

Choose Electronic or Paper plan review. Special Events are only permitted to be in an electronic format.

- If choosing paper plans, complete **Steps 6 and 7**. After you submit your application, wait until you receive a notification from the OSFM that your application has been accepted before mailing your plans to our office per the **PAPER PLAN REVIEW** section of this document.
- If choosing electronic plans, complete **Steps 6 and 7**, then see **ELECTRONIC PLAN REVIEW** before continuing to **Step 8**. (The system will skip Step 7 for Special Events)

* Plan Document Format ☒ Electronic ☐ Paper

 Note: If your application is submitted indicating an Electronic plan format, you will be automatically re-directed to upload your plans after submission.

Figure 21 Plans can be submitted via paper or electronic plans

19.6 STEP 6 – FINISHING THE APPLICATION

When all mandatory fields are complete, the grey “Submit Application” button at the bottom of the screen will turn blue. Left mouse click to submit the application.

The image shows a horizontal bar with four buttons: "Submit Application" (blue with a checkmark), "Save and Complete Later" (blue with a floppy disk icon), "Reset" (blue with a circular arrow icon), and "Cancel" (blue with an 'x' icon). Below this bar is a dark grey footer area containing copyright information, links to Terms of Service and Privacy Policy, and a logo for the Institute for Building Technology and Safety (IBTS) with the text "Powered By".

Figure 22 Public User's permit application control options

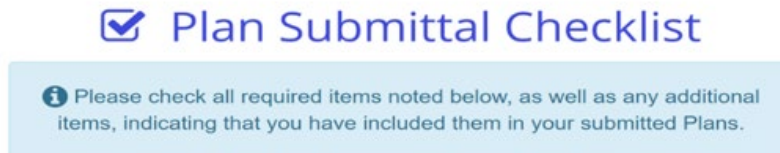

**Office of the State Fire Marshal
Fire and Life Safety Division
Permitting and Inspection Requirements and Guidelines**

19.7 STEP 7 – COMPLETING THE PLAN SUBMITTAL CHECKLIST

THIS SECTION IS FOR CONSTRUCTION ONLY

Submitting the application will prompt the plan review checklist window to pop-up. All required fields with a red asterisk (*) must be verified and selected before the system will allow the application to be submitted by left clicking the submittal button at the bottom left-hand side of the page.

** Indicates required field*

Figure 23 Plan Submittal Checklist information

19.8 STEP 8 – INITIALLY SUBMITTING ELECTRONIC PLANS IN PROJECTDOX

Selecting the electronic plan document format on the GOVmotus application will require these additional steps to complete the application process.

To ensure projects are not continuing to create multiple permits within a project/event, the application process requires the application to be reviewed and accepted by the OSFM intake staff before you can upload your electronic plans into ProjectDox. You will receive an email if your application has been accepted and the instructions below are how you will proceed. If OSFM intake staff determine your permit application is an additional permit for the same project/event, they will reject it and provide direction on which permit application your additional review items need to be submitted under.

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

- After receiving the email that your GOVMotus application has been accepted, log into GOVMotus and open your permit application.
- In the Control Panel on the left side of the screen, click on Manage Plans to be taken to ProjectDox.

