

FORM PSD-2102 PIPELINE IDENTIFICATION

IDENTIFYING PIPELINES SUBJECT TO COASTAL BEST AVAILABLE TECHNOLOGY REGULATIONS

Coastal Best Available Technology Regulations (CBAT, Article 7, Section 2102 of Title 19, CCR, Chapter 14 Hazardous Liquid Pipeline Safety) require each operator to identify pipeline(s) that are subject to or may be exempt from the requirements of Article 7. You may use this form to submit a list of CBAT regulated pipeline(s) to the Office of the State Fire Marshal:

Name of operator:		OSFM Operator ID:	
Contact person:		Email:	Phone:

Pipelines Subject to this Article

Please provide identifying information for pipelines subject to CBAT regulations. Provide as much identifying information as possible. Inclusion of OSFM Line ID Number is Preferred. [e.g. #2100, #2101, and #2102, or add a comment such as “see attached spreadsheet for details”]

Please submit this form to the OSFM Pipeline Notification email account at pipelinenotification@fire.ca.gov. The subject line of the email should start with [CBAT]. Upon receipt of your email, the OSFM will review and determine which of your pipelines are regulated pipelines under Article 7 and which pipelines are not.

Note: To request a jurisdictional exemption from California Government Code Section 51010.5(a), please attach supporting document(s) of Maximum Operating Pressure as a percentage of SMYS calculations. Alternatively, please attach correspondence for the jurisdictional determination of California Government Code, Chapter 5.5.
