**SUBJECT: COASTAL BEST AVAILABLE TECHNOLOGY (CBAT) EXTENSION  
NOTIFICATION  
(OSFM LINE ID #0001, CA-325 GAVIOTA TO SISQUOC TO PENTLAND)  
(OSFM LINE ID #0015, CA-324) LAS FLORES CANYON TO GAVIOTA)**

Dear [REDACTED]:

CAL FIRE – Office of the State Fire Marshal (OSFM) is writing to inform you of a necessary amendment to our previous time extension acknowledgment letter dated July 31, 2024. During a recent review, we identified an error in the line descriptions for CSFM Line ID's #0001 and #0015. Although this amendment does not alter the decision regarding your extension request, it is essential to ensure the accuracy of our records.

The OSFM has acknowledged receipt of your letter dated July 29, 2024, in which you requested an extension of time until July 1, 2025, as per the guidelines outlined in CFR Title 19, Division 1, Chapter 14, Section 2108(c). It has come to our attention that construction progress has been impeded due to the denial of local permission to install safety valves.

Upon careful review of the information you supplied concerning the pipeline in question, the OSFM has decided to approve an extension of the timeline until July 1, 2025. It is imperative that Pacific Pipeline Company successfully completes the proposed retrofit construction by this new deadline.

If you have any questions regarding this issue, please contact Andy Chau, Supervising Pipeline Safety Engineer, at (562) 305-0679.

August 1, 2024