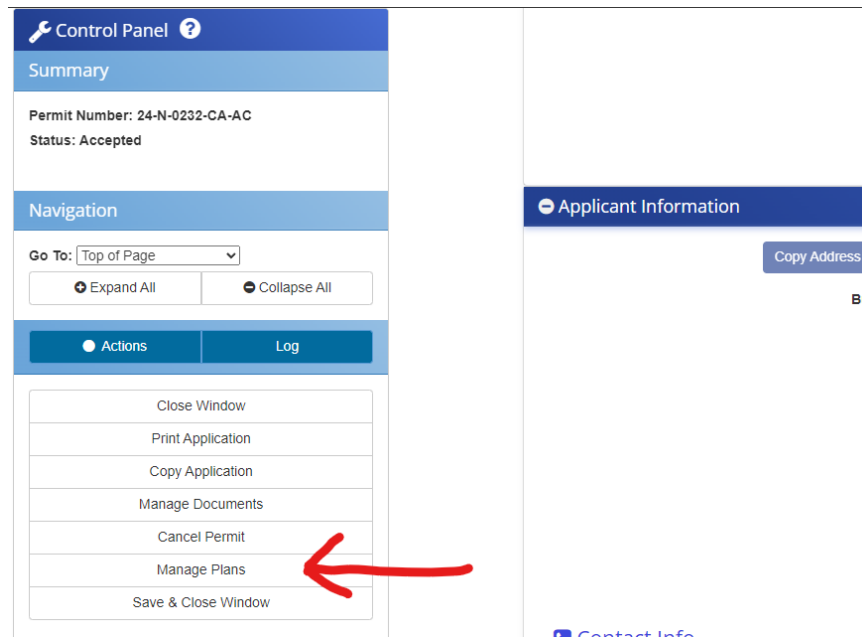

Figure 24 Manage Plans option to transition to the ProjectDox site

- Select the “Upload and Submit” task hyperlink or the Accept button and left mouse click to upload design documents.

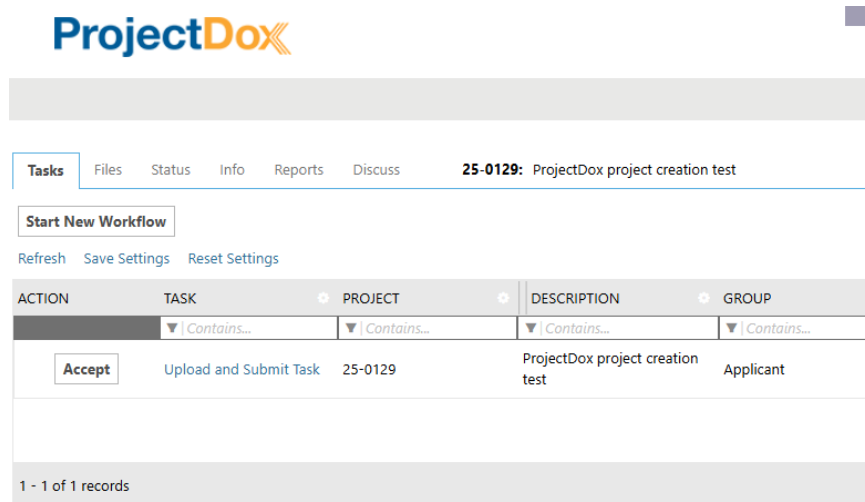

Figure 25 ProjectDox task hyperlink location

Office of the State Fire Marshal

Fire and Life Safety Division

Permitting and Inspection Requirements and Guidelines

- The “Upload and Submit” window will pop-up.
- For our new process of reviewing all submittals for a project/event under one permit application number, click on the arrows next to the folder names to show the subfolders. Based on how your project is set up to be submitted, choose the appropriate folders to upload your Drawings and Documents.

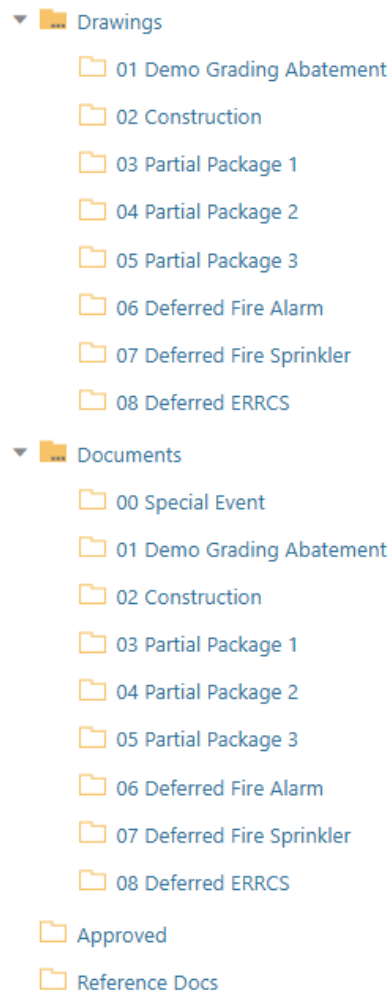

Figure 26 ProjectDox subfolders

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

- Left mouse click “Select Files to Upload” button.

STEP 1 of 3: Select and upload your drawing and supporting document files into this project, as required

File Upload for: 25-0129 ?

Figure 27 Select Files to Upload button

- Left mouse click “Browse For Files”. Then find the files to be uploaded from the computer then double left mouse click or drag files to the window in preparation for upload.

