POTENTIAL AGENCY IMPACTS

Fire agencies utilizing the Animal Technical Rescue curriculum need to review the new curriculum to be sure that all agency training needs are being met. If not, the local agency may need to augment the curriculum at the local level.

Accredited Regional Training Programs (ARTP), Accredited Local Academies (ALA), community colleges and all other local delivery venues need to review the curriculum and seek approval from their curriculum committee / program sponsor, as appropriate. ARTPs should review the new curriculum and discuss with their advisory committees/program sponsor to determine if the curriculum must be expanded to meet local needs.
