

RECIPROCITY APPLICATION INSTRUCTIONS

Fire Fighter 1 Certification

Overview

The California Office of the State Fire Marshal (OSFM) Fire Fighter 1 Certification contains three professional qualification levels set by the National Fire Protection Association (NFPA): NFPA 1010: Fire Fighter I, NFPA 470: Hazardous Materials/WMD Awareness and Operations, and NFPA 1140: Wildland Fire Fighter 1.

The Fire Fighter 1 Reciprocity Application is for applicants who have an IFSAC and/or Pro Board accredited Fire Fighter 1 certification (with a minimum of Fire Fighter 1 and Hazardous Materials Awareness and Operations) issued within 10 years of the date of submitting this application and are seeking a California OSFM Fire Fighter 1 Certification through reciprocity. Note: State Fire Training (SFT) will reject certifications that do not bear the appropriate IFSAC and/or Pro Board seals. Refer to the options below for reciprocity requirements and instructions.

Reciprocity applicants who do not have all three NFPA professional qualification levels listed above must complete the academic training and certification exams for any missing level and submit this application in two phases (See Option B).

SFT only issues combined IFSAC/Pro Board certifications. SFT will not issue a standalone IFSAC or Pro Board certification to an applicant who already holds a certification from only one of the two organizations.