ProjectDox

Folder: 25-0129\Drawings\02 Construction

Browse For Files or drag files into area below. [Watch video](#)

Figure 28 Browse for Files screen

- Review the list of files.
 - Confirm each has a the “Ready to start upload” symbol next to each file.
 - If you realize that you’ve made a mistake or any files have the symbol for “Remove, fix, re-select to start upload”, remove those items by clicking the red “X” on the right side of the screen for that file. Then fix the file based on the information that was incorrect, re-select the file to be added to the list of files to upload.
 - Once all files are ready, left mouse click on the “Start Upload” button to transfer the data over to ProjectDox.

Submit Close

Figure 31 Task screen with Upload Complete - Submit button

- Upload Completed: A thank you window will pop-up and inform the user that the project has been successfully submitted into the Prescreen process.

19.9 WHEN THERE IS MORE THAN ONE WORKFLOW

After you have had your initial plans approved and have been issued a permit, if you are submitting items such as deferrals, addendums, or change orders for the first time, you need to make sure that you are doing so under the correct workflow.

First make sure you are clicking on the appropriate task link near the middle of the screen for the workflow you are working under. Our new process can allow multiple workflows to be active in the same ProjectDox Project at the same time (Ex: Deferred Fire Alarm and Deferred Fire Sprinklers).

- If you see more than one task link or just want to make sure you are on the correct workflow after the initial workflow has been approved, you can find out which workflow each task is for by click on the Settings symbol that looks like a “gear”.

- If you do not see a task for the workflow you are working under (Ex: you are resubmitting for deferred fire sprinklers and do not see a deferred fire sprinklers workflow), please email FLS.HelpDesk@fire.ca.gov for assistance.

20 RESPONSE TO PRESCREEN AND PLAN REVIEW COMMENTS AND BACKCHECK RESUBMITTAL

20.1 PAPER FORMAT

- To submit your revised plans for a backcheck review:
 - Once you receive an email with our plan review deficiency comments, review them so you can revise your plans and documents.
 - If you login and open the Manage Documents section of your permit application, you can also find the plan review deficiency report and download it.
 - Prior to mailing your revised plans to our office, you need to request a backcheck review from within your GOVmotus permit application.
 - Once in your GOVmotus permit application, click on Create Backcheck Request in the Control Panel on the left side of the screen.

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

- Choose the deficient plan review for which you are submitting revised plans. If the review that you are submitting for is not shown, please email FLS.HelpDesk@fire.ca.gov for assistance.
- After completing the backcheck review request, your review request will be evaluated by our intake staff. If the requested review poses no issues, the review request will be accepted.
- After you receive this acceptance, you may mail your plans.
- Provide the approved GOVmotus application number with your submittal
- Provide a change narrative to assist the reviewer in identifying the changes made
- Provide an entirely new set of plans that includes your revisions
- Provide most recent redline check set.
- Provide deficiency responses.
- Ensure that all revisions are clouded.

20.2 ELECTRONIC FORMAT

- Comments can come in two forms:
 - Prescreen Checklist Item – identifies general intake requirements noted in these instructions that were not followed. This will be under a Prescreen Corrections task and are only provided prior to being placed in the plan review queue.
 - Plan Review Changemark – a sheet specific correction relating to a code deficiency. This will be under a Respond and Resubmit task.
- All correction items will require a response in ProjectDox from the Applicant on how the item was corrected.
 - This is similar to a narrative response but comes in an electronic form that can be viewed after accepting the Prescreen Corrections or Respond and Resubmit task in the task window that appears.
 - To access this list, first make sure you are clicking on the appropriate task link near the middle of the screen for the workflow you are working under. Our new process can allow multiple workflows to be active in the same ProjectDox Project at the same time (Ex: Deferred Fire Alarm and Deferred Fire Sprinklers). See [**WHEN THERE IS MORE THAN ONE WORKFLOW**](#) for more information.

Office of the State Fire Marshal

Fire and Life Safety Division

Permitting and Inspection Requirements and Guidelines

20.2.1 ACCESSING AND RESPONDING TO COMMENTS

There are three ways you can access your plan review deficiency comments in ProjectDox.

METHOD #1

- Once you have opened the appropriate task on the correct workflow, the Task Window will open up. Scroll down and click on the “Review Comments” button to view the deficiencies we have noted.

STEP 1 of 4: Respond to any comments, as needed

Resolve Review Comments ?

