

# Trench Rescue Technician (2021) Training Record

**Name:** \_\_\_\_\_

**SFT ID Number:** \_\_\_\_\_

Unless otherwise specified by an asterisk (\*) indicating that each student must complete a skill individually, students will complete these skills as a member of a team.

	Skill	Course Plan Topic	Evaluator Initials
1.	Describe soil characteristics	3-1	
2.	Interview witness(s) and/or “competent person”	4-3	
3.	Size up a trench rescue operation	4-4	
4.	Initiate a trench rescue tactical worksheet	4-5	
5.	Identify incident hazards to victims and rescuers	4-6	
6.	Implement a hazard control plan	4-6	
7.	Place edge protection *	4-6	
8.	Communicate with a heavy equipment operator	4-7	
9.	Support a trench rescue operation	4-8	
10.	Develop a shoring plan for a nonintersecting trench no more than 8 ft (2.4 m) deep	5-2	
11.	Develop a shoring plan for an intersecting trench	5-2	
12.	Develop a shoring plan for a trench more than 8 ft (2.4 m) deep	5-2	
13.	Build an upright shore	5-3	
14.	Build a waler shore	5-3	
15.	Build an end shore	5-3	
16.	Install a shoring system in a trench 8 ft (2.4 m) deep	5-3	
17.	Install a shoring system in an intersecting trench	5-3	
18.	Install a shoring system in a trench more than 8 ft (2.4 m) deep	5-3	
19.	Use spot shoring techniques to support soil without incorporating uprights or panels as part of the shoring plan	5-3	

20.	Support an intersecting trench as a member of a team	5-4	
21.	Construct and apply load stabilization systems	6-2	
22.	Lift a load	6-2	
23.	Release a victim from soil entrapment	6-2	
24.	Complete a risk/benefit assessment for rescue methods and time constraints	6-2	
25.	Describe how to provide basic medical care to a victim	6-2	
26.	Package a victim in a trench	6-2	
27.	Remove a victim from a trench	6-2	
28.	Remove equipment and protective systems	6-3	
29.	Use site control equipment and methods during termination	6-3	
30.	Clean and service equipment	6-3	
31.	Complete a trench rescue tactical worksheet	6-3	
32.	Conduct incident debriefing	6-3	

A candidate has successfully completed the skill when they perform it to the corresponding Terminal Learning Objective standard found in State Fire Training's Trench Rescue Technician (2021) course.