Unresolved Comments: 2
Info Only Comments: 0
Files with Markups: 0

Plan Review: **Review Comments**

Review and respond online.

Figure 37 Review Comments button

- The Comments screen will open up and allow you to review our Prescreen Correction or Plan Review comments (depending on your current task) and to provide your responses in the far-right column of the Comments screen. There is no save button for your responses, everything you type is saved automatically. If you have any questions, email FLS.HelpDesk@fire.ca.gov for assistance.

Permitting and Inspection Requirements and Guidelines

METHOD #2

- When you have multiple people that need to respond to comments or simply have a large amount of comments and you want to print a list, instead of printing a “Plan Review – Review Comments” report from the Reports tab, you can export our comments into an Excel sheet that is formatted with your response column included.

STEP 1 of 4: Respond to any comments, as needed

Resolve Review Comments ?

Unresolved Comments: 2

Info Only Comments: 0

Files with Markups: 0

Plan Review:

Review Comments

Review and respond online.

Export to Excel

Review and respond in Excel, then upload your responses.

Import Excel Responses

20.2.3 UPLOADING REVISED FILES & TASK COMPLETION

Upload revised files and complete the Prescreen Corrections or Respond and Resubmit task:

Prescreen Corrections Task

After you have accepted your task and reviewed and responded to your prescreen comments, you need to upload any revised and new drawings and documents.

- Follow the instructions outlined in [SECTION 19.8 STEP 8](#) of this document, except the task link you will click on will be labeled “Prescreen Corrections Task”.
- Upload ONLY the revised documents and drawings to the correct folders. If we removed all of your previous drawings and documents when we performed Prescreen, upload all of your files again.
- Prescreen Corrections are not plan review comments and you should not increase your version indicators on your drawings and documents when you upload revised drawings and documents.

Respond and Resubmit Task

After you have accepted your task and reviewed and responded to your plan review comments, you need to upload any revised and new drawings and documents. Please review the following carefully based on file names:

- **No changes to the file names**
 - For files that you have revised and are re-submitting that have no change to the file name should be uploaded through the following steps:
 - Stay on the “Versioned Files” tab and select the “Yes” button, then select the folder you intend to upload your same name revised files to

Office of the State Fire Marshal

Fire and Life Safety Division

The screenshot shows the ProjectDox web interface. At the top, the ProjectDox logo is on the left and a 'Close Window' link is on the right. Below the logo, the folder path 'Folder: 25-0129\Drawings\02 Construction' is displayed. Two buttons are highlighted with red boxes: 'Browse For Files' and 'Start Upload'. Below these buttons, a message says 'or drag files into area below.' followed by a 'Watch video' link. A 'Total: 0 / 6' indicator is shown. A table lists six files, each with a green checkmark icon, a file name, a size, and a red 'X' icon. Below the table, a legend explains the color coding: Orange for new uploads, Blue for version uploads, and Red for files to be discarded. At the bottom, there are two status indicators: a green checkmark for 'Ready to start upload' and a red triangle for 'Remove, fix, re-select to start upload.'

21 AFTER PERMIT ISSUANCE

21.1 APPROVED FILES

21.1.1 PAPER FORMAT

If the plans for the project were submitted to the OSFM on paper, the approved plans will need to be scanned and uploaded into the Manage Documents section of the GOVmotus permit application. Please log into the account the permit is created under and upload the approved plans. This requirement is noted at the bottom of your plan review approval form. The OSFM will not schedule an inspection unless the approved plans have been uploaded.

21.1.2 ELECTRONIC FORMAT

Once your drawings and documents have been approved, you will receive an email. To download the with the OSFM Approval Stamp:

- After receiving the email that your GOVmotus application has been accepted, log into GOVmotus and open your permit application.
- In the Control Panel on the left side of the screen, click on Manage Plans to be taken to ProjectDox.

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

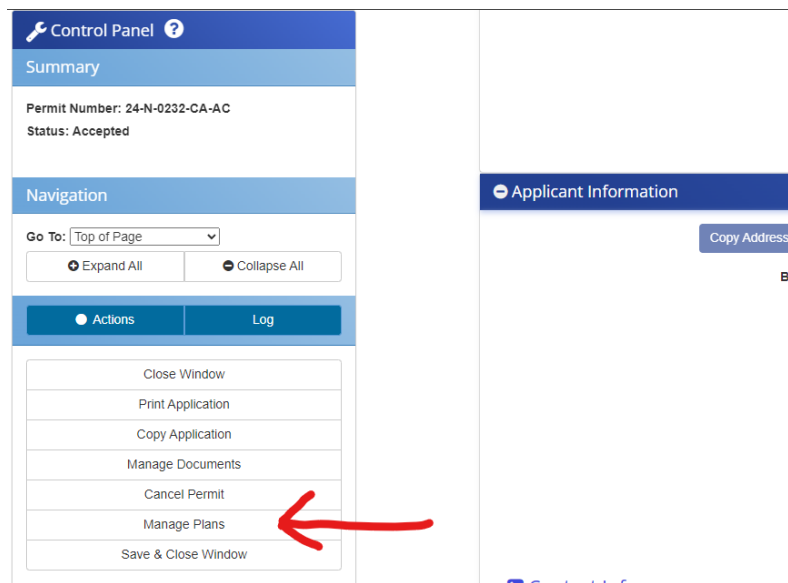

Figure 62 Manage Plans option to transition to the ProjectDox site

- Once you are in ProjectDox, click on the “Files” tab and then click on the Approved folder.

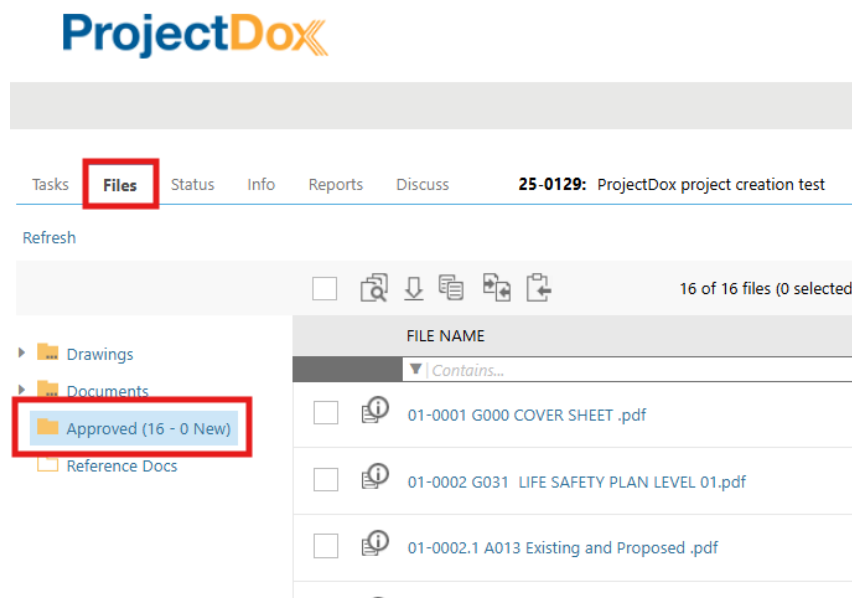

Figure 63 Project Files tab and Approved folder

- Select the files you want to download and then click the downward pointing arrow symbol at the top of the list of files.

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

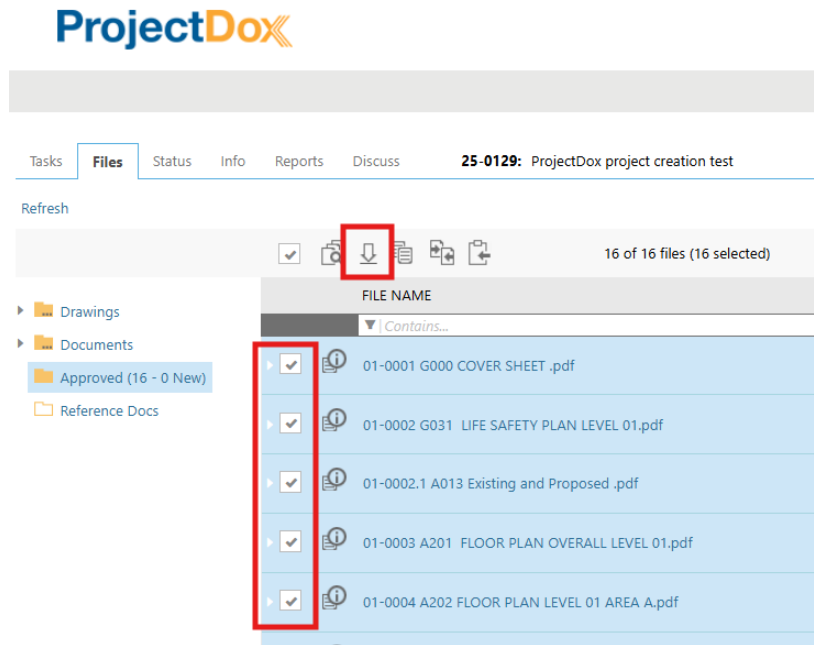

Figure 64 Files selected for download and the download function location

21.2 CHANGE ORDERS

21.2.1 PAPER FORMAT

- Change orders should be delivered directly to the Deputy State Fire Marshal (DSFM) assigned to your project.
 - If you do not know who your field deputy is, please contact the supervisor who services the county in which the project is taking place [OSFM Fire & Life Safety Contact List](#)
- Provide the approved GOVmotus application number with submittal
- Ensure the original approved construction plans have been uploaded into Manage Documents in the permit application
- Provide the revised materials to be reviewed
- Ensure that all revisions are clouded
- Provide a change narrative to assist the DSFM in identifying changes made
- Once approved, the amended sheets shall be slip sheeted into the construction set, scanned and uploaded into the Manage Documents of the permit application as an approved set.

Office of the State Fire Marshal

Fire and Life Safety Division

Permitting and Inspection Requirements and Guidelines

21.2.2 ELECTRONIC FORMAT

- Please email FLS.HelpDesk@fire.ca.gov to get a new workflow started in ProjectDox. In the email, include the permit number, the name of the change order (Ex: ASI #1), and the name of the DSFM on your project.
- Our intake staff will create a new workflow under your permit in ProjectDox and you will receive a notification that a new Upload and Submit task has been assigned to you.
- Once a new Upload and Submit task is received:
 - Upload and submit only your revised files to the correct subfolder under the Drawings and Documents folders following all of the requirements and processes defined in the [INITIALLY SUBMITTING ELECTRONIC PLANS IN PROJECTDOX](#) and [WHEN THERE IS MORE THAN ONE WORKFLOW](#) sections.
 - Provide a change narrative to assist the reviewer in identifying changes made and upload it to the Reference Docs folder
- The change order submission will go through the same cycles and process as a normal plan review. This will allow comments to be tracked and responded to within ProjectDox.
- Once approved, the revised documents will be stamped and added to the “Approved” folder in ProjectDox, superseding any previous files with the same name in the revised set.

21.3 SCHEDULING INSPECTIONS

To schedule a construction or special event inspection, please reach out to the OSFM Supervisor for the county the event is located in as noted in the [OSFM Fire & Life Safety Contact List](#). After your project/event has been assigned a Deputy, you can coordinate directly with the Deputy.

21.4 SIGNING INSPECTIONS

All OSFM reports must be signed prior to issuance of a Certificate of Occupancy/Completion. Please see [SIGNING INSPECTION REPORTS](#) for instructions.

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

22 NEED TO CANCEL AN APPLICATION OR WORKFLOW?

22.1 HOW TO CANCEL A GOVMOTUS APPLICATION

If your project is no longer moving forward or if you created and submitted a duplicate application, you can cancel the application yourself through the Control Panel on your permit application screen.

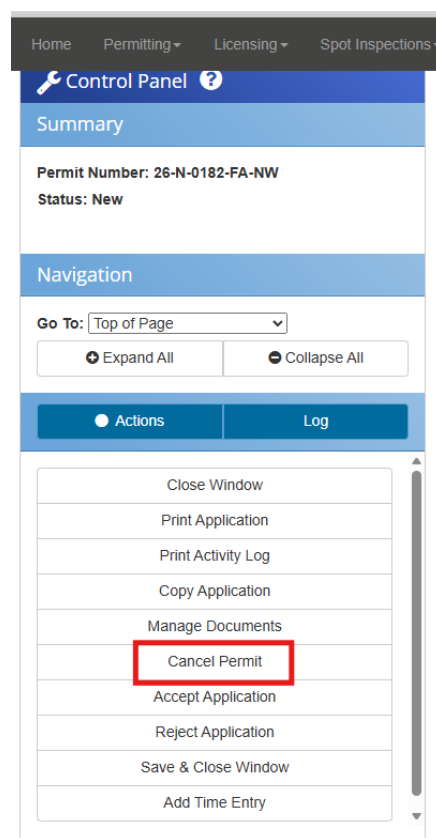

Figure 65 Cancel Permit button in GVMotus

22.2 HOW TO CANCEL A PROJECTDOX WORKFLOW

If your project is no longer moving forward and you need the ProjectDox workflow stopped, canceling in GVMotus does not cancel the workflow in ProjectDox. Please email our helpline at FLS.HelpDesk@fire.ca.gov and request that we cancel the workflow. Provide the GVMotus application number and a brief reason for the cancellation.

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

23 SIGNING INSPECTION REPORTS

The individual designated to sign inspection reports will need to have access to a GOVmotus account to view and/or sign reports assigned to them.

There are two ways a field Deputy may obtain a signature:

- Directly from their inspection screen, they can review the report and any deficiencies with you and then they can have you sign the report right on their screen with your finger.
- They can send the report to a GOVmotus account to receive a remote signature.
 - To sign a report, log into the GOVmotus account that will be used for signing a report. Review the information shown under the My Signatures Required section of the GOVmotus dashboard. Review and sign any reports identified as needing a signature.

Office of the State Fire Marshal Fire and Life Safety Division Permitting and Inspection Requirements and Guidelines

- You have two options to sign the reports via remote signature:
 - You can sketch your signature using your mouse on your computer, or your finger on a device with a touch screen.

The screenshot displays the CAL FIRE inspection report form. The top section includes the CAL FIRE logo and the text: "DEPARTMENT OF FORESTRY AND FIRE PROTECTION, OFFICE OF THE STATE FIRE MARSHAL, Fire and Life Safety Division - North, 1131 S Street, Sacramento, CA 95811, (916) 445-8550". Below this is the "INSPECTION REPORT" header. The "PROJECT INFORMATION" section contains: PERMIT NUMBER: 24-N-0021-CA-PI, JURISDICTION: Life Safety North, PROJECT NAME: Draft Comments field test, TYPE: Clean Agent (CA), ALTERNATE NUMBER: OWNER/AGENCY: A F Bray Superior Court, FHS ZONE: Non-Very High (Default), SFM #, and PROJECT ADDRESS: 240 E Hacienda Ave., Campbell, CA 95008. The "INSPECTION INFORMATION" section contains: Inspection Number: 90329, Inspection Date: 05/20/2024, Inspection Type: Labeling, Inspection Status: Partial Pass, Inspector: Josh Rickard, and Inspector Signature: [Handwritten Signature]. Below this is the "Inspection Comments: Testing" and "Total Inspectable Items: 1". The "Inspectable Items" section lists: Accompanied By: JoshUAT RickardUAT, Discussed With: JoshUAT RickardUAT, and Signed: [Blank]. At the bottom of the form is a "COMMENTS OR QUESTIONS ABOUT INSPECTION SERVICES" section with the text: "Please contact CAL Fire Life Safety North at (916) 445-8550 for assistance." Below the form is the "Signature Options" section, which includes a message: "Choose a signature method: you may either Sketch to Sign or Upload a Signature Image." and two buttons: "Sketch to Sign" and "Upload Signature Image". Below these buttons are two sections: "Please Sign Below" and "Signature Preview". The "Please Sign Below" section contains a message: "Click and drag in the box below to draw your signature" and a large empty box for drawing the signature. A red arrow points to this box. Below the box are buttons for "Save", "Clear", "Submit Signature", and "Back".

24 COMMON MISTAKES

Uploading files into the wrong folders

- Drawing sheets should be uploaded into the drawing folder and documents should be uploaded into the documents folder.
- Based on our new process, make sure you are in the correct subfolder for the files you are submitting.

Incorrect document orientation

- Drawing sheets should be uploaded in landscape. Supporting documents should be in an appropriate orientation for the content they contain.

Drawing file requirements not followed

- Each drawing sheet needs to be uploaded as a singular file. Documents should be uploaded as a whole and not individual sheets.

File naming standards not followed

- Drawing sheet file names should follow our drawing file naming convention.

Tasks not being completed

- Complete your task when you are done uploading all applicable drawing and documents.

Automatic Sign Outs

- The system may automatically sign you out after 120 minutes of inactivity. Please save and save often.
